

WHAT'LL WE USE FOR MONEY? ASK FEDERAL HEADS

(Continued from page one)

farmer-labor member, Shipstead of Minnesota. All 27 voting to sustain the president came from the democratic side.

Stirring Scenes at Vote. Stirring scenes accompanied the vote. Opponents of the veto ignored all pleas by the democratic leaders that such action might shake confidence in President Roosevelt at a time when it was needed.

Announcement of the vote by Vice President Garner brought cheers, shouts and applause from the crowded galleries. Despite warnings from the chair, the had been previous outbursts both on the senate floor and in the crowds above.

Washington received the news with some excitement. It meant that \$26,000,000 extra would be given federal employees between now and July 1, part of it retroactive until February 1. In addition to this five per cent restoration of the government pay-cut, another five per cent adding another \$128,000,000 will go into effect July 1. Much of this money will be spent in the capital.

Walt F. R.'s Answer. While official Washington listened for Mr. Roosevelt's answer, it recalled that he had declared the bill went \$228,000,000 beyond his budget estimates with no provision as to how this sum would be obtained.

In his veto message he inveighed chiefly against the principle of a veterans' "service pension." This he said the bill set up for Spanish-American war veterans. He had objected also to the provisions restoring 20,000 world war veterans to the rolls at 75 per cent of their former compensation without review of their cases to determine if the disabilities were of service origin.

There was complete silence when Carter Glass, the Virginia democrat who has opposed the money policies of the president, took the floor.

Stands by President. He declared the president was correct in vetoing the bill, and that he had never wavered from the principles he thought right in his dealings with the veterans question.

Then, his voice trembling, Glass said he had two boys "over there." He added: "I'd dishonor them if they ever accepted a dollar from the government although they were in the front line trenches."

Senator Cutting (R.-N.M.) and Senator Robinson (R.-Ind.) and Steiwer (R.-Ore.) led the fight for over-riding the veto. They contended the veterans' review boards did not deal fairly with veterans, and that the president's action in restoring them to the rolls pending review would, under existing regulations, mean that they all would be stricken off again.

STERLING MINE SEEKS OUSTING 66 SQUATTERS

(Continued from page one)

STERLING property by Fred J. Blakeley, president of the Medford Water, Power, and Development company, and Sterling mine operator.

The plaintiff holds that any promise by Blakeley is not binding beyond the life of the corporation, that title in the land involved has been cleared, and that the Sterling mine would resume operations today, and the company now holding it desired an early decision, so it could go ahead with development plans.

The Medford Water, Power, and Development company was formed in 1928, and its plans went awry when the depression came.

Most of the 66 defendants named in the injunction suit were present in court this morning.

In the early years of the depression, gold mining was revived, and the Sterling mine area became a Mecca for many. About 100 people are now a
