WORTMAN OUSTER AS BANKS ESTATE TRUSTEE DENIED

(Continued from page one) The debts are for wages and material.

Wortman testified that when he heard of anyone who wanted to buy an orchard he investigated and endeavored to make a sale.

Janet Guches, one of the creditors, testified she had typed the letters sent to creditors and that she was advised the foreclosure could be voided and reverted to bankruptcy, but later learned this was "not true."

The creditors thought the above would give them orchard cash, instead of the mortgage.

Howard A. Hill testified that the Pepper-Taylor orchard was not in as good condition as then Banks held it.

He was called in rebuttal to Wortman's testimony that it was now in better shape.

Wortman testified some of the Banks property was located on the Hill orchard.

Attorney Charles Reames testified that he had made an effort to secure information from Banks in prison as to the whereabouts of assets, but Banks had refused to give any information.

The attorney asked and answered his own questions. Evidence showed the financial affairs of Banks to be highly involved, with three separate estates, and that difficulty had been encountered in determining to what estates the assets discovered belonged.

Obituary

William Warren passed away at a local hospital after an illness of the past several months.

Mr. Warren had lived in Medford for many years and was very well known among the older settlers.

Born in 1863 in New York and aged 71. He leaves one niece residing in Grants Pass, Ore.

Deceased was a member of the Catholic church. Services will be held at the Sacred Heart Catholic church Monday morning at 10 o'clock.

Funeral services will be held under auspices of the Christian Science church at the graveside in the Gold Hill cemetery at 2:30 Monday with Conger Funeral Parlor directing.

Coast Bartlett Growers Approve Pack Limitation

PORTLAND, March 31.—(AP)—The conclusion that the future welfare of the Bartlett pear industry on the Pacific coast lies in a limitation of the total pack was reached at a two-day conference of representatives of the industry, concluded here.

A definite agreement was reached as to the necessity of limiting the coast pack in order that the pear growing industry on the coast may be preserved.

Mr. William A. Schoenfeld, Oregon State college, presided at the conference which was attended by representatives of growers from Medford and Hood River districts in Oregon, Yakima and Wenatchee districts in Washington, and Santa Clara, Sacramento, Eldorado and Contra Costa in California, who met with delegates from the California Cannery committee, the Northwest Cannery association, and representatives of the agricultural adjustment administration.

Unusually low returns to growers of Bartlett pears in recent years were laid to the increased acreage which has come into bearing, and that the only solution rested in limitation of the total pack.

BURKE IN DENIAL HE BACKS RUFUS

PORTLAND, Ore., March 31.—(AP)—A denial that he had withdrawn from the gubernatorial race "in favor" of Rufus C. Holman was issued here Friday by State Senator W. E. Burke of Yamhill county.

Burke, who several weeks ago announced his intention of campaigning as a progressive Republican, said he later decided to withdraw "to prevent further division of the progressive vote."

"I have not yet said I will support anyone," the senator declared.

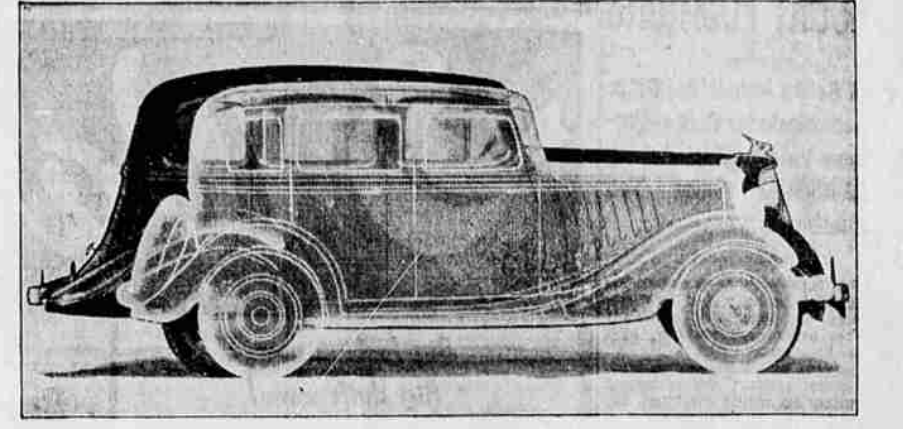

NEWSPAPER USES 'SAMPLES' IN AD

ST. LOUIS, March 31.—(AP)—The use of samples, or swatches of material in newspaper advertising is inaugurated in the Sunday edition of the St. Louis Post-Dispatch by a city department store.

Frank M. Mayfield, in charge of the new type of advertising said "this definitely is a step forward in the field of advertising. It is the first time that the use of actual swatches has ever been attempted in an advertisement in a metropolitan newspaper."

More than 1,000,000 samples of material were used in the advertisement developed and scores of workers were required to attach the swatches to the issues of the Post-Dispatch.

BIGGER AND ROOMIER FOR 1934

An interesting contrast which shows the greatly increased value in the 1934 cars as compared with their predecessors is afforded by the comparison given in this illustration between a standard Terraplane of 1933 and its successor, the standard Terraplane of 1934.

The drawing of the 1933 Terraplane has been made to the exact scale of the 1934 car and super-imposed upon it with the center of the front wheel hub coinciding. It will be noted that the 1934 Terraplane, which, incidentally, is the largest car in the lowest price field, exceeds in every dimension.

The bigger, more powerful engine requires a higher, longer, hood. The radiator is larger and in every way the dimensions exceed those of a year ago and yet, because of the improvements in the engine, the larger size has been off-set by the increased power and performance has actually been improved.

STERLING TOT IS FOUND BY FRIEND ERE COPS ARRIVE

Missing from home for about three and a half hours, Arthur Davis, two-year-old son of William Davis, who resides between Buncom and Sterling near Sterling creek, was found last night by a Mr. Wall.

The child was an route to another place owned by his father, which was about two miles from his home.

Three state policemen and a deputy sheriff went from Medford to aid in the search, but reached the Davis home about fifteen minutes after Wall had returned the boy.

Wall said he saw the little fellow from behind a tree, and called: "Is that you Arthur?" The boy said: "Yes, it's me."

FEDERAL SPENDING BELOW ESTIMATED BUDGET DEFICIT

WASHINGTON, March 31.—(AP)—The treasury will have to scoop money out of its gold-lined bins at a rate of more than a million and a half a month if the government is to have a \$7,000,000,000 deficit June 30, as estimated by President Roosevelt.

The third quarter of the fiscal year ended today with emergency expenditures still keeping to levels far below those officially forecast by the administration, in submitting the budget to congress.

Figures for all but the last two days of the month showed all government outlays totaled but a little more than \$2,500,000,000.

As a result, the huge borrowing program that had been planned has been sharply curtailed. Mr. Roosevelt told congress early in January the government would have to borrow \$9,000,000,000 in addition meeting maturities totalling \$4,000,000,000.

Since then securities issues have aggregated \$800,000,000, while a total of something less than \$1,000,000,000 in maturing issues has been refunded. Regardless of expenditures the \$4,000,000,000 refunding program must, of course, be carried out.

The lag in emergency expenditures was attributed by officials today chiefly to two factors: the public works program still is slow in reaching its expected proportions; repayments to the reconstruction corporation have kept its needs well below estimates.

For the fiscal year ending June 30, President Roosevelt told congress public works outlays were expected to reach \$1,677,190,800. At the close of business March 29 they amounted to \$379,995,835.

More than 1,000,000 samples of material were used in the advertisement developed and scores of workers were required to attach the swatches to the issues of the Post-Dispatch.

HOOVER ON TOUR ARRIVES CHICAGO

CHICAGO, March 31.—(AP)—Former President Herbert Hoover arrived here late today by automobile on what he described as just a "gypsy trip" to visit personal friends.

He was registered at the Drake hotel, but left a few minutes after arrival for unannounced destinations on matters his secretary said were purely personal.

The former chief executive expects to return to the west either tomorrow or Monday.

The young or larvae of the gypsy moth, forest pest, has been found riding the wind 2000 feet high.
