

### SECRET SERVICE TAKES INTEREST IN BOOTLEGGERS

SAN FRANCISCO, Cal.—Bootleggers' worries will just begin with repeal of the 18th amendment.

The United States secret service, which has been uninterested in doings of moonshiners and liquor peddlers during the years the 18th amendment has been in force, is already preparing a campaign against illicit liquor manufacturers and dealers when and if prohibition is repealed.

Penalties, usually consisting of a six-months jail sentence and light fine, probably will become extremely severe.

Capt. Thomas Foster, chief of the secret service here, said:

Capt. Foster instructed his agents to prepare to report all liquor law violators to the internal revenue service for prosecution. Secret service agents may be required to gather evidence, as well as report violations, he said.

Activities of both the secret service and the internal revenue bureau will be concerned with collection of taxes. Moonshiners, who manufacture liquor without paying government taxes, and bootleggers, who sell liquor in bottles not bearing revenue stamps, will be targets.

Compared with present penalties, Foster pointed out, internal revenue laws provide for a fine of \$5,000, sentence of five years in a federal prison, or both, for violations.

### 'PRETTY BOY,' ACE OUTLAW, REPORT IN FRISCO AREA

SAN FRANCISCO, Oct. 20.—(P)—Charles "Pretty Boy" Floyd, taunting and elusive Oklahoma desperado, was sought in northern California today, on reports he was in this vicinity.

One report, purporting to come from the notorious killer himself, was that he was in San Francisco, taking a look at Alcatraz Island prison, which is to be converted within 90 days into the "United States" "Devil's Island" for desperate criminals.

After department of justice agents made a futile raid down the San Francisco peninsula earlier in the day in search of Floyd, a telephone in the San Francisco Examiner brought this message:

"Say, about 15 federal agents went down to Monterey today, looking for 'Pretty Boy' Floyd—did you know that? But they didn't find him there, 'cause it was all a joke. He wasn't in Monterey."

"Who are you?"

"I'm Floyd."

"What are you doing here?"

"Taking a look at Alcatraz."

The caller hung up, and efforts to trace the call were futile.

Wanted for half a dozen crimes, Floyd has repeatedly been reported in various sections of the west and recently a purported emissary offered his surrender in return for a promise of clemency from Governor "Alfalfa Bill" Murray of Oklahoma. The request was refused.

### AUSTRIAN TROOPS DESERT TO ENLIST IN HITLER NAZIS

VIENNA, Austria, Oct. 20.—(AP)—The secretly circulated socialist organ, "Warheit," said today that approximately one-tenth of Austria's army—more than seven battalions—has deserted and gone to Germany.

These soldiers, which, it asserted, are on German soil, do not include the Nazi army within this side of the border and the troops between them in the so-called "barbed wire" border.

The latter line stretches as harmless as any pasture fence with an average of 12 men, mostly green auxiliary guards recruited from the meinhwehr (home guards), protecting each 20 kilometer stretch (about 12 1/2 miles).

The paper cites recent instances of Austrian officers assigned to border duty immediately seizing the opportunity to cross into Germany.

It the Wahrheit's figures are correct, this means that Germany—which in the last six months allegedly has been threatening to invade Austria—meanwhile has been "invaded" by seven battalions of Austrian soldiers and at least 20,000 civilian Austrian Nazis.

The figure does not include Chancellor Adolf Hitler, who himself crossed into Germany some years ago.

### Pear Beverages

Ginger pear beverage is simply made. Fill tall, thin glasses — or otherwise preferred container—some two-thirds full of pear juice. Drop

in two or three bits of candied ginger, add cracked ice sufficient to insure coldness and serve.

Creamed pear punch assures pleasant change. Peel, core and press through a sieve two quarts of ripe, sweet pears. Add two cups of powdered sugar, a teaspoon of ginger and put on ice to chill for half an hour. Have ready two cups of sweet cream beaten together with whites of two eggs and whisk this with four quarts of slightly sweetened pear juice. Add cracked ice in the serving. This makes six quarts.

### AIR ATTACK HOPE OF STATE TEAM IN TROJAN BATTLE

OREGON STATE COLLEGE, Corvallis, Oct. 20.—Straight power drives, a flashy running attack and an ever-dangerous overhead game will be the main offensive threats of the Oregon State football team against Southern California in Portland Saturday afternoon at 2 o'clock.

Although the orange power plays and running attack have brought a few scores this year, Lon Stiner, coach, has been spending much time during the last week smoothing out the last rough spots in the Orange attack.

Most of the Orange points have resulted from a strong aerial attack which may cause the Trojans no little trouble as the single touchdown scored against the national champions this year was by the overhead route. While the Orangemen have used a combined running and passing attack to bring yardage, the Trojans have depended largely on their highly touted power drives on offense.

Although the Trojans have a first-class passing attack, they have taken to the air only a few times in early season games.

On defense the two elevens have identical records but the Trojans have scored more than twice as many points as the Orangemen in a like number of games. Southern California has piled up 154 points for an average of nearly 32 markers a game while the Orangemen made 74 points for an average of about 15 points a contest.

Reserved seat tickets for the game are \$1.85. General admission is \$1.10, and high school student tickets 55 cents each.
