

## PIONEERS ACCEPT C. OF C. INVITATION TO FORUM LUNCH

Over Twelve Responses  
Already Received for  
March 26 Banquet Honor  
Old Residents of Area

Over twelve southern Oregon pioneers have already responded to invitations to attend a special chamber of commerce forum luncheon March 26, honoring persons who have resided in Klamath, Jackson and Josephine counties for the past 75 years. This span of time dates back the establishment of Oregon statehood to be observed in Medford during Oregon's Diamond Jubilee celebration next June.

While no names have been received as yet, quite a number of pioneers are expected from the two neighboring counties to be honor guests at the luncheon which will have Prof. Irving E. Vining as the principal speaker and Attorney Evan Reames as toastmaster.

Jackson county pioneers who have already announced themselves include Mrs. William Holmes, W. G. Leever, Mrs. Marie E. Bennett, S. D. Swingle, Mrs. A. L. Harvey, Mrs. Howell, Mrs. Cantrell, Mrs. Mary F. Stevens and Mrs. Esther J. Cameron. Special letters have been written by the chamber of commerce to four other county residents whose names were received today.

The pioneer luncheon is already attracting statewide attention and is expected to bring widespread publicity to this section and the jubilee celebration. The luncheon will provide the foundation for the formation of a "Three-Quarters Century" club, the first to be organized in the state.

## LONG-TERM BOND YIELDS DECLINING SAYS ECONOMIST

By CLAUDE A. JAGGER,  
Associated Press Financial Editor.

NEW YORK, March 15.—(AP)—When so prominent an economist as John Maynard Keynes expresses the opinion that the course of yields on long-term bonds is downward, investment analysts sit up and take notice.

If this prognostication is correct, it means that gilt-edged bonds are still cheap, despite current high levels and that the United States treasury will undoubtedly be able to refund its large floating debt on decidedly satisfactory terms.

Keynes recently expressed this opinion at the meeting of the National Mutual Life Insurance Co., of which he is chairman, in London. He felt that yields on long-term bonds, both in the United States and England, were definitely declining.

Wall street experts, however, are by no means unanimously accepting Keynes' analysis, particularly as regards the United States. With gold reserves vastly expanded, and a huge credit base set up for future use, it is acknowledged that credit may well be cheap for some time to come.

On the other hand, continued cheap credit, it is pointed out, implies a balanced budget. Keynes' conclusion as regards the United States is evidently based on the belief that it will be possible over the next fiscal year to curtail government expenditures in this country, according to the schedule outlined in the president's budget message.

## ROAD OPEN TO LAKE OF WOODS

ASHLAND, March 15.—(Sp.)—H. O. Enders reports that though the season is early it is possible to drive to the Lake of the Woods at this time. E. B. Hall of the Hotel Hall in Klamath Falls wrote to Mr. Enders Tuesday that the road was open from the day that the road was open. He had driven to his cabin at the lake on Sunday, March 11. Mr. Hall stated that there is not much snow at the lake and that the water is at approximately the same level as last fall. Mr. Enders plans to drive in to the popular resort soon.

## 1933 SEAL SALES TO TOP PREVIOUS YEAR

SALEM, Ore.—(UP)—Complete figures on 1933 sale of Christmas seals are not yet complete, but the total is known to be greater than in 1932, the state tuberculosis association reported today.

Increases are known to have been made in the following counties: Clatsop, Clackamas, Clatsop, Gilliam, Harney, Hood River, Jefferson, Tillamook, Umatilla, Union, Wheeler, Yamhill.

## CCC BOYS CARVE GIFT LAMP FOR ROOSEVELT

SALEM, Ore.—(UP)—A recent gift to President Roosevelt was a large floor lamp, made by hand of Oregon

myrtle at the Cape Creek CCC camp. The myrtle tree, of light colored pungent wood that takes a high polish, is native of only two sections of the world. Southwestern Oregon and Palestine. The wood is much prized for making turned articles.

GRANTS PASS STARTS  
BASEBALL ACTIVITIES  
GRANTS PASS, March 15.—(Sp.)—To organize for the 1934 season, Grants Pass baseball players who aspire to join the Athletics' roster this

year will meet at 7:30 this evening at the Owl billiard parlor at 611 G street. Election of officers will be held at this meeting and plans for starting the practice will be laid out. The Athletics have been state

semi-professional champions for two years and they are starting their practice early with a view to holding the title. After taking 19 written examinations in an effort to qualify for an

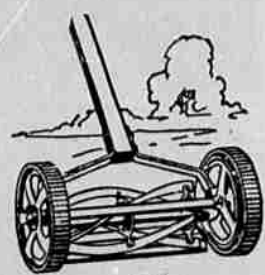

automobile driver's license a Holister, Cal. Filipino passed his driving test with a 100 per cent rating. Twenty-three camps of the Civilian Conservation corps are located in Louisiana.

California's pure food law prohibits the manufacture or sale of candy with liquor flavorings, says State Director Dr. G. S. Porter. Mrs. Martha Toole of Boone, Ia., owns a clock 150 years old, whose

"works" are made of wood. It still keeps accurate time. Every dance and college social function at Iowa state college has made a profit this year. Few kept out of "the red" last year.
