

What Sales Tax Will Do For County's Taxpayers

C. R. Bowman, county school superintendent, has sent the following statement regarding the sales tax, to school boards in his district: To School Boards, Jackson County, Oregon.

Gentlemen:—There are enclosed herewith two important circulars which should be of vital interest to your board and your people at this time. We are asking that you read this letter to your board at its first meeting and also that you take time enough to go over carefully the explanation of the sales tax given in question and answer form on the six yellow sheets that are enclosed. Your attention is called to the last one of the sheets upon which is a clear diagram of the present method of raising school money. You will note by this diagram that at present it is impossible to get 98 per cent of money now required for running our schools in any other way than by a tax on real and personal property. The state legislature has offered the schools the sales tax which will relieve property about 30 per cent of the present school tax. This sales tax law does not in any way change or weaken our present machinery for raising money by taxation. It does shift part of the load of taxation on to the shoulders of people who have not heretofore paid taxes and whose responsibility to govern is no less an

obligation than is the responsibility of a property owner. This office wishes to state emphatically that if the sales tax is referred to the people at the May election and is defeated, many of the schools of Jackson county will be unable to run next year and many that do try to run will involve their districts in debt.

The white sheet enclosed shows what the sales tax will do. Your attention is especially called to the last two columns. The amount indicated in the column next to the last one is the tax per \$100 assessed valuation you will pay on account of the county and district school tax, if the sales tax DOES NOT CARRY. The amount opposite in the last column is the amount you will pay if the sales tax DOES CARRY. You can readily estimate in dollars and cents your tax saving under the sales tax plan on your property tax by multiplying the difference between these two amounts by the number of hundred dollars at which your property is assessed.

We urge you to take the initiative in your district to get the matter clearly and definitely before your voters. This is not a matter of whether or not you favor a sales tax. It is a matter of accepting the only thing immediately at hand that can keep the schools of our county open and able to pay their way next year. Very sincerely,

C. R. BOWMAN,
County School Superintendent.

Noted Artist's Tribute to President Whom Nation Honors at Birthday Fetes Jan. 30

A CALL TO THE COUNTRY TO HAIL HER LEADER
This striking poster was painted by the famous artist, Howard Chandler Christy, when he heard of the national movement to observe President Roosevelt's birthday on Tuesday night, Jan. 30, by raising an endowment fund for Warm Springs Foundation for Infantile Paralysis at Presidential Birthday Balls given simultaneously in every community in the land. He gave it to the national committee as its official poster. Done in red, white and blue, the poster depicts Miss America at the left protecting two children who are looking up to President Roosevelt, shown above the capitol. The slogan across the top "America, to our President" was coined by Mr. Christy as a toast to Mr. Roosevelt from the nation.
