The WEEK'S TREND in Business and Finance

By LAWRENCE W. SCHMIDT, Director of Research and Research Corporation, Inc.

By LAWRENCE W. SCHMIDT
Director of Research Administrative and Research Corporation, Inc.
Trend in Business Indefinite.
While business activity of the past week remains substantially above a year ago important indices continue to display a mixed trend. The declining movement of the previous week in steel production is again repeated. Petroleum production was also slightly off. Both bank deposits and discounts decreased. On the favorable side was increased bituminous coal output, upward electric power production and slightly larger automobile volume. Freight car loadings sustained the advance of last week.

Notice of Sheriff's Sale.
By virtue of an execution on foreclosure duly issued out of and under the seal of the Circuit Court of the State of Oregon, in and for the County of Jackson, to me directed and dated on the 28th day of October, 1933, in a certain action therein, wherein The United States National Bank of Portland, Plaintiff, recovered decree against Ira A. Baker and Effie D. Baker, husband and wife, the defendants, for the sum of Three Thousand and no/100 (\$3000.00) Dollars, plus interest, and the said execution, by law, all of the said execution, I will on the 2nd day of December, 1933, at 10:00 o'clock of a. m. at the front door of the Courthouse in the City of Medford, in the State of Oregon, offer for sale and will sell at public auction for cash to the highest bidder, to satisfy said judgment, together with the costs of this sale, subject to redemption as provided by law, all of the right, title and interest that said defendants, Ira A. Baker and Effie D. Baker, husband and wife, had on the 21st day of April, 1932, with costs and disbursements taxed at \$12.85, and the further sum of \$150.00, as provided by law, in and for the County of Jackson, in the State of Oregon, situated in the County of Jackson, State of Oregon, to-wit:

Call for School Warrants

Notice is hereby given that all school warrants of District 91 with the following numbers will be redeemed, Nov. 35 to 349 inclusive. Interest will cease after the 10th of November. Also numbers 264, 267, 274, 280, 283, 286, 309, and 313 have been called for.
J. E. SMITH, Clerk.

Fuel Oil delivered the modern way. Call 315. Eads Transfer.

Second Step Toward Currency Management

Unsuccessful efforts of last week to reduce the purchasing power of the dollar and to drive up commodity prices through RFC purchases of newly-mined domestic gold were bolstered by the announcement that a policy of buying gold in the world market would be adopted. The first offer to buy gold abroad was made Thursday at a price of \$32.36 per ounce which placed the domestic gold value of the dollar at \$6.6407.
Collaboration of the British government—rather than an expected price rise—was interpreted by the raising of the British price of gold 58 cents Thursday to \$32.11 per ounce, only 25 cents below the American price. The London price at the close of last week was \$1.28 under the RFC quotation.
Although details of plans to buy gold abroad are still closely guarded, foreign central banks—the Bank of England and the Bank of France—are believed to be acting as correspondents for the Federal Reserve Bank of New York, which has been authorized to exchange RFC debentures in payment for foreign gold. Purchases in Paris and London were reported in the first day's operation.

Spur to Capital Goods Industries

Two quotations jotted on a pad, added and divided by two, broke the deadlock last week between leading steel executives and the president on the price which railroads should pay for rails and rail fastenings on credit extended by the Public Works Administration.
The four major steel companies—charged with "collusion" by Co-ordinator of Transportation Joseph B. Eastman—agreed to the compromise price of \$35.375 per ton suggested by President Roosevelt. This is half way between the \$57.50 which they wanted and the \$35.00 which the railroads wanted.
Promptly were orders for rails placed at the new price. Largest of the orders was that of Pennsylvania railroad for 100,000 tons. The Public Works Administration has allocated \$135,000,000 for railroad loans—\$51,000,000 for the purchase of rails

Practical or a shortcut is either impractical or a shortcut.

Medford, Oregon, Nov. 6. (AP)—The Pennsylvania Electric Co. has announced that it will be a public utility. It is no longer permitted to entertain an uninhibited mental attitude nor to dare to give its expression. A spade may now be termed a spade, other than in a spirit of banter. Progressive men in city and hamlet are rejoicing in the big stride. Sometimes financial loss ensues. They are willing to take it on the chin. An excellent example of community service in Medford is worthy of commendation. When an outstanding municipal leader, unhesitatingly accepted the first NRA call to arms and efficiently captured the forces, it was well to take notice. Such evidence of good faith and moral courage in a time of crisis when the very foundation of time-cherished institutions were being more than figuratively rocked, by the new deal, has not been part history in the main. True interpretation of the brotherhood of man is coming into its own. A pat on the back is not sufficient. The hero who does not want a medal still goes his way unlauded, but the New Era has arrived.

For Selective Sales Tax

Your editor, as well as the community editor, M. Barnes, in today's Mail Tribune, contains some excellent points on the subject of taxation. There is one very vital factor, however, that neither article seems to reckon with—that is THE ABILITY TO PAY.
While so many thousands of people are out of employment no general sales tax should ever be laid on the bare necessities of life. But a selective sales tax that could be levied on the more expensive articles of luxury, highly processed foods, expensive automobiles—in fact, on all luxuries, if properly applied, would raise the necessary revenue without working a hardship on any one.
A graduated income tax, beginning with incomes of five hundred dollars for unmarried persons and eight hundred for those who are married, and no exemptions allowed, would produce most of the necessary funds without hurting any one badly.
G. W. COWDREY, Jacksonville, Oregon, November 6.

Favors Sales Tax for Farmer

There is no way in which the farmer can be held responsible for our present economic depression. He has made the old process of producing abundantly. No one could accuse him of charging more for his labor than his fellow-man receives. In reality he is the worst exploited of any since he, himself, does not receive even prevailing wage for his service. We suggest that he be allowed to continue, haphazard though his methods may be, until such time as he becomes a public menace, through under production or exploitation of others.
But in order for him to continue to operate he must have some real relief. He must be relieved from the burden of interest he is expected to pay. The indebtedness on farm property is appalling and can never be paid under existing conditions. The government should issue commodity money at cost and loan him interest-free or at cost of administration, with which to retire these existing debts. Double taxation, to which he is now subjected should be eliminated by using only sales tax. Relieved from these two burdens and having provided that he will no longer have to pay needless profits on the things he buys, the farmer will enjoy a new lease on life.
When a calamity such as a pestilence or epidemic confronts a nation, or when we are threatened by an enemy or our national dignity is offended, often when the property of a few of our citizens in other lands is in danger, the government goes to great expense and even wages war to correct these matters. In view of which we deem it justifiable for our government to use the means we have suggested to put an end to needless suffering and want among the majority of her people.
BERT HARR, Jacksonville, Nov. 6.

DOMESTIC LUMBER GIVEN PROTECTION

WASHINGTON, Nov. 7.—(AP)—To protect United States lumber producers from the old-fashioned competition of dumped foreign lumber, the lumber code authority today announced that minimum prices for foreign woods must equal the minimum cost-protection prices of the same domestic item at any delivery point.
Under the ruling the authority declared that European including Russian, and Canadian woods must be sold at, often, when the minimum cost-protection prices for equivalent items in domestic lumber.
This ruling, it was pointed out, will protect domestic manufacturers against unfair competition.
HEATING STOVE BURNS FATAL FOR AGED LADY
BURNED, Nov. 7.—(AP)—Severely injured when her clothes caught fire from a heating stove Sunday, Mrs. Laura Krewson, 70, of Drain, died at a Eugene hospital today. Mrs. Krewson was alone in her home at the time of the accident.
Heating stove can be reduced. For complete heating service call Art Schmidt, 418-1092.

Communications

To the Editor of Liberation.
See Erra.
All Hall the Dawn! Constructive individualism dares refuse to tear down, except for the purpose of rebuilding more worthily. Sinieter and partial political maneuvering is rapidly becoming transparent, even to the city, and is hastily being cast into the discard. Imminent is the hour when the masses will not be driven, banded and sheep-like. No longer do they follow blindly, and the self-centered tyrant and his hoi-joi henchmen, who are far enough in advance to sale on the kernels. The chaff and stubble in the wake fail to satisfy. Our nation-styled miracle-man, Franklin Delano Roosevelt, is heaving the way. The obstacles are legion and so gigantic,
