SECURITY ACT IS INVESTMENT CURB BANKERS DECLARE

Making Issuers Criminally Liable For Statements About Bonds Casts Shadow On Makers, Sellers.

By JAMES R. BRACKETT (Associated Press Financial Writer.)

HOT SPRINGS, Va., Oct. 31.—(AP)—The Investment Bankers association—the bankers who sell the nation's bonds—today began a drive for modification of the securities act, on the grounds it is holding up investment of millions which might be used for jobs.

The bankers, in convention here, heard their president, Frank M. Gordon of Chicago, charge that the act which makes security issuers criminally liable for their statements of facts about bonds "seems to include that makers and sellers of securities are presumptively corrupt."

Hurting Recovery.

The convention approved Gordon's remarks and passed resolutions saying "this condition is seriously interfering with industrial recovery and re-employment" and that it is "essential to redefine the indefinite liabilities imposed by the act so as to make it possible for responsible enterprises to meet their requirements for new capital and to cooperate with the recovery program."

Gordon said that all over the United States corporations are ready to undertake the financing so necessary to industrial recovery, but he said: "No corporation director in his senses is going to risk existing resources by putting his name on financing under a law which makes him personally liable for the next 10 years and adopts the 'un-American' principle that he be judged guilty unless he can be proven innocent."

Too Much Liability.

"It is time for plain speaking. The law is a hindrance to national recovery. Personally, I do not believe that anyone ever intended to pass a law which makes a country dealer who handles a ten million dollar issue liable for the entire ten million."

Gordon said more than \$89,000,000,000 in new and refunding capital had been floated in the United States in the last 14 years. This money was used for new buildings, roads, plant expansion and for other employment producing purposes. Now, he said, capital flotations have been stopped principally by the securities act so the re-employment which ordinarily would flow from private funds is stopped.

EAGLES LODGE TO RECEIVE STAR FOR MEMBERSHIP GAIN

At a meeting held Monday night in the Eagle hall more than enough candidates were secured to give the Medford Aerie the honor of receiving a star from the grand aerie.

It is only on rare occasions that an aerie is able to secure this honor, according to lodge officers, and there is no question but what Medford will receive honorable mention from the magazine published by the Fraternal Order of Eagles which goes to more than 700,000 members throughout the United States.

This drive has been under way for the past 30 days and has proven one of the most successful ever conducted in Oregon.

The success of the drive has been due to the cooperation of its members and owing to the success of the drive it is the intention to continue for a short time longer, according to R. S. Henderson, of the local lodge.

Arrangements have been made to initiate another large class at the armory next Friday night, the initiation to be given in honor of the state president, D. D. Hale.

Considerable rivalry has been created between two teams headed by P. R. Shelley and Ralph Parker. Following is the standing of the two teams:

- P. R. Shelley, 5; A. B. Allen, 1; Ben Liberty, 4; W. S. Doty, 4; J. D. Wagner, 4; J. R. Huston, 2; C. E. Foster, 1; W. W. Ireland, 1; V. O. Gillette, 4; S. Appolo, 4; J. B. Hamaker, 1; L. L. Anderson, 1; E. B. McCuen, 3; Dr. A. P. Kresse, 2; W. E. Peck, 1; W. T. Shea, 4; H. Volchner, 1; J. H.

WRIGLEY GUM PRICE 5 CENTS AT CHAINS

CHICAGO, Oct. 31.—Philip K. Wrigley, president of the Wm. Wrigley Jr. company, made the following announcement here today.

"We are reaching agreements with the large chain stores to offer the standard package of Wrigley's chewing gum at 5c a package. While our action, so far as we know is the first attempt along this line, we believe and hope it will result eventually in the stabilization of 5c products in the confection field, which is in line with the spirit of President Roosevelt's NRA program.

Our product is an established 5c worth to the consumer and while our prices mean little in the value the consumer receives, it means a lot in helping the small storekeeper meet the NRA requirements.
