Customers Call Signals Over the Hosiery Counter

● Sounds like a football game to hear them call for "twenty-three twenty-three" — fifty-fifty — "fifty-four fifty four"—

● They're calling for Rollins Hosiery. They like the wear that's in these new fall numbers—security from garter runs.

● Rollins Chiffons are the filmiest, sheerest possible. But they're perfectly protected from damaging garter runs by the Runstop—the line that holds. No garter run can get through.
