

TWO LOSE LIVES IN TEXAS HOTEL FIRE

LONGVIEW, Texas, March 30—(AP)—At least two persons were killed and 21 injured, 11 of them seriously, here early today when fire razed the \$250,000 Longview hotel.

D. F. Stafford, Dallas, was killed when he jumped from a third floor window and struck the pavement head first. Search of the ruins resulted in the discovery of a charred body.

A woman dropped her baby from a third floor window in a frantic effort to save its life. The baby landed in a second floor awning, from which it was rescued by a fireman.

Garner Denies Retirement Plan
 WASHINGTON, March 30—(AP)—Vice-President Garner today denied published reports that he intended retiring from public life at the end of his present term.
 "I have made no such announcement," he said.

SPRAY ADVISABLE SOON TO CONTROL CODLING WORMS

The time to apply the calyx spray on pear and apple trees for the control of codling moth worms will soon be at hand, according to L. G. Gentner of the Southern Oregon experiment station, and L. P. Wilcox, county agent.
 In case of apples this spray should be applied when about 80 to 85 per cent of the flower petals have fallen and before the calyx cups close. The object of this spray is to fill the

blossom end of the young fruit with poison so that worms trying to enter the fruit at that point later in the season will be killed.
 The calyx spray on apples is of great importance and should be applied at the proper time. The calyx cups close within a week after the fall of flower petals and when once closed no amount of spraying will protect the blossom end from worm entries.
 In pear orchards where worms have been a serious problem a calyx spray is advisable and recommended, especially on the Bartlett variety. This spray should go on within the next week as young fruits are now formed and growing rapidly. The application of sprays at this time will also prevent damage from such leaf and fruit eating insects as saw fly larvae, fruit worms and canker worms.
 In the above sprays use powdered arsenate of lead to the rate of three pounds to the one hundred gallons of water. Apply thoroughly and strive to fill the blossom ends of all young fruits.

Hansen Boy Improved — Howard Hansen of North Ivy, who received injury, was removed from the Sacred Heart hospital to his home Thursday.
