# Ye Smudge Pot

Mile Heno, the professional friend of the farmer, who Saturday indulged in some country sarcasm at the ex-pense of the president, and his recovery plans, announced that the farm strike "will now be thrown into farm strike "will now be thrown into full gear." There is something in the NRA about "commercialized agitation," and it is here and now predicted that soon Mr. Reno, and U. B. marshals chasing him, will also "be thrown into full gear." Mr. Reno is quite an interesting cuss. He draws \$10,000 per year, and has been too busy at his desk to get out on the agricultural front where farmers are ramming pitchforks through each other, throwing dynamite at creamers, and bouncing 10-gallon milk and bouncing 10-gailon milk off the heads of opponents.

The Banana Squash is now upon market. People who have eaten product report that the banana t certainly got the worst of the

THE GREAT DIVIDE

Re-distribution of wealth has been siyly mentioned by several politicians of late, who lightly feel the urge to hikers, ne'er-do-wells, expert moochto Oregon in time to vote and share in the Great Divide. Its very alliness insures its success, and should poil a larger popular majority than the late unrealized electric lights for nothing.

eion has been growing that the other fellow had too much wealth, and enactment and the vote of the people to whack up with a brother who had nothing, but the year-round spring fever, and a chronic hatrad of work, fever, and a chronic hatrad of work thrift, and staying in one place long snough to accumulate anything outside of an automobile. The type is always filled with an unconquerable desire to go some place, and when arriving there to go some place else Under the epilt-up plan, the toiler and the saver could no longer turn up his economic nose at the brother and the saver could no longer turn up his economic hose at the brother whose rattle-trap vehicle has clattered down the main stem of every town looking for the Red Cross headquarters, and the Salvation army soup kitchen. Thus the Biblical injunction, to the singgard to consider the

living in a tent, equipped with, an electric clock won on a punchiboard, and whose worldly goods consists of three dyspeptic bloochounds and a 30-30 r.ffe with a broken trigger. There are not enough millionaires to go around, and everybody will want the governor or others of his money-getting lik, as partners. Here is where the confusion will start, and trouble is to be looked for, in keeping it from becoming pandemonium.

In a coming issue, the write will discuss another angle of this Utopian discuss another angle of this Utopian policy, vis: the establishment of Oregon Jackpet No. I, and the selection to Angeles, was dead here to while authorities sought to determ

### Eventually, Why Not Now?

THE Nelson-Kerr-Morse flare-up is surprising only because it broke so soon after Mr. Nelson was appointed president of the state board of education. Most people expected that, with radical changes in the personnel of the state board, there would, for a time at least, be an appearance of harmony.

But sooner or later, such an explosion could not be avoided. As has been previously pointed out in this column, as long as Dr. Kerr remains chancellor of higher education in this state, dissatisfaction and resentment at Eugene will exist, and dissension and turmoil, continue.

TT is all right to talk about harmony and place the blame for the lack of it on Eugene; but does any fair minded person believe that if former President KERR had retired, and former

THE ENTIRE trouble goes back to the failure to carry out the original agreement, when state unification of higher the original agreement, when state unification of both nourished, in fact overnourished, and they have no more aspetite for or education was decided upon,-namely that the heads of both state institutions retire, and a new man, from outside the state, in no way involved with either institution, be named as chancellor.

Just why that agreement was never carried out is not clear. Undoubtedly fear of the Zorn-McPherson bill had a great deal to do with it. But WHATEVER the reasons, the mistake then made was FATAL.

And strife and dissension will continue, until that mistake is corrected; until those in charge of education in this state go back to first principles, and Chancellor Kerr is replaced by some qualified educator, who is not now and never has been, connected in any way with EITHER institution!

### Farmers Demand Fascism

THE refusal of President Roosevelt to accede to the demand of the five Middle West governors, for a price-pegging program for agriculture, brings into sharp relief a very interesting

We have the EMBATTLED farmers demanding Fascism, and the president of the United States, accused of dictatorship, refusing it!

For obviously if the government should put into force a program of controlling prices (and production) in agriculture, it could not refuse to assume a similar control in other forms of industry. And that of course would be pure and unadulterated Fascism,- a Rooseveltian dictatorship, in this country, exactly similar to the Mussolini dictatorship in Italy.

EQUALLY obvious is the fact that in denying this request, President Roosevelt did only what he HAD to do. To taken up bowling. They will do any-thing to get away from home nights. accede to this request would have not only meant to repudiate his own secretary of agriculture-force his immediate resigna-

well as can be expected after his recent seedent, when the milk truck which he was driving was struck by a train with 17 empty box cars.—
(Heppier News.) John thanks his lucky stars that the 17 box cars were people of the country are asked to do certain things, not FORCED to do them,-the only supporting element is the force of public opinion.

No one denies this recovery program has bogged down sharp-ly of late. But nothing else should have been expected. make a great sacrifice next spring and run for something. With everybody broke, or nearly so, the notion should history. President Roosevelt intends to do it, by economic planning, based upon voluntary cooperation, and until he is CONVINCED this can't be done, will not abandon his pro-

The governors demanded he abandon this program now, as far as agriculture is concerned. They maintained, and this Milo Reno and his followers maintain, the program has already failed.

President Roosevelt doesn't agree with them-and we believe the people of the country as a whole don't agree with Palm Bethem. Their demand is due to unwarranted impatience on one dinner at the Colony and was holpen actor in a salary rise suit who exhand, and too high expectations on the other.

THIS doesn't mean that President Roosevelt will never turn to Fascism—compulsory industrial and agricultural control. including price fixing by federal edict, production quotas, and all the rest of it. But he is only going to do it as a last resort. He is only going to do it when he is convinced the country can

THIS farmers strike may cause considerable trouble, but we are convinced it will fail, because we are sure the people of the country as a whole will never support it.

Ritchen. Thus the Biblical injunction, to the stuggard to consider the ant would be repealed, and all be as the filled of the field, neither tolling for applaning.

After the uneven distribution of the plan, as will the urban dwellers generally. The more Pegging farm prices now at a higher level, will simply mean wealth, has been cured with an even distribution, everybody knows it will be quite a job to keep it even, but the statesman who thought of the idea in the first place, can figure that out, by providing for another distribution, whethever somebody goes broke playing poker, or buying burn stock.

It's the only way—the only patriotic, self respecting thing eatth, has been cured with an even rapidly the strike develops, the more deplorable will general rapidly the strike develops, the more deplorable will general conditions become. Eventually an aroused public opinion will circus attendants came.

saw all the guests had gone in to dinner. He did the only thing postable, held the sand yelled for help until circus attendants came.

saw all the guests had gone in to dinner. He did the only thing postable held the sand yelled for help until circus attendants came.

Steps should be taken to prevent any inequality in the split-up, and the pay-oft. It is much easier to divide with a millomaire, than a gent living in a tent, equipped with, an

# Comment Day's News

By FRANK JENKINS PROBABLY you noted this paragraph in recent news:

"The end of forest exploitation in the United States was foreseen here today as a check of national and state foresters and representatives of the lumber industries found all groups emphatic in the opinion that forest perpetuation has been definitely de The dispatch comes from Washing

WHAT does it mean?

It means that the great lumher industry has decided to log hereafter in such a way as to protect the forest stand, permitting young timber to grow up to replace the old timber that is cut and manufactured into lumber.

In other words, the forests are to be treated as fields, to be tilled and made to produce succeeding crops. instead of as mines, to be emptied

PUTTING IS in another way, communities that now depend upon the lumber industry for their industrial payroll may expect to look forward to that industry indefinitely as a producer of employment, instead of regarding it as a mere TEMPOR-ARY producer.

IS NRA a success, or a failure? It all depends on the point of Constance Allen, 20, blonde and dazzling, was chosen the most beautiful artists model by the professional artists who served as judges at the Seven Arts Bal Masque in Los Angeles. She is 5 feet seven, weighs 115 and has graygreen eyes. (Associated Press Photo) view. In the case of the lumber industry, it is a great success, for it enables the lumber industry to accomplish what it has wanted for years to accomplish—that is, the adaptation to supply and demand.

Adaptation of supply to demand means STEADY amployment, year after year, in the place of peak employcommon thing to violate the law, in all manner and shapes. Take the law in regard to killing deer: A couple of fellows go out in the woods and take their wives along, women who never fired a gun in their lives, and in a few days come in with four high ment one year and no employment at

FOR years and years, the lumber industry has been either a feast or a famine. Either the market has been in a few days come in with four big in a rew days come in with four big mule deer, with tags for each one— If that is not an evasion of the law I don't know what you would call it. And then another little stunt that is pulled off that sounds a little fishy to me, is for four or five fellows to good, or it has been ROTTEN. Either employment has been ABUNDANT, or it has been lacking almost altogether. If the lumber industry can be staillized, so that there will be reason-

get in their cars and go out where the mule deer runs, and stay one or two nights and come back with a big mule-tailed buck for each one of them. Sometimes I wonder if they really killed those deer, or were they already barning up ready for them. cific Coast will benefit tremendously That is what NRA, through its code system, proposes to bring about.

A READER asks this question:

A "with a 'maintained dollar that will not change in purchasing know something about it. and debt-paying power,' what in later years will be the status of a person having a definite amount of the son having a definite amount o

THAT is an interesting question, in view of all the talk of commodity dollars and stabilized prices.
