No change is proposed in the present light rate. The moving idea behind the reduction in rates is that the person who uses the most electric energy should be given a better rate than those who use it merely for lighting purposes. Another motive behind the proposed change is the fact that the city of Ashland in its present contract with Copoc for supplying excess energy, has effected a saving which will amount to approximately \$1000 annually, and the city council desires to pas this savcity council desires to pass this sa
