George Raft Stars at Craterian

Telling the intimate story of the life of world famous dancer, George Raft's latest starring picture, "Bolero," opens a four-day engagement at the Craterian theater today. In the supporting cast are Carole Lombard, Sally Rand, the Fan Dancer and Frances Drake.

It reveals the long struggle for success by an ambitious youth, who finally achieves fame only by denying his emotions, by trampling on the hearts of the many beautiful women who help him on his way to success. George Raft, himself an internationally famous dancer before he came to the screen, plays the leading role and demonstrates the technique that made him famous on ballrooms and stages of America and Europe. The Raftero, a featured dance in the picture, embodies a great many of his own original conceptions.

One of the highlights of the picture is the fan dance performed by Sally Rand, who made such a sensational success of it during the world's fair. The picture version is the original dance she did at Chicago.

'PILGRIMAGE' IS BEAUTIFUL FILM

The opening of "Pilgrimage" at the Roxy theater today will mark the introduction of one of the most completely beautiful productions of recent months. This picture has the sweep of "Cavalcade" and the intimate niceties of "State Fair." And it combines these elements into a unity of entertainment that should be hard to surpass.

The story is the simple one of a mother who runs through the gamut of emotions as she breaks up one young romance and subsequently ce-

ments another. She sends her only son to war and to his death in order to keep him from marrying the girl he loves.
