Travel Study Club Has Fine Meeting The Travel Study club had a very interesting meeting at the home of Mrs. A. J. Hanby, last Monday afternoon. The club at the present time is studying Africa, and Mrs. A. R. Clement gave a paper on the "Religions of Africa." She brought out that man is essentially religious, and when a missionary goes to Africa he does not have to prove to the African that there is a God, he already knows there is a God. Two great things the missionary has to combat are "Spirit Worship" and "Black Magic." Social loyalty is very prevalent with the Africans, they may kill or rob outside their village or clan but never inside their own society.

Amos Burg Arrives in Buenos Aires on Exploration Trip

Of interest to many university folk and others in this city, who have had the pleasure of knowing Amos Burg, former University of Oregon student, and young explorer, will be the following excerpt from a story in the Portland Oregonian, telling of his arrival in Buenos Aires:

Amos Burg, whose explorations to all parts of the world on his own and for the National Geographic society have brought him wide fame, is well on his way on his latest adventure, according to word received here yesterday. Burg's home in Portland is at 1706 Northeast Dekum.

In his own 26-foot yacht Dorjun Burg will cruise through the straits of Magellan and the Patagonian canals, visiting the numerous islands which lie around Cape Horn and seeking in the mountains of Tierra del Fuego at the southernmost tip of South America a race of Indians who are rapidly becoming extinct.

Burg arrived in Buenos Aires, Argentina, on November 3. A copy of the Herald of that city devoted two columns and much of its front page space to a story of the Portland man. Beside a picture of the paper carried one of him shooting the rapids of the Columbia river.

ALL JAPAN AWAITS A 'BLESSED EVENT' HOPED IT IS A BOY

TOYKO, Dec. 16.—(AP)—All Japan is anxiously awaiting the gokeji, "the honorably auspicious event," the birth of an infant to the emperor and empress which physicians of the imperial court have announced may be expected between Christmas and the new year.

Before the shrines of the national gods and the ancestors of the imperial house, in the sanctuaries of the palace, in hundreds of Buddhist temples and Shinto shrines and before thousands of humble household shrines throughout the empire prayers are being offered that the empress may be delivered of a man-child to be consecrated her apparent to his father, Emperor Hirohito.

Four times since the marriage of Hirohito and his consort Nagako January 26, 1924, the sovereigns and their subjects have looked forward hopefully to a similar gokeji. Each prince, least direct succession to the august high seat become impossible. In that event the emperor would be succeeded by the oldest of his three brothers, Prince Chichibu, now designated their presumptive.

The empire thus is still without a crown prince, and there is uneasiness, which has deepened with the birth of each little imperial prince, lest direct succession to the august high seat become impossible. In that event the emperor would be succeeded by the oldest of his three brothers, Prince Chichibu, now designated their presumptive.

PORTLAND TABOO ON RUM MODIFIED

PORTLAND, Dec. 16.—(AP)—After having announced this morning that all shops selling hard liquor by the glass would be closed immediately, Chief of Police Lawson reconsidered this afternoon, and stated formally that only such places as "created a nuisance" would be closed.

He said he had received many complaints about the proposed closing order as soon as the earlier announcement reached the public in early afternoon newspaper editions.

Chief Lawson said he was altering his instructions because, upon reconsideration, he believed that until the Knox law is operative, there would be great difficulty obtaining convictions of violators.

SEEK MEMBERS IN SCENIC SOCIETY

George O'Dowd, field representative of the Shasta Cascade Wonderland association, who has been in Medford during the past few days, reports that considerable interest is in evidence with regard to the activities of the travel organization. It was announced yesterday by Chamber of Commerce officials.

The Shasta Cascade Wonderland during the past year has been responsible for a tremendous increase in tourist travel in this section and the magna-color talking film and other activities of the association will undoubtedly bring a large influx of tourists in 1934.

The financing of the production end of the organization is taken care of by money subscribed by

chambers of commerce throughout the territory but the purpose of Mr. O'Dowd's solicitation is to obtain individual members at \$5 in order to carry on the executive end of the organization.

Mr. O'Dowd intends to remain in Medford for a month and confidently believes that at the end of that time Medford will have an individual membership comparable to those of other cities throughout the Wonderland.

Next year Medford will be host to the travel association as the 1934 convention is scheduled for this city, the first time an annual meeting has been held in the state of Oregon.
