

ARIZONA OFFICERS TRAP QUARTET AND SEIZE MUCH LOOT

(Continued from page one)

of the fact most Arizona peace officers cut their teeth on a 45, three-killem, bank raiders, escaped convicts, sought by a vengeful nation since September—were scooped up in a Tucson police net last night:

John Dillinger, 30, "brains" and leader of the Indiana and Ohio gang of terrorists which bore his name.

Harry Pierpont, 31, "trigger man" of the gang.

Russell Clark, 39, gangster, associate in slayings and robberies.

Charles Mackey, 30, gangster, implicated with Pierpont and Clark in the slaying of Sheriff Jesse Barber at Lima, O., and other killings.

Face Many Charges

Specifically, the accusations against the gang include:

Jailbreak at Michigan City, Ind. (except Dillinger, who then was incarcerated at Lima, O.), in which 10 shot their way to freedom.

Delivery of Dillinger from Lima jail during which Sheriff Barber was killed in cold blood.

Slaying of a policeman during a roadhouse holdup in Chicago.

Killing of another policeman who sought to arrest John Hamilton, gang member who still is at large.

Seventy-four thousand dollar robbery of the Greenacres, Ind., Central National bank.

Fifty-three thousand dollar holdup of the New Carlisle, O. bank.

Twenty-seven thousand dollar holdup of the American Bank and Trust Co., Racine, Wis.

Twenty-four thousand dollar holdup of the Farrell, Pa., bank.

Twenty-one thousand dollar holdup of the Massachusetts bank of Montpelier, Ind.

Thirty-five hundred dollar holdup of the Daleville, Ind., Commercial bank.

Twenty-eight hundred dollar holdup of the Bluffton, O. bank. (Dillinger was in jail for this when he was liberated at Lima.)

They were not the only desperadoes who sought but failed to find sanctuary on the nation's last frontier.

Perhaps the most notorious "bad man" who previously has fallen into the law's toils in Arizona in comparatively recent years was Roy Gardner, apprehended in Phoenix when he attempted one of his famous mail train robberies in the desert. He was returned to the federal penitentiary, and still is there.

INDIANAPOLIS, Jan. 26.—(P)—Mary Kinder, held with members of the Dillinger gang at Tucson, Ariz., is credited by the local police with helping plot the break of 10 convicts from the Indiana prison last September 26, and with directing the successful flight of six of the fugitives to Indianapolis the following day.

Her husband, Dale Kinder, an inmate of the prison at the time, is still there. Officers doubt he even knew of the intended break.

But Mrs. Kinder, police believe, met the escaping felons near the prison, provided guns and ammunition, and directed their 150-mile dash over little-frequented roads to the Hoosier capital to a prepared hideout.

PIERCE-ALLEN TO SHOW 1934 CARS SATURDAY

The smart new Dodge and Plymouth cars will be presented to southern Oregon people tomorrow in an initial showing at the show rooms of the Pierce-Allen Motor company of this city, according to an announcement today by W. W. Allen, managing owner of that firm. The public has been cordially invited to attend this showing by Mr. Allen.

Many new features, including mechanical innovations and sleek, new streamlined bodies, mark the new lines offered for 1934 by Dodge Bros. and Plymouth. The new Dodges combine smartness with dignity in body design and smoothness of performance is doubly assured with Dodge's famous "floating power" engine mountings which eliminate motor vibrations.

The new Plymouths have even greater performance, remarkable riding comfort and many innovations never before found in motor cars in their price class.

They have a new type of individual front wheel springing with coil springs of a new alloy steel declared to be practically unbreakable under prolonged tests; more powerful 77-horsepower motors with floating power mountings; smart new bodies of low, rakish design; new interiors with luxurious trim, and many other style and mechanical advantages.

The new Plymouth six and the new De Luxe Plymouth retain all of their basic Chrysler Motors engineering features, including hydraulic, self-equilibrating brakes and new safety-steel bodies reinforced with steel.
