MANNING MOTIVE IN KILLING HORAN REMAINS SECRET

(Continued from Page One)

and the other was turned over to the officers by Manning. Both weapons had two empty cartridges in the chambers.

Despite all this, the motive still remained a mystery.

The bullets were discovered in a book case and chair directly behind Manning's desk. Manning, who said he shot Horan in self defense, declared these came from the gun in the legislator's hand.

Findings Listed

Gillenwaters said the charge was based upon the following findings:

1—The alleged evidence that Manning telephoned Horan at 10:30 Monday morning and that when Horan called him between 5:30 and 6:30 that evening he asked Horan to come to his office.

2—Manning's alleged statement to officers that both guns used in the shooting were his.

3—Alleged inability of investigators to determine how Horan, from across the desk, could have obtained a gun from a drawer on Manning's side of the desk.

4—The fact the gun was in Horan's left hand while Horan was known to be right handed.

5—Experiments in Mannings' office which Gillenwaters claimed convinced the investigators that Horan could not have fired the shots that penetrated the chair and bok case.

6—Evidence that Horan was not armed before he went into the Manning office.

7—Reports that persons nearby heard shots which came in volleys of two with an interval between.

Several hundred persons attended the rosary services for Horan last night. Friends from many sections of the state gathered this morning to attend the final rites at the Sacred Heart Catholic church.

DEMOBILIZATION LOOMS FOR CWA BY EARLY SPRING

(Continued from page one)

Business in the house and senate proper was on the twin-perennial, taxes and appropriations.

Income Tax Costly

In general debate, Representative Gifford (R., Mass.) berated income levies as costing the people $400,000,000 a year to make out the returns. Higher incomes are no more, he said, the tax having "killed the goose that laid golden eggs."

Of the few legislative actions of the day, the senate adopted the La Follette resolution to have the PWA supply information as to the various allotments, numbers employed and a list of projects pending.

The house spent 40 minutes in a row over a $7500 appropriation for study of wild life conservation, which finally was accepted.

Congressional sentiment for helping bankrupt municipalities resulted in administration considertaion of having the reconstruction finance corporation do some lending in that direction.

Assayal of the plan, which would require legislation involving RFC acceptance of tax-anticipation warrants as collateral, had to wait on the tax bill debate in the house, however, and appropriations arguments in the senate.

Brittin Jailed

These were but a few of the factors that kept Washington humming, as it watched the admission to bail of a former government official sentenced to ten days by the senate for contempt, while a second man so adjudged chose to serve his time.

William P. MacCracken, freed under $5000 bail, started to work on the appeal that may reach the supreme court. L. H. Brittin, aviation concern official who removed some of MacCracken's files after they were subpoenaed by senate investigators, headed for the District of Columbia jail.

PONDEROSA PINE PRODUCERS GIVEN GRADING ORDERS

WASHINGTON, Feb. 15—(AP)—The federal trade commission today announced it had taken steps to obtain compliance by middle west and Pacific slope pine lumber producers with the recent decision by the supreme court in the west coast pine case by issuing orders directing them to cease advertising ponderosa pine as "California white pine" and "white pine."

The commission held on June 6, 1931, that either advertising or sale of ponderosa pine lumber as "white pine" or as "California white pine" was an unfair trade practice. Twelve companies, however, took the matter to the courts, and on January 8 this year the supreme court upheld the decision of the commission.

The commission has directed letters to 25 companies asking that they file written notice of compliance. The companies included:

Oregon Lumber company, Medford, Ore.; Tomlin Box company, Medford, Ore.; Klamath Lumber and Box company, Klamath Falls, Ore.; Chiloquin Lumber company, Chiloquin, Ore.; Lamm Lumber company, Modoc Point, Ore.; Shaw-Bertram Lumber company, Klamath Falls, Ore.; California-Oregon Box and Lumber company, Ashland, Ore.; Braymill White Pine company, Braymill, Ore.; Long-Bell Lumber company, Kansas City, and many California companies.

In addition to the cease orders the commission announced it forwarded to the Western Pine association, with headquarters at Portland, Ore., a notice of the court decision and suggested that it alter its standard grading rules to conform. Other associations to which the same suggestion was made were the National American Wholesale Sash and Door association, New York City, the Wholesale Sash and Door association, and National Woodwork association, both of Chicago, and the National Trade Manufacturers' association of Elmhurst, Ill.

GRAPPLING GOB PINS CLEMENS IN ARMORY GO

Sailor Franz, the navy's gift to the muscle mangiers, roughed his way to the deciding fall over Frank Clemens of Oklahoma before a hostile crowd in last night's windup of a three-match card at the Armory, which also saw Ray Frisbie, Medford fireman, win from Al Schnell, Australian heavyweight, and Bunny Martin, Seattle, and Heinie Olso, Portland, put on a peppery 30-minute draw as a curtain raiser.

Franz had smooth sailing for the first fall and downed Clemens with a Boston crab, but in trying to make it two in a row, bumped into a sudden squall when Clemens kicked out of a punishing surf-board and thumped the sailor about the ring, polishing him off with his pet "Indian paralyner" hold. The third fall ,went to Franz in short order. Clemens survived one airplane spin, only to be dumped on his noggin a second time, and easily flattened with a body press.

The tough tar received a hearty Bronx cheer and a shower of peanuts from the fans when he took his bow before leaving the ring.

In the semi-windup Ray Frisbie spotted 209-pound Al Schnell the first fall and came back to take two in quick succession for his third straight win in the local arena.

Schnell won the first fall with a body press after softening the fireman with headlocks and a wicked right-hand smack on the chin. Frisbie showed his resentment in the second fall and roughed the roly-poly boy from down under up a bit, before forcing him to pat the mat with a flying toe hold. The third fall also went to Frisbie in short order when he dumped Schnell with a shoulder butt and ended the match with a body press.

The Australian entered the ring looking a trifle shop-worn from a previous match, but showed the ringworms the niftiest front porch seen in these parts since "Strangler" Lewis last appeared in Medford.

Bunny Martin and Heinie Olson, light-heavyweights, almost stole the show in their 30-minute curtain raiser. The boys were evenly matched and put on a fast, clever bout, with neither man being in serious trouble during the match.

Fined By Court

William P. MacCracken, former assistant secretary of commerce, was fined $100 after being found guilty of contempt of court in the District of Columbia. MacCracken has figured in the senate's investigation of airmail contracts. The senate had previously charged him with contempt of that body when he refused certain evidence in questioning on the mail contracts. (Copyright Bachrach Photo from Associated Press)

SERVICE TO END MONDAY NIGHT IS POSTOFFICE WORD

(Continued from page one)

In some instances the mail service on the west coast won't be any faster than the train service.

The lines left in operation under the new economy program include: Chicago to Dallas, Texas; Salt Lake City to San Diego via Los Angeles; Salt Lake City to Seattle, via Portland; Washington, D. C., to Cleveland; Cheyenne to Pueblo; Newark, N. J., to Chicago; Chicago to San Francisco; New York to Miami; New York to Atlanta; Cleveland to Fort Worth; Chicago to Jacksonville; Newark to Kansas City.

Air Mail Here Heavy

An estimate of the amount of airmail going out from Medford each year was placed today by Postmaster DeSouza at between 15,000 and 20,000 letters. He stated that he felt very hopeful of restoration of the western service as soon as the facts in the case ar known. A flurry of mailing during the next few days, he said, is also expected from people anxious to send out letters as souvenirs over the last flights of the present service.

With elimination of the airmail, Mr. Banwell stated, Medford would be practically isolated, having only one through train north and south each day under the present setup.

Indians proved to be particularly efficient conservation workers last year in eliminating the blister rust which attacks white pine in forest areas.

Whose Fault?

When a Child Won't Study

"Kept after school!" And it isn't the child's fault, or the teacher's. His mother is to blame. How can a boy get his lessons when his senses are dulled day after day by dosing with sickening purgatives? When a child's bowels are stagnant they need help, of course. But not some drastic drug to upset the stomach, perhaps weaken the entire system; or form the laxative habit. On the right, parents will find a happy solution of this problem: Here's a boy who gets good marks, has time and energy for play. He is never ill, hardly ever has so much as a cold. When he does show any symptoms of being sluggish, his mother knows just what to do. She gives him a little California Syrup of Figs—and that is all. It's a natural, fruity laxative that is agreeable to take, and its gentle laxative action comes from senna. Parents are urged to use just pure California Syrup of Figs. Be sure bottle says 'California'.
