MEAD TO SECURE DE SOTO AIRFLOW FOR LOCAL SHOW

Next Mead, head of Mead Motor company, Medford dealers for DeSoto and Plymouth cars, left Thursday by plane for Portland to secure a new DeSoto Airflow for display in this city. Upon his arrival in Portland, Mr. Mead will immediately start the return trip to Medford for the first showing of the newest DeSoto in Oregon outside of Portland. The car will remain in this city until Sunday night or possibly Monday evening, according to Mead.

Incidentally, the initial showing of the DeSoto will be the debut of Walter Chrysler's sensational Airflow model in southern Oregon and motorists here are looking forward to this display with considerable interest. It is estimated that 16,000 Portland people viewed the same car during the first three days on display in the Rose City, a fact that is indicative of the public interest and acceptance of this advanced design. The new all-steel unit body and frame, with frame and body one, has created considerable comment and won the approval of engineers throughout the United States.
