## PUHL LOAN USED BY LADY FARMER ON WEDDING TRIP

Closing arguments were made Saturday afternoon in the civil action of Fred Puhl against Louise Howard for the collection of money allegedly due for services rendered and for money advanced on promissory notes, and for purchases of farm machinery.

The case was heard before Circuit Judge James T. Brand of Coos county. Judge H. D. Norton was disqualified from hearing the case when an affidavit of prejudice was filed by the defense more than a year ago.

The defense concluded its case with the testimony of the defendant, who spent nearly an hour on the stand.

Mrs. Howard admitted that she borrowed money from Puhl with which to journey to Portland and be married. She testified she did not tell Puhl of the event until a week or so afterwards. They had been engaged, the testimony showed. Mrs. Howard testified she broke the news by telling him "I have made other arrangements," whereupon Puhl replied: "We better have a settlement."

Each claimed the other broke off the marriage intentions. The defendant admitted several of the plaintiff's statements. Puhl contended he acted as foreman of the defendant's farm, increased its productivity, and purchased a tractor and other equipment. The plaintiff held that there was an agreement whereby he was to be "paid if not married, and not paid if married."

Testimony in the case for both sides was conflicting and a rural romance was interwoven throughout. The litigants lived in the same home, the testimony showed, for a considerable period, the defense contending this constituted a "family relationship."

Arnold Barnett, a farmer of the Central Point district, was called as a witness Saturday morning to tes-

tify to the amount of wheat threshed on the Howard farm. His testimony was not allowed. Plaintiff claimed the wheat crop was increased by Puhl's efforts. The defense objected on the grounds that the weather was the vital factor, and was sustained. Puhl was represented by Attorney Frank J. Newman; the defense by Attorney Charles W. Reames.

Here's what a Famous Racing Driver says about

# The NEW FORD V-8

"I PICKED a Ford V-8 for the 1933 Stock Car Race at Elgin and I thought it was a great car when it brought me home in front. It takes a lot of automobile to average 80.22 miles an hour for 200 miles over a course like that.

"When I heard that the 1934 Ford V-8 was even better than the 1933 job I was just a little doubtful. It just didn't seem possible, but I thought I'd find out.

"I could see it was better-looking, but I wasn't much interested in that. The thing a racing driver looks at is the engine. How does it sound? How is it built? How fast will it go? How does it stack-up on gas and oil?

"So I took it out on the road and opened it up. It held the road like a veteran and the way that speedometer touched the top numbers was something to
