

KINGFISH WANTS TO BE 'BOARDER' AT WHITE HOUSE

WASHINGTON, Jan. 8.—(AP)—Senator Huey Long filed an application with President Roosevelt today to be a White House "boarder" but he left without any promise. Striding into the executive office to keep an appointment with the President, Long crooked his cane on one arm and scattered copies of a prepared statement to reporters even before talking to the President. "If you want to know how does it happen that I am here at the White House, then all I know is what I hear, and somebody told me that Baruch and Morgan and his partners, and Woodin and Eugene Meyer and Raskob had gone from this house and wouldn't be back soon. "If that's so, then maybe there is room for them to take in a boarder like me." Inquiries at the White House disclosed that Senator Long had asked for the appointment. After his 12-minute talk with Mr. Roosevelt, Long still stood on this statement upon departing. "Are you going to be a boarder?" he was asked. "I don't know. I filed the application," he replied. It was learned at the White House that Senator Long sought the interview. There still was no sign of any agreement between the senator and the administration on patronage. The administration so far has ignored the Long machine in Louisiana appointments.

ROYAL WELCOME FOR COLUMBIA'S FOOTBALL TEAM

NEW YORK, Jan. 8.—(AP)—The most glorious athletic sortie in the history of Columbia—possibly of New York City itself—was just a memory today, and the boys who made it possible, 30 members of the Lion football squad that beat Stanford in the Rose Bowl, New Year's day were back in school worrying about mid-year examinations. But before they returned to their books and classes today they had added to their overcrowded memories the final picture of a university deity, as their triumph against great odds, and the eulogies of President Nicholas Murray Butler, Mayor Fiorello LaGuardia, and the dean of the college, Herbert Hawkes, who'll be addressing them again, individually, if they fail to settle down again in time to pass those examinations. To the receptions and celebrations, Los Angeles, Hollywood, Denver, and Chicago gave the football team that beat Stanford 7 to 0 in the crowning upset of the athletic year, New York added one of the most stirring in its history of spectacular receptions. In a setting of slanting rain that was particularly appropriate in view of similar conditions that existed in the Rose Bowl New Year's day, the conquerors of the giant Cardinals were greeted from a crowd of 5000 who met their train last night by some 220 policemen, then whirled up Broadway, with motorcycle police screaming their escort. Automobiles parked in lanes along Broadway added their tooting horns to the bedlam all the way up to Morningside Heights where twice as many students as the college gymnasium would hold struggled with police again to be close to the greatest athletic heroes in Columbia's history.

ARGUMENT SET IN IMPORTANT CASES BY HIGHER COURT

SALEM, Jan. 18.—(AP)—Two important appeal cases were set for argument before the supreme court for January 17, it was announced today. One involves payment of interests to cities and counties on deposits by banks, a test case, and the other concerns contracts affecting about 1400 dairymen in Multnomah and Washington counties. The first is the case of the Grants Pass and Josephine county against the city of Grants Pass. The case will affect all other banks in the state which carries deposits by political subdivisions and further will settle alleged conflicts between state and federal laws concerning such deposits. It was announced by the clerk of court. The appeal was taken by the bank from the circuit court in Josephine county. Another important case, testing the right of the state to cancel certificates of indebtedness of irrigation districts in order to make refinancing possible, largely through federal loans, was set for January 19. The case is entitled Warm Springs Irrigation district of Malheur county against Rufus C. Holman, state treasurer. The Warm Springs suit involves cancellation of \$414,000 certificates owed the state plus the interest charges. The case when decided would affect 11 other such districts for a total for all of about \$2,300,000 face value certificates. Refinancing plans are contingent upon the cancelling these certificates of indebtedness and the case was brought directly to mandamus that state treasurer to cancel these certificates. The state reclamation commission ordered these certificates be cancelled, and the legality of the order will be tested.

700 RURAL SCHOOLS CLOSED IN KANSAS

The National Educational association has just released some statistics which show the dire condition of rural schools, particularly in Kansas. As a matter of fact, these figures show that Kansas is in far worse condition than any other state with regard to closed rural schools. Seven hundred of our country schools in this state did not open for the present term. Only three schools in Oklahoma failed to open, fifteen in Colorado, one in Nebraska and none in Missouri, Arkansas, with 400 closed schools, is second to Kansas; Michigan, with 210, is third, and Louisiana, with 160, is fourth.

Twenty-five states have closed rural schools this year. These 700 closed schools in Kansas are graphic evidence as to how hard the farmers have been hit by the depression, as schools for their children would be about the last thing they would give up.—Exchange.
