PRICES UNSTABLE IN EGG MARKETS

PORTLAND, March 21.—(AP)—Market for eggs continued to show shaded or unstable prices despite the announcements of advances made from several sources, checkup of sales to retailers disclosed.

General cut of 1/2c lb. in the price on all butter cube scores except 92 was made at the last session of the produce exchange, confirming recent forecasts of a lower market. Butterfat was unchanged.

As a result of the general cutting of cheese prices, a slower trade was suggested at wholesale, but retail business was reported as somewhat improved in many spots.
