

HOURS OF WORK ARE REDUCED AS FUNDS DWINDLE

(Continued from page one)

PORTLAND, Ore., Jan. 19.—(AP)—Oregon's CWA program must be brought within quota limits today, State Administrator Elmer Goudy announced.

Many CWA projects will be either abandoned or suspended next week, 10 to 50 per cent cuts in wages and hours will be made and no new employees added except as replacements.

Per diem workers in cities of more than 2500 will work 24 instead of 30 hours a week. In smaller communities 15 hours a week will be the maximum.

Nationwide Orders. Similar orders were issued last night to all state CWA administrators by National Administrator Harry L. Hopkins.

As soon as new funds are available, employment will be put on a 30-hour-a-week basis. It is planned, however, to reduce the civil works force 1,000,000 men every two weeks after February 15.

The whole civil works projects, Hopkins said, is costing about \$75,000,000 a week, or which the federal government has been paying \$60,000,000.

Senator Dill (D., Wash.) told newspapermen the program would not only have to be continued, but enlarged with greater inheritance taxes to pay the bill. He added the project should be made more or less permanent.

WASHINGTON, Jan. 19.—(AP)—A sudden stop-order on the parcels out of 500,000 new jobs, coupled with a drastic slash in all working weeks, was the answer of the civil works administration today to its fast dwindling money supply.

All civil works job-giving throughout the country, where many applications for work were still being filled, was called to a halt. The only exception made was for replacing workers who had quit and been paid off.

At least one protest against the orders dispatched from CWA headquarters here was placed on file almost as soon as the move became known. The executive committee of the United States conference of mayors said in a statement:

"We have now come back to the thoroughly vicious dose system."

The sudden contraction in civil works activities was expected to add speed to a request President Roosevelt will send to congress today for an additional \$116,000,000 for the federal recovery units. Funds would be allotted from this to carry on civil works until May 1.

Indications were given at CWA headquarters that had immediate re-appointments not been made existing funds might have been exhausted within little more than another week.

Effective today, Harry L. Hopkins, the administrator, ordered all state administrators to cut all 30-hour work-weeks to 24 in cities of 2500 and over, and to reduce these hours in smaller communities to 15 a week.
