

## REPUBLICANS GET LIONS' SHARE OF POLITICAL PLUMS

G. O. P. Elects 84 to Principal State Offices and to Congress, While Only 44 Democrats Make Grade

By Virgil Pinkley  
(United Press Staff Correspondent)  
STATE HOUSE, Salem, Ore. (UP)—Republicans have been elected eighty-four times to the six principal state offices and as federal senators and representatives compared with 44 Democrats, a survey showed today.

In the early days of Oregon's statehood Democrats held a majority of the offices.  
Oregon's first governor, secretary of state, treasurer, attorney general, superintendent of public instruction and senators and representatives were all Democrats.

Few Demis Since 1881.  
The first five representatives elected to congress were Democrats. Since 1881, however, only three Democrats, Elton Watkins, Walter Pierce and Charles H. Martin, have been elected. From 1881 until 1923 no Democrat was successful in winning a congressional seat.

The first congressional district has always been represented by Republicans. This fact will prove an interesting point in the final race between the winners of the Goss-Turner and Devere-Moitt campaigns.

Eleven Republicans have been elected governor against eight Democrats. Only one Independent, Julius L. Meier, has been elected. Four governors were re-elected.

Since statehood only two Democrats have won the secretary of state office, but in territorial days all four secretaries of state were Democrats. G. O. P.: 5 Demis in Treasury.  
Republicans have been elected state treasurers nine times, compared to five Democrats. Thomas B. Kay, Republican, served the longest time in office, January 4, 1911, to January 6, 1919, and January 4, 1925, until April 26, 1931, when he died.

Five Republicans have served as attorney general. Only one Democrat held the office. I. H. Van Winkle, incumbent, was appointed to succeed George M. Brown, who was elected and has been re-elected three times.

Two Democrats and eight Republicans have served as superintendents of public instruction.

The state has had only two commissioners of labor, both Republicans. O. P. Huff served from January 1, 1905, until January 6, 1919, when C. H. Gram, now a candidate for re-election, began his term of office.

Oregon has sent 12 Democrats and 16 Republicans to the senate. Charles L. McNary, Republican, is serving the longest consecutive term, which began May 20, 1917.

Republican representatives number 24, against 14 Democrats. W. C. Hawley served the longest consecutive term in the lower house, March 4, 1907, to March 3, 1933.

Democrats are hopeful of winning a majority of state and federal offices this year. To date little effort has been spent by the Democrats to secure a strong candidate for secretary of state.

Those who preach the policies of Jackson, Jefferson, Wilson and Franklin Roosevelt also are searching for a man who can win the seat now held by Martin, who is running for governor.

Democratic chieftains are cognizant

"My dear, you know the coffee they spoke about on the Merrymakers program Sunday night—S&W? Well, we bought a can and Jack really raves about it... It really is good, and so reasonably priced. Be sure to try it."

Once again Woman's Supreme Court passes judgment across the back yard fence. The verdict is, "America's greatest coffee value." Your first cup of S&W will tell you the verdict is sound.

## Tyro at Ten Pins Bowls And Bowls But Gets No Pay

OKLAHOMA CITY (AP)—He was a serious young man, inquiring. "Can you give me an alley?" "Ever bowled before?" asked C. F. Williams, bowling alley manager. "Nope, but I can learn."  
Williams showed him how to bowl and how to keep score. The young man bowled and bowled, until finally Williams warned him his muscles might complain next day. Wearily, with a sigh of relief, the youth desisted, but made no move to leave.  
"Have you forgotten something?" Williams finally asked. "Guess so," the youth replied. "Can you pay me now so I can go home?"

of the fact that a Democratic administration is in power in Washington and that general conditions apparently are improving. They believe these facts will prove a tremendous boom in securing the election of party members.

## CANNIBAL INDIANS TRACED ON COAST

COALINGA, Cal.—(UP)—Possibility that the Channel tribe of California Indians may have been cannibalistic was seen today following discovery of cracked, burned human bones near Indian graves in this district.  
Gordon Cain, local archaeologist, discovered skeletons of two Channel Indians, possibly father and son. The manner of burial, with the skeletons prone in the graves, and beads and other articles, prove them to be members of the Channels, who normally dwelt along the coast of southern California, Cain said.

Roasted human bones, cracked to permit extraction of marrow, also were found near the graves, indicating, Cain said, that possibly the Channels were cannibals. This was the first indication that any of the California Indians practiced the grim custom.  
The Channels also preceded white men in the use of petroleum products, Cain discovered. Arrows found in the graves, which were hundreds of years old, were found to have their heads fastened on with asphaltum, which abounds in this section of the famous Kettleman hills. Baskets placed near the skeletons were found to be coated on the inside with the substance to make them water-tight.

## TWO SENTENCED FOR BURGLARY IN SALEM

SALEM, March 23.—(P)—John Albin was sentenced to three years in the state penitentiary and George Trambitas to two years, when the two pleaded guilty in circuit court here yesterday to a charge of burglary.  
Albin was arrested following the breaking into of a tobacco warehouse in Salem and thousands of dollars worth of goods removed. Trambitas was arrested in connection with the same case in Portland later.

## VETERANS TO GET FIRST CALL WHEN BRIDGE JOBS OPEN

SALEM, Ore. (UP)—Contracts between the state and the federal government for construction of the five coast highway bridges provide that workers must be selected as follows:  
Preference shall be given, where they are qualified, to ex-servicemen with dependents, and then in the following order:

1. To citizens who are bonafide residents of the county in which the work is to be performed, i. e., Yaquina bay bridge, Lincoln county; Siuslaw river bridge, Lane county; Alsea bay bridge, Lincoln; Umpqua river bridge, Douglas; Coos Bay bridge, Coos.

2. Citizens who are bonafide residents of the state of Oregon. These preferences, however, apply only where such labor is available and qualified to perform the work to which the employment relates.

All employees must be chosen from lists provided by the federal employment bureau, except in cases of executives and skilled workers not available on such lists.

Contract for the first bridge, across Alsea bay at Waldport, will be let Thursday, April 5 by the highway commission. The bridge is 3,028 feet long, with 24 foot roadway. A three foot six inch sidewalk will run across

the bridge on either side of the roadway.  
Materials to be used will include approximately 18,900 cubic yards of concrete, 2,000,000 pounds reinforcing steel, 300,000 pounds structural steel, 5,500 lineal feet concrete handrail, 5,500 cubic yards excavation.

## ZONA GALE NO STAR AS PUPIL

PORTAGE, Wis. (UP)—As a grade school student, Zona Gale, the novelist, was no more outstanding than many of her classmates, Miss Lyda Gilman recalled as she celebrated her 85th birthday anniversary here.

Miss Gilman was the novelist's first school teacher. Zona started in the third grade of the public schools after being taught privately at home. On her first day in school, she suddenly announced that she was going home and got up and walked out, the teacher recalled.

Zona told me years later, Miss Gilman said, "that when she was outside she heard me admonish the class. You must never laugh at her or make fun of her for leaving. She doesn't know the rules now, but she'll learn."  
"She never left in the middle of school again."
