

# UNEMPLOYED OF COUNTY TO HAVE LEAGUE IS PLAN

(Continued from Page One)

eral Unemployment office last Saturday was read. The report revealed that H. G. Stockman, a member of the committee, was not registered for relief work. Mr. Stockman explained that he had heard street corner talk about conditions, and had advised the formation of an organization so quicker action could be obtained.

In discussing the report, which contained questions to Ulrich and his answers, Mr. Metcalfe said that Ulrich had invited the committee to come to the office and look at the cards any time, and to call and discuss conditions at any time.

The committee asked why, Phil Lownd had been appointed a foreman in CWA work, and who appointed him? The reply was that Lownd was picked by City Engineer Scheffel, and that the selection of a foreman rested solely with the official in charge.

The committee was informed that a Mr. Neadrick had been assigned

to cement finishing work, because "he is regarded as the best cement finisher in town, and the government insists that this work be done right and by an experienced hand."

Section Query Evid.

In reply to the query which Mason Burley Sexton was given work, Ulrich got his relief card, the report stated, and it showed that he had four dependents. Sexton was one of the "confessors" in the ballot theft trials.

Complaint was also registered about men employed on the Applegate bridge. A statement was read from Engineer Smith, in charge, showing all were residents of the Applegate district, in accordance with the federal policy to employ men residing in a section on the jobs in their district. There had been "a rumor" that men were assigned from other sections to this work.

The committee was also informed that the full quota of 694 men was kept on the rolls, that a man with eight dependents was given preference over a man with one dependent; that the charges "influence" was used were baseless, and that the work was conducted on rules and regulations laid down by the government heads.

Rumors Had Been Spread.

A man from Gold Hill cited "I cannot prove, where a bunch from New York state got work while old-timers couldn't make it." The speaker was informed that "this is a supposition, and not what we want."

Chairman Cain informed the gath-

ering that organization was needed," and is the only method. We can get farther acting as a group than as an individual. The people in charge have told us that it is up to the unemployed to do business that way."

Mrs. Setler said she had recently talked to Mayor Wilson of Medford, and he had advised her to act with a group.

After the reading of the report, Chairman Cain called upon Attorney Enright for a speech, but he had left the meeting.

I. C. Dalley of this city was nominated as a member of the by-laws committee, but he declined on the grounds that others were better suited.

CWA Pamphlet Read.

Guy Ray spoke briefly and at the request of the audience the CWA pamphlet issued by the government was read. Why CWA work was not "rotated" was discussed.

The meeting was devoid of sensational statements and speeches. It was an earnest group of men, striving to better their condition.

Following the regular meeting, the committee met and mapped plans.

Clyde Richmond will have charge of the program. All members and former members are cordially invited to attend.

**Calvin Coolidge's Last Message to the People was:**  
"For the year 1933 it seems to me that we need cooperation and charity. We should cooperate to promote all kinds of business activity. We should do what we can in the way of charity. If all that is implied in these two words could be put into operation not only would our economic condition begin steadily to improve but our destitute would secure ample relief."
