

BUSINESS SHOWS IMPRESSIVE GAIN IN CURRENT WEEK

NEW YORK, Oct. 13.—(AP)—Dun & Bradstreet said today that the "most impressive pickup of the fall season occurred this week in general trade movements."

"The first full week of seasonable weather," stated the agency's review, "brought reports from all parts of the country of sharp increases in retail distribution, particularly pronounced in rural communities, with the strong drive of the 'buy now' campaign proving a powerful stimulus to the spread of the demand for merchandise."

"The reports were accompanied by advances of labor difficulties being straightened out completely in some industries and partially in others removing one of the most serious handicaps to progress during the last few weeks."

"Financial conditions have become noticeably easier, with work already under way to remove the last lingering traces of the almost complete cessation of banking facilities last March."

"The extent of the business upturn since June, accompanied by the steady rise of employment and increase in payrolls, has developed a new public psychology, which is now one of spending rather than hoarding."

STATES HANDICAPPED OFFERED TRAINING TO FIT THEM FOR JOBS

Training physically handicapped persons for suitable jobs will be undertaken in every community in Oregon, according to Oscar L. Paulson, state supervisor of vocational rehabilitation. The service is available to those above 16 years of age.

Those vocationally handicapped, either because of injury or disease, should present their cases to Mr. Paulson, and an immediate survey of the case will be made. The rehabilitation service seeks and welcomes the cooperation of all persons or agencies who come in contact with the disabled.

Careful examinations to determine the adaptable capacities for industrial and vocational training will be given, and those susceptible to rehabilitation work or vocational guidance will be given every possible aid. The training will be largely practical—in shops, offices and schools of the state.

There are about 40 cases under training in the state at present. The federal government has 30,000 such cases, with more than 8,000 rehabilitated and returned to gainful employment the past year.

Applicants should write at once to the Supervisor of Vocational Rehabilitation, State Board for Vocational Education, Salem.

It Made Tea Drinkers Out of Men

Look for this trademark

Years ago, few men drank tea. Then India Tea became widely known. Now men everywhere are drinking India Tea. It's a man's drink. Because it's rich, full-flavored, winy. Wives may get it for their husbands by looking for the Map-of-India trademark (above) in addition to the brand name, on packages of tea they buy.
