

# BARNES REFUSES TO GIVE HOOVER CAMPAIGN JOB

To the Editor:

It has come to my attention that my manager, Charles Hoover, has subscribed to a plan for the curtailment of farm production. He must renounce the advocacy of this policy at once, or I will have to get a new manager.

If a man wants to raise a hog, he should be allowed to go to it, and God bless him. The federal government, the state, county or city, nor any bureau or federal agent should interfere with this right in any way, but I do not believe that Charlie Hoover or any other man should be forced into a hog-raising enterprise because of his inability to get a job at anything else at a living wage.

I believe the federal government should now say to Charlie Hoover, and to every other hog raiser in the United States: "Quit raising hogs; come and go to work for your Uncle Sam creating national wealth." I believe it is necessary at this time for the government to put to work in non-hog raising enterprises at least six million hog raisers, or prospective hog raisers. In this way alone can the price of hogs be brought up to a price level where a farmer can make a decent living raising hogs.

I believe it is necessary for the federal government to put not less than twenty billion dollars of real money (non-interest bearing treasury notes) in circulation at this time to take the place of the fifty billion dollars of credit money (deposits in banks founded on debts) now quietly resting in our banks, retired because of age, having outlived its usefulness.

There is one proper way to put this twenty billion dollars of new real money in circulation, and that is to use it to meet the payroll that will be necessary when all the hog raisers and prospective hog raisers that want to go to work at 50 cents per hour for the government in non-hog raising enterprises are put to work.

The government, in issuing this commodity money, should guarantee that the price of hogs will never go above 12 cents per pound as long as the minimum wage for common labor remains at 50 cents per hour. In order to do this, when hogs reach 12 cents per pound, the federal government will cease to increase the volume of currency. It will balance the budget by collecting enough income taxes (hogs from the hog raisers) to support those working in non-hog raising enterprises. On the other hand, the government will always keep enough hog raisers and prospective hog raisers on the payroll in non-commodity producing enterprises to keep the price of hogs up to 12 cents per pound.

There must be two sides to the fence. The hog raising side carried on by private enterprise without too much governmental interference, and the national wealth creating side carried on by the federal government. The individual must have freedom of choice at all times as to the side he will serve on.

This is binocracy — not bureaucracy. Charlie Hoover must now publicly announce that he understands and accepts this first principal of binocracy and announce that he is a Bi-no-crat, or else I will get another manager, and he must also provide for another Bi-no-crat to go to Salem with me or I won't go. I don't want to be up there alone.

J. C. BARNES.

Medford, Nov. 9.

(Continued from page one)

hardship on Democrats, but they have to be careful to get around it.

Kerstone.

The inside of Pennsylvania Republicanism is seething with a nationally important situation. Senator Reed has not yet announced himself as a candidate for re-election, but he is already campaigning. Similarly Governor Pinchot has not disclosed himself as Reed's opponent, but he too is campaigning.

You can take it for granted both will announce themselves in due time.

Notes

Those Japanese newspapers which raised an editorial fuss about moving our feet belong to the intensely nationalistic group. Officials here believe the others will take a saner view. At least they hope so.

The Russians received inside word several days ago that recognition would come before the end of the week.

A San Diego correspondent says the analogy about Prof. Warren's egg-laying invention has not been given the proper twist. He contends that if Warren could make a hen lay twice as many eggs by electric lighting in the hen coop when prices are high it would make no difference if the life of the hen was shortened two-thirds. When eggs are needed they would bring a great return and you can always get more hens in time.

The government has recently been considering steps to help its own bond market.

# BOY'S PLEA TO ROOSEVELT SAVES FAMILY HOME

The plea of 12-year-old Adam Schmidt of Trenton, N. J., to President Roosevelt that his family's home be spared from mortgage foreclosure was answered when the New Jersey branch of the Home Owners Corporation made its first loan to Frank Schmidt, father of the lad. C. Frank Shanley (left), state manager of the corporation, is shown handing the cancelled mortgage to the elder Schmidt, as Mrs. Schmidt and their son look on. (Associated Press Photo)

# NEW YORK DAY BY DAY

By O. O. McIntyre

NEW YORK, Nov. 9.—Even with the Rialto's dwindling shows, the first night free list grows slimmer. It is now confined to regular critics and a few columnists. Once it includes friends of producers, stars and friends of the playwright and even costumers.

At the Winter Garden, the largest of the musical show houses, there were only 61 complimentary tickets for the opening night. John Chapman reports even Joe Cook, the star, laid out \$660 for 100 friends and relatives. Five years ago all downtown seats of any choice were "Annie Oakleys."

Noel Coward is reputedly the stubbornest of the sticklers for a limited first night list. He wants it confined only to critics. Earl Carroll wants to go toward one better and make critics pay full tariff just like the rest of the folk.

Producers must pay because most theaters and producing organizations are now controlled by financing organizations — cold-hearted bankers who see no reason to cut down their intake. The idea is, of course, splendid for those who participate in royalties. Free tickets were getting out of bounds.

There was a clear summer night walking a dog on the avenue around midnight that I saw one of the Wren-

member of the strange household and the more recent demise of the dog "Toby," the musty brick structure in its mortal lapse has taken on a shadowy, thoughtful gloom. Imagination gives an aura of something portentous within—mysterious closets, secret stairs, hidden panels. On the south side a broken shutter flaps in a stiff wind. Curtains upstairs are soiled and the panes suggest a henhouse window.

There has developed a how-ha-attitude about the middle west in New York of late. Of course, it's petty jealousy, but something should be done. Glen Frank has perhaps the best solution. He suggests renaming the area "the central empire." That will high-tone 'em. (Copyright, 1933, McNaught Syndicate, Inc.)

Perhaps the most devout member of the Lamba is the actor, David Warfield. Every afternoon at 2, fair weather or foul, his car deposits him in front of the clubhouse. He plays pinocle with his old friend, Henry Brazin, whose fortune is tied to the Lamba, in the card room until 4, when his car calls and takes him home.

Things are not so bright as they seem. George "Dinty" Moore, manager of the Fairgrounds dance pavilion, announces that his Little Giants orchestra will play for the Veterans of Foreign Wars benefit dance at the Fairgrounds Armistice night. Funds raised at this dance will be used for local charity work, according to I. D. Canfield, commander of Crater Lake Post No. 1833. Mr. Canfield says the organization is called upon to assist veterans, their widows and dependants who are unable to take care of themselves. Members of the local post believe that the ideal way to raise this money is to give dance lovers a chance to help the needy by buying a dance ticket. "Dinty" is arranging several special numbers for the occasion.

Upton Sinclair was the most frequently interviewed literary figure of the year on his recent visit to New York. The reason is simple. He makes copy. The reporter who visits him with no idea at all finds that after a few words Sinclair has tossed him a lead. He bivouacked among the literati at the Algonquin. Heretofore his hangouts have been around The Village.

The old Wendell nome on 39th street and the avenue continues to furnish its decaying shoulder to passerby. Since passing of the final

del sisters. The streets was desolate of traffic and pedestrians. I saw a light blink in the hall while passing across the street. Finally the door opened and a shawled head protruded, looked up and down. A policeman came from around the corner, as though timed. She called to him and handed a letter out. He took it to a mailbox, dropped it and went on whistling. I told the cop of my curiosity. "Every Tuesday around midnight," he said, "she has a letter posted. That was Miss Ella."

**Home Makers Bureau**  
Kay's favorite recipe.  
Chocolate Souffle  
2 tablespoons cocoa.  
2 tablespoons hot water.  
2 tablespoons flour.  
1-3 cup sugar.  
1/2 cup milk.  
2 eggs.  
6 tablespoons 1/2 teaspoon vanilla.  
Melt butter, add flour and stir until smooth. Add milk, stirring constantly, and when it boils add the cocoa which has been mixed with hot water and the sugar. Add to the beaten yolks, cool slightly, add the stiffly beaten whites and flavoring. Pour into greased baking dish and bake in a pan of water until set, for about 30 minutes in moderate oven.  
For aid in household problems, menu planning or special recipes, send in your request with a self-addressed, stamped envelope to Julia Lee Wright, director, Homemakers' Bureau, Safeway Stores, Inc., Box 660, Oakland, California.
