Verse Choir Gives Worthy Program for Local Audience

By Jane Smedler
Before a very appreciative audience Thursday evening at St. Mark's Guild hall the verse choir from California State college gave a proved to be unusual program. It consisted of ten and more than had been blended, for fourteen individual voices presented together produced a harmony and rhythm found only in the highest class of concert work. The audience felt at once with the program bespoke expressed many times, that they enjoy poetry and do not matter how strenuous the work they enjoy it and find this choir one of the bright spots in college life.

The smoothness and finish with which the members changed places and moved from one selection into the next one on the program bespoke clever and untiring training on the part of director.

Much credit is due Miss Elizabeth Jenks, of the department of public speaking in the State college for this unique form of instruction and entertainment.

The poems given were grouped well, sometimes the entire choir of fourteen appearing on the stage, then only the ladies. Again a group of four or six and not the least enjoyable were the selections given by the three men.

Sometimes the voices were low and deep and again clear and bell like, but always in a perfection of harmony and correct pitch. Some selections like "The Congo" and "The Family Drum Corps" were dramatized and the audience felt the rhythm of sound and motion and again as in Poe's "Bells" the voices alone carried on into the mystery of true poetry.

The closing numbers were very impressive, the speaking of several well known psalms, Kipling's "Recessional" and the last number, "The 23d Psalm," left the audience reluctant to have the two hour program close.

"Rose Dawn" Cast Named for Dec. 19 Production Here

The cast to appear here in the presentation of "The Rose Dawn" under auspices of the Business and Professional Women's club December 19 at the Holly theater, was announced yesterday, and includes the names of many well known local participants in previous amateur theatricals.

Ninety people will participate in the local production, many of them in chorus and specialty numbers. The cast to play character roles includes: Mrs. Grey presenting the subject of "Our Tax System and Tax Bodies." Mrs. Grey has given this most talked of and perplexing problem, that is now confronting the American people, a most careful study. Never since the Boston Tea Party has the tax problem been of so much vital importance and concern to our nation as now. Civilization and taxation seem to go hand in hand. Deaths and taxes are the only two things we are certain of in this life, she reminded.

One cause of high taxation is that the people are demanding more things of government, state and cities. The great problem is to get these burdens more equably distributed to relieve the already overtaxed individual. Some states have a multiplicity of taxation—public utilities, inheritance, income, income, general property and gasoline taxes, and the public is demanding that they pay more and more each year. In 1913, we were paying only 8 per cent of all money and in 1932 it was thirty-three percent. Total amount in 1913 was five billions and in 1932 it was thirty-two billions.

Conditions are far worse now than in 1913, yet this enormous sum goes for running expenses of government. There are over five hundred thousand bodies in the United States. Mr. Roosevelt says in his book, "Looking Forward."

These are known as governmental units, and all must have governing bodies with a great number of officials. A large percent of the taxes goes for education. In Jackson county there are over five hundred thousand bodies in the United States. Mr. Roosevelt says in his book, "Looking Forward."
