THE SENSATION OF THE BAKING INDUSTRY TO BE INTRODUCED BY FLUHRER

Spun Bread

WHEN we first heard of Spun Bread we immediately began to investigate. The more we investigated the more we became convinced that here was a truly superior bread in every way.

Wherever it has been introduced its success has been instantaneous. Comparisons are all that are necessary. Try just one loaf. We know what your verdict will be.

FLUHRER BAKERIES, Inc.

SPUN BREAD is a sensationally new and modern type of bread. Its name is copyrighted and it is made by a secret dough process, together with a spinning or braiding of two pieces of dough which gives results heretofore unheard of.

BAKED IN OUR NEW BAKERY

Which is one of the finest institutions of its kind to be found anywhere in the United States. No detail has been overlooked to make it a model of cleanliness and efficiency. Bakers have come from all parts of the coast to inspect its many new methods and ideas. We invite your inspection. And don't tell us when you are coming—just come, any day, any hour. We never need to "brush up" for visitors because cleanliness and sanitation are eternal with us.

LOOK at this illustration. It graphically tells the story of the difference between Spun Bread and Ordinary Bread.

In the making of Spun Bread two strands of special dough are intertwined in the pan. This intertwining or "Spinning" results in a diagonal texture that makes it extremely difficult for drying air to get through. Thus Spun bread keeps its delicious flavor and freshness longer than ordinary breads.
