

AL SMITH URGES RETURN TO GOLD STANDARD BY U. S.

(Continued from Page One)

The members of the chamber of commerce of the state of New York.

Declaring himself "too old now to be regular just for the sake of regularity," the former governor will say: "What we need in this country is absolute dependability in our monetary standards. It is the only thing which will restore confidence. The latest fiscal moves of the administration have undermined public confidence. They have created uncertainty. Uncertainty paralyzes business, discourages private initiative, guides money into hiding and places the entire burden of sustaining the population on the central government."

"We are told that there is a new theory of government abroad. It is the theory that the executives are quarterbacks on a football field who do not know a minute in advance what signal they will call next. They determine the plays on the basis of 'hunches.' Of course, this is just another name for opportunism. There is nothing new in it. It never pulled a great modern industrial nation out of a depression."

"What the people need today is what the Bible centuries ago described as 'the shadow of a great rock in a weary land.' That was what Grover Cleveland represented to the people in his day—a symbol of strength and firmness, of coolness, of rocklike integrity in the midst of shifting sands, heat and desolation. In the absence of anything definitely known to be better, I am for a return to the gold standard."

NEW YORK, Nov. 24.—(AP)—The utilities led stocks on a quiet upward push today as the currency stabilization was continued on many fronts. The upturn was coincident with a rally in grains and in the face of a sharp decline in leading foreign exchanges. Foreign gains were checked by late profit taking, but the close was steady to firm. The transfers approximated 1,300,000 shares.

Nudism Theme New Picture Appearing On Rialto Screen

Nudism. What is it? What is its significance? What prompts people to want to go about nude? These and many other pertinent questions on the subject are being revealed to Rialto theater audiences today and tomorrow by "Elysia," the first authentic motion picture story told in an American nudist colony. "Camp Elysia," where the picture was filmed, is one of the largest nudist colonies in this country. It is located near Lake Elsinore, Cal., and is headed by Hobart Glassey, pioneer of the movement. The picture was filmed with the full co-operation of Glassey and the members of the colony and shows actual life in the "Valley of the Nudes." For the regular Saturday night preview, the Rialto has chosen Ken Maynard in "The Fiddlin' Buckaroo" for the extra feature. Those attending the 9 o'clock show Saturday are invited to remain as guests for the preview at no extra charge.
