Making known the first step in the buying of foreign gold, Chairman Jesse H. Jones of the RFC last night announced that the New York Federal Reserve bank would pay for imported gold in RFC notes, with which the newly mined domestic metal also is bought.

By this plan, it appeared the government has avoided dealines in forernment has avoided dealings in for-

eign gold and exchange markets, leaving them to individuals and firms leaving them to individuals and firms choosing to ship gold here.

The effect of this upon world gold prices and the exchange value of the dollar and the pound, economists said, would be virtually the same as though the government were making the purchases direct.

We believe Mr. Barnes' idea of bringing prosperity to this country would wook sil right, but we have very small hopes of ever seeing it tried out. It would be too good a thing for the common man.

For over three years the greatest financial experts did their best, in their own way, to overcome the depression, but things continued to be come worse. Now it is high time to kick these experts out and try sometime worse of prosperity almost overnight of our government would do just three things, i. e.:

Put men to work at unproductive labor. Frint money to pay their wages, and control prices of everything.

Suppose the government would put 5,000 southern Oregon men to work a fine of the control prices of everything.

Were put up in the woods, as well improved the middle and fifty-five miles of telephone line work on 1440 miles. The boys built 291 permanent for the country between Troutdets and improved them with houses, ranger stations and harms.
