## SPEAKING CHOR OF SAN JOSE COLLEGE WILL APPEAR HERE

The Speaking Choir of the San Jose State College, California, one of the most unique organizations of its kind in the country, will make its preliminary performance here Thursday evening, December 7, at 8 o'clock at St. Mark's Guild Hall.

The choir is under direction of Miss Elizabeth Jenks, head of the speech department of the college. The choir is composed of 14 voices with quality ranging all the way from bass to high soprano. This is not a singing or chanting choir, but a speaking choir in which the voices blend in a harmonic beauty of expression.

Selections have been taken from some of the most outstanding authors of two hemispheres and range in versatility from the extreme comic to the dramatic. Perhaps those numbers favored have been Vachel Lind-say's "Congo," Arthur Gutterman's "Hills," Eugene Field's "Little Boy Blue," and Don Blanding's "Foreboding."

There are a variety of groupings in the numbers presented, the entire 14 numbers appearing in the majority, but smaller groups carry on very interesting contrasts with more lyrical presentations.

# COUNTRY SAUSAGE PROCESS TAX HAS SADDENING EFFECT

Country sausage, according to County Agent Robert G. Fowler, is subject to the "process tax" enacted by the federal government, and the ruling has left sausage makers and epicureans "prone," as the fancy writers say. The country sausage of the valley has long been famed for its tastiness, and much sought after by people who love good things to eat. Now comes the process tax to befuddle and confound makers and eaters alike.

The law provides that the process tax shall be applied "unless the producer uses it exclusively for home consumption," or give it to charity. If he uses part of his sausage and sells the remainder, it is subject to the tax. The county agent's office has been busy the past two days, explaining what it is all about, and making out reports upon the same. As a product of pork, the country sausage is subject to the process tax.

There are not many country sausage makers who sell their handiwork, but there are several farmers who are champions at it. They use the sausage themselves and present some to friends. Unless they call it charity, they will come under the process tax. Among the adept sausage makers of the valley are Asbury Beall of the Central Point district, John H. Cochran, who has a recipe all his own; Vinton Beall, Miss Alice Hanley, C. C. Hoover and Dewey Hill of Prospect. Country sausage is also made by city butchers, right in their back rooms. Both varieties are very good.

# MECHANICAL MAN OF GOLDEN WEST HERE WEDNESDAY

Wonders never cease. In these funny days the normal man yawns and exclaims, "there ain't nothing can surprise me."

Just the same this worldly wise man will be hard put to explain the young chap who is going to be wandering around the streets of Medford next Wednesday.

Mr.—shall we call him a man or just it—looks like a man and some wife may say he's smarter than the average man, but no matter.

The Golden West coffee people call him, or it, the Mystery Mechanical Man, and he is to be here next Wednesday. If you doubt this, be at the Tribune office at 12:30 p. m. and you'll see things you didn't believe possible. He will actually write a "want ad" with his own hands. He will then visit the stores.

How this creation drives a car, plays golf, writes want ads and does many other things will mystify all who see it perform. His appearance is much improved over the first robots, and his work is much better. They say his eyes look like those of a banker when you are trying to make a loan you are not justified in asking for—don't move, look glassy, hard, etc. He will have a busy day and Medford people will have a chance to test the feelings of the brother who went to the circus and saw the giraffe for the first time.

# RYNNING LAUDS CWA ROAD WORK

Civil works on county roads last week was "highly satisfactory," according to County Engineer Paul R. Rynning. Fifty-nine men were employed, "all good workers," according to Rynning. The list will be enlarged when more projects are approved by the state committee.

Only one man was discharged for "soldiering" last week. The federal authorities have served notice "that no man is employed because somebody feels sorry for him, and just going through the motions will not be tolerated." All the CWA workers are able-bodied, and not incapacitated by age or injury.

The workers are now engaged on

# IT TAKES HEALTHY NERVES TO BE THE CHAMPION TRAP SHOOTER

SHOOTING FROM SCRATCH, 25 yards behind the traps, Walter Beaver pulled out of an exciting tie to win the 34th Grand American—the first time it has been won by a limit contestant! He has been a steady smoker of Camels for years, and says: "I like their taste and mildness...they never jangle my nerves."

A MATCHLESS BLEND

**IT IS MORE FUN TO KNOW**

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

**Steady Smokers turn to Camels**

WALTER BEAVER, holder of the coveted Grand American Handicap, says:  
"Winning a trap-shooting championship is partly a matter of luck, partly the result of practice and partly healthy nerves. I'm a steady smoker. People kid me about it at the tournaments. They say I never have a cigarette out of my mouth. During all these years I've been smoking Camels, not only because I like their taste and their mildness, but also because they never jangle my nerves."  
It's no fun to feel that your nerves are ragged—and to wonder why. Check up on your eating... your sleep... your cigarettes. Get a fresh slant on your smoking. Switch to Camels. Your nerves and your taste will tell you that Camels are a more likable cigarette—and that they don't upset your nerves.
