

# AFGHANISTAN KING SLAIN BY TRAITOR; SON TAKES CROWN

BOMBAY, Indis, Nov. 9.—(AP)—A sorrowing youth of 21 occupied the Afghan throne today as the nation mourned the death of his father, King Nadir Shah Ghazi, who was slain by a traitor yesterday.

Though plunged into mourning, the nation unanimously declared allegiance to a new monarch, Mohammed Zahir Shah, said a message to the Afghan consulate here.

The boy king was married two years ago to a cousin, daughter of Sarwar Ahmad Shah Khan.

His father took the reins of government October 16, 1929. He succeeded Amanullah, whose attempts to "westernize" the country met with opposition from certain Afghan tribes.

A popular vote sent the late ruler to the throne from which he directed improvements in farming and business. He built roads and bridges and

# Sunday Baseball For Pennsylvania Decried By Vote

HARRISBURG, Pa., Nov. 10.—They'll be playing Sunday baseball next spring in Philadelphia, Pittsburgh and other large cities of Pennsylvania.

In the first referendum on the blue laws which have stood unwatered since 1794, voters in the populous centers of state Tuesday authorized their local officials to license baseball and football games on Sunday afternoons.

Initiated construction of a trunkline railroad.

At New Delhi, India, a blood feud between the exiled former King Amanullah and his uncle, Mohammed Nadir, was blamed for the latter's assassination by Major W. K. Fraser Tyler, acting foreign secretary of the India government.

"We had been fearing that this might happen for some time," he said. "Factions in Afghanistan are so bitter it is impossible to predict where the event may lead."

# DORMANT SPRAY IS ADVISED NOW

Pear and apple growers can well afford to take advantage of the present good weather and apply their dormant lime sulfur spray for the control of San Jose scale and blister mite, states County Agent L. P. Wilcox.

The advantages of fall spraying are many, especially in cases where orchards are located on heavy clay soils that remain wet and soft late in the spring.

Liquid lime sulfur, 12 gallons to the 100 gallons of water, applied any time after the foliage has been reduced to the point where coverage of branches is made possible, will be effective in the control of scale and blister mite insects.

Growers following such a program should not start their spraying too early in the morning, thus to permit frost and other moisture to disappear from the trees. Care should also be exercised in draining the spray pump each night in order to forestall any freezing of this essential piece of orchard equipment.

# WALTER ABBEY OFFERS SMART NASH CAR LINE

Now it can be told!

Today, throughout the week and during the month to come, the Nash Motors company is formally presenting to American motorists the three entirely new and different series of 1934 motor cars which for weeks past have been the consuming interest of automobile experts the country over.

In Medford special announcement displays and receptions are open to the public tomorrow in the showrooms of Walter W. Abbey, Inc., Nash dealer, at 123 South Riverside, and in other Nash showrooms throughout the territory.

Never in the history of Nash Motors has public interest in a new car development been so intense and widespread. The news leaked out months ago that Nash engineers and designers were developing a 1934 product so striking in style and in advanced performance qualities that it would literally change American automobile standards and make motoring a sport again.

As this development work advanced, interest and anticipation grew. First it swept the engineering and technical world, where Nash engineering genius and the company's many contributions to motoring improvement are matters of permanent record. Then distributors and dealers were given an opportunity to see the first new models produced, and their enthusiasm stirred merchandising circles to a point above any new model event in Nash history. Many new distributors and dealerships were added to the big Nash organization long before any of the new cars were available.

Then alert people of the motoring public, always eager to be first with the latest, set up an unprecedented advance demand for the 1934 models. Many buyers signed orders from the catalog pictures, without actually seeing a single new Nash model—a sales event which has not happened generally since the earlier days of the industry. This public interest grew until Nash officials decided to overthrow tradition and to exhibit some

of the first available new models in the Nash plate glass tower at the Century of Progress Exposition and at other points in the country as soon as early shipments could go forward. As a result, thousands have seen and approved the new Nash achievement while the company's factories were gathering headway by day and night operations in order to meet the urgent demand throughout the country.

Now the new 1934 models are available for the biggest national presentation experienced in years by the automobile industry, and can be viewed by all motorists.

All models of the 1934 Nash line, which includes a new twin-ignition big six series on 118-inch wheelbase; a new advanced twin-ignition eight series on 121-inch wheelbase, and a new Ambassador twin-ignition eight series on wheelbases of 133 and 142 inches, introduce a distinctive "speed-stream" styling making them the most noticeable cars on the road. All are endowed with a reserve of power and a sparkling performance quality which lifts them high above even the lofty automobile standards of the past few years, and adds immeasurably to the pleasure of driving.

The three new Nash series for 1934 add prestige to a great name and carry on the Nash tradition of care

and precision in all details. All three have twin-ignition valve-in-head motors. Developed first only for very costly cars, Nash, several years ago stepped out ahead and engineered twin ignition into motors of Nash cars priced above \$1200. This year Nash has done the unexpected by building twin-ignition valve-in-head motors into its complete line.

# 18 ON HONOR ROLL JUNIOR HI SCHOOL

Eighteen students were listed on the honor roll for the first six weeks of the Junior high school, according to the list issued today by Principal B. R. Finch.

The names follow:

9A Class. 1A-3B  
Herman, Lois 1A-3B  
Sollinsky, Jane 3A-1B  
Swenson, Cecilia 2A-2B  
Wilson, Billy 3A-1B

9B Class. 4B  
Alberia, Cyril 4B  
Armstrong, DeWitte 3A-2B

Barnwell, Clara 2A-2B  
Ellenburg, Chloe 1A-3B  
Ella, Mildred 5B

8A Class. 5B  
Hammond, Virginia 5B  
Hedges, Ruth 1A-3B  
Mead, Katherine 1A-4B  
Norton, Margaret 1A-3B

8B Class. 1A-4B  
Chaney, Rebecca 1A-4B  
Hopkins, Edith 4A-1B  
Short, Patricia 1A-4B  
Thatcher, Jeanette 3A-3B

7B Class. 6A-2B  
Daugherty, Burton 6A-2B

Women Get Fish—Since the men at Weasaku Inn had no luck catching fish, it has been left to the women, according to the Grants Pass Daily Courier. Mrs. Rainbow Gibson, Mrs. Frank Watson and Mrs. George Gilson proved their skill Monday when

they returned from a fishing trip on Rogue river with five good sized steelheads. Mrs. Gibson brought home the prize, an 8 1/2-pound steelhead, measuring 28 inches in length.

Announce Meeting—Regular meeting of the Junior high school Parent-Teachers' association will be held tomorrow night at 8 o'clock at the school, with Principal B. R. Finch as the main speaker. He will use as his topic "Training the Child for Life," and will explain what extracurricular activities benefit the child. A musical program will be given and refreshments served. All persons interested are requested to attend.

Dr. Emmens Home—Dr. and Mrs. J. J. Emmens have returned from the east, and Dr. Emmens has resumed his practice here.

# DETERMINED HUSKIES OFF FOR BEARS DEN

SEATTLE, Nov. 9.—(AP)—Eight years since the University of Washington Huskies "took" both Stanford and California in one season, Coach Jimmy Phelan heads south today with three full eleven, bent on beating the Golden Bears at Berkeley on Saturday.

Already a 6 to 0 winner here over Stanford, through two field goals booted by Bill Smith, stellar Washington end, the Huskies were pronounced fit as they ran through a fast final practice.

# Beware the Cough or Cold that Hangs On

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membrane and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat trouble. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, and attacks the seat of the trouble.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis, and is excellent for building up the system after colds or flu. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion. (adv.)

# WE SHALL NOT FAIL THEM!

SATURDAY we pay homage to those men who fought and bled upon a glorious battlefield. They were men of indomitable will and unswerving purpose and we can well cherish their memory. But let us not forget the idealism for which those men fought—they fought not to win a war but to win everlasting peace.

We must not break faith with them! In remembering and commemorating their stirring deeds let us dedicate ourselves to their ideal and pray that our youth and the youth of other nations shall never again meet upon a battlefield.

CLOSED SATURDAY—Open Until 8:30 P. M. Friday

WE FEATURE LOCAL PRODUCTS

Rib Roast, young beef, lb. 17 1/2c
