NEW YORK, Oct. 26.—(AP) Stocks sagged today as grains turned heavy and traders were unable to muster

that was ascribed largely to yesterday's buyers. An advance of 18 cents in the United States official quotation on gold was apparently not enough to stimulate any aggressive buying of wheat or other cereals. A noticeable disposition in various quarters was shown to realize profits on holdings. Wheat closed unstable, 2 1/2-3 cents under yesterday's finish, corn unchanged to 1 cent lower, oats 1 1/2-2 cents off, and provisions unchanged to 27 cents decline.

CLUB WOMEN IN GLEEMEN'S DRIVE

A committee of ladies representing a number of Medford clubs is in the field today obtaining associate membership in the Medford Gleemen. It was announced by Mrs. Oliver Overmeyer, chairman in charge.

In order to create interest in the drive for associate members, the Gleemen will render a few numbers at Hunt's Craterian theater tonight and a short talk regarding civic activities of the singing organization will be made by W. F. Isaacs.

In view of the fact that the Civic Music association will not sponsor any concerts this year, the Medford Gleemen will present two concerts in the fall and holders of associate memberships will be entitled to attend both with two friends or, if

so desired, may obtain six admissions for one concert instead.

In the next few days it is expected that all music lovers in the city will be contacted but those who desire to obtain tickets immediately can make reservations at the Chamber of Commerce. The price of an associate membership is \$2, it was announced by Mrs. Overmeyer.

Jean Harlow and Lee Tracy Coming In Holly Picture

"Bombshell," which will open Saturday at the Holly theater, is the first picture in which Jean Harlow and Lee Tracy have been co-starred by Metro-Goldwyn-Mayer. The picture is based on a play by Caroline Francke and Mack Crane and was adapted to the screen by Jules Furthman and John Lee Mahlin.

As Lola Burns, an exotic and sensational film star, the platinum-blond Miss Harlow is reported to have one of the most effective and entertaining characterizations of her meteoric talkie career, a role described as being even more striking than her respective performances in "Red Dust," "Hold Your Man" and "Dinner at Eight."

Lee Tracy, one of the most dynamic personalities in pictures, plays opposite Miss Harlow as her bon-bastic publicity director who is responsible for many of the difficulties in which she finds herself with the studio executives, her family, her fan public and her many admirers.

GOODYEAR PATHFINDER Supertwist Cord Tire

"Up till now, I've bought Tires at the wrong time"

"I always figured that I needed new tires in the spring. Maybe I did, after nursing old tires through the winter. What really started me thinking was the low prices of Goodyear Tires today. I wanted to buy them anyhow, while these prices last. I don't know how high they'll go by spring."

"But here's the joke on me. Hot weather makes tires wear faster. Using your brakes on hot, dry roads is just like putting tires against a whirling grindstone, and that's tough on even the best of rubber."

"But the big fact is — I can forget about tire troubles on cold sloppy days — I can forget about skidding when I've got the sharp new grip of Goodyears between my brakes and the road — and my tires will still be in swell shape next spring."

"So, when winter rolls around, the cream of the keen sharp grip is already of my tires. But roads are cool in fall and winter. And in the worst driving months of the year, the roads are wet and sloppy most of the time. And it just dawned on me that wet sloppy driving is easy on stout new tires. The water protects the tires from friction — and everyone knows, rubber wears longer when it's wet."

"Buy Now — help keep men at work — and get prices almost the same as they were a year ago!"
