

BRIGHT PROSPECT FOR OREGON FLAX IF LOAN IS MADE

PORTLAND, Dec. 5.—(AP)—Oregon, within five years, may set the world price for flax.

This possibility was mentioned by Will F. Lipman of Portland, now in Washington, D. C., in the interest of a huge government loan for the flax industry in this state.

A special dispatch to the Oregonian today from Washington said that the flax industry is the possibility of making linen an American industry and saving for the United States the \$100,000,000 which now goes for importing the article, President Roosevelt has placed his ok on a revolutionary policy.

Lipman has been in Washington, D. C., several months in an attempt to obtain a \$5,000,000 loan from the public works administration for flax and linen working plants in the Willamette valley. The PWA has not yet agreed to his proposal, although Washington dispatches say serious consideration is being given the proposal.

LINDBERGH'S HOP TONIGHT IS HOPE

BATHURST, Gambis, Dec. 5.—(AP)—Colonel and Mrs. Chas. A. Lindbergh planned today to take off at midnight (7 p. m. E. S. T.) on a projected flight to South America, 1900 miles away.

Colonel Lindbergh chose that time for his departure because at that hour the winds are most favorable for a getaway.

A freshening breeze sprang up during the morning, giving promise that the flight, which has been delayed by a calm since Thursday, might proceed.

Pomo-a Grange

(By Gertrude Haak)

Regular evening meeting of Pomona Grange will be held at Central Point Grange hall December 9, at 8 p. m.

This meeting is open to fifty degree members only. The beautiful degree of Pomona will be conferred on a large class. Each subordinate master is requested to bring candidates from his Grange, if possible.

Pomona Master I. R. Kline will give an interesting report of his visit to the National Grange session held at Boise, Idaho.

Supper will be served after Grange convenes, and members are requested to bring sandwiches, cake, coffee or cream.

The committee on arrangements, headed by Pomona Master Kline, has completed plans for joint installation, which will be held in the Central Point Grange hall, Sunday, December 17. A covered dish dinner will be served at 12:30 p. m., followed by installation promptly at 2 p. m. All officers-elect should be present not later than 1:45 p. m.

Members are asked to bring a covered dish suitable for dinner, and Granges being installed as requested to furnish coffee, cream and sugar, if possible.

Grange installation service is particularly appropriate for Sunday, as each beautiful charge is based on the teachings of the Bible.

This arrangement will be more convenient for most of the farmers coming long distances than a late evening meeting would be, and dinner at 12:30 will enable church-goers to attend.

Because the floor space and seating capacity of the Central Point Grange hall is somewhat limited for such a large gathering, it will not be an open meeting, and attendance will be restricted to the officers-elect and the members of those Granges being installed. Every detail of arrangement has been a carefully planned that we are sure we can make these comfortable. Central Point Grange is a wonderful host and it is cooperating with the committee to the limit.

The dinner is in charge of the Pomona home economics committee, of which Mrs. Victor Bursell is chairman.

To date 10 Granges have reported for the joint installation, and others are expected at an early date.

SKEETER CONTROL PLANNED IN STATE

PORTLAND, Dec. 5.—(AP)—About \$100,000 will be spent in Oregon and \$77,000 in Washington for mosquito elimination and control work, and 1700 men in the two states will be hired to carry on this work, it was revealed through the civil works administration office here.

The work will start immediately, consisting largely of diking, draining and brush cutting. The entire quota of 1700 men will be hired by the first of next week, and they will work until February 15 on a 6-hour-day, 5-day-week basis with a minimum wage scale of 50 cents an hour.

H. H. Stage, in charge of the federal bureau of entomology here, will direct the mosquito control work, assisted by the state experiment stations of Oregon and Washington State colleges.

The 1700 workmen will be hired from the regular relief rolls.

The Biggest user OF FINE TURKISH TOBACCOS

—why Luckies taste better, smoother

On certain mountains in the Near East is a limited collar of earth—called in Turkish, "Yacca." Tobacco grown there cost as high as \$1.00 a pound. Carefully they are examined, leaf by leaf. Often it takes a man a whole day to select two pounds of certain of these fine tobaccos. Lucky Strike is the world's biggest user of fine Turkish tobaccos. For these tender, delicate Turkish leaves are blended with choice tobaccos from our own Southland—to make your Lucky Strike a cigarette that is fully packed—round and firm—free from loose ends. That's why Luckies taste better, smoother.

ALWAYS the finest tobaccos

ALWAYS the finest workmanship

ALWAYS Luckies please!
