

GOVERNMENT ILLS DECLARED RESULT OF CIVIC SLOTH

Ship of State On Rocks Because Predatory Politicians Thrive While Citizens Neglect Own Interest

SPOKANE, Wash., April 5.—(AP)—Only a century and a half old, our ship of state, leaning badly, is on the rocks, all because of "civic complacency," some 2500 northwestern educators were told by a prominent Californian here today.

Dr. F. W. Hart, professor of education at the University of California, was the speaker. He addressed the opening general session of the Inland Empire Education Association convention.

Dr. Hart, a member of the commission which surveyed educational conditions in Chicago, placed upon "civic complacency" the blame for bankruptcy in that city's school system.

Chicago a Warning. "Chicago is bankrupt and in the hands of financial dictatorship today," he declared. "What has happened in Chicago may happen anywhere in the United States."

"Civic complacency is at the foundation of the deplorable condition in Chicago. Civic complacency exists in every state in the union. Predatory politicians are found from the attitude of liberty to the seal rocks."

"Unless the citizens generally arouse themselves from their civic lethargy," Dr. Hart warned, "the situation found in Chicago today will be nationwide. Popular government will have fallen victim of its own hand."

Tax Racket Blamed. As causes for conditions in Chicago, Dr. Hart listed obnoxious tax machinery, a "tax racket" and a tax strike. The "tax racket," he explained, was the "sell out" of the assessment rolls by the "elected public servants and their henchmen—the predatory politicians."

The educator made three suggestions for correcting these conditions: First, creation of state foundations for promotion of justice in taxation, economy and honesty in government; second, making every home a forum for the discussion of social, political and economic issues; and, third, formation of a commission made up of laymen, educators and tax experts, charged with the duty of studying comprehensively the whole problem of taxation and of proposing a program of sound legislation.

These suggested reforms, Dr. Hart said he believed, "would serve to plug the leaks in the ship of state."

Old Ship Is Sound. "Some demand a new ship," he concluded. "For my part, I believe the old ship is sound in principle and is built on the right lines, but it needs a term in the dry-dock, its outworn machinery must be ripped

Tells Of Shining Husband's Shoes

Mrs. Michael F. Cudahy (above), wife of the wealthy packer, testified in Milwaukee divorce court that she shined her husband's shoes, washed his hair and darned his socks. She is opposing his divorce action and seeks custody of their eight-year-old son. (Associated Press Photo)

out its barnacles of political graft scraped off."

Delegates were registered from Montana, Idaho, Oregon, Washington and British Columbia.

A picture of hope for the future of education was drawn for the delegates by Dr. Charles A. Rice, president of the association and superintendent of schools at Portland, Ore., in his annual address.

"The present situation," he declared, "opens up the three possibilities for the future of education. These are chaos, revolution or evolution."

He expressed the opinion that evolution is the path that will be taken, with education becoming a fundamental concern of the state.

The peak of the depression is past, Dr. Rice said he believed, and "better days are ahead of education."

DICK FARMER, FORMER COPCO WORKER, DIES

Word was received here yesterday of the death of Richard Farmer in San Francisco, following a lingering illness. Mr. Farmer is survived by his widow, the former Sybil Purdy, and his mother in San Francisco. Mr. Farmer was well known in southern Oregon, where he was employed for some time by the California Oregon Power company, when the new project was installed at Prospect. Funeral services will be held Friday morning in San Francisco.

FIRST AID CLASS INTERESTS MANY WORKERS IN CWA

W. P. Tyson, district safety inspector for CWA, arrived in Medford February 28, to make arrangements for holding a first aid class for CWA workers. Officer Ellenberg of the state police consented to instruct the class; and, with the help of some of his officers and S. M. Bullis, chairman first aid instruction committee, the first class was held in the Medford Armory on March 6, with an attendance of over 100 men.

Classes of two and a half hours each were held every Tuesday and Friday evenings for three weeks—making a total of 15 hours of instruction. The men were conscientious in their attendance and work, and many workers attended classes after they had been laid off CWA jobs. Approximately 81 men attended every class. Of this amount, the following received Red Cross certificates:

- A. W. Ayres, E. M. Beer, George Bigler, W. G. Bradbury, J. G. Brock, P. L. Brown, L. P. Bundy, H. W. Burch, N. L. Cays, R. E. Chapman, John F. Carter, A. J. Cox, John P. Daley, Joe D. Daley, W. M. Dietrich, Roscoe L. Doty, S. Fraley, Curt N. French, Chas. C. Garret, A. M. Garrison, Edward Gilmore, Harold D. Grey, Don Haas, P. E. Hammond, L. R. Haney, N. B. Hardisty, J. W. Hodson, Frank W. Houston, Dawson L. Huff, C. E. Jaques, P. W. Johnston, A. P. Jordan, Paul J. Knutson, F. O. Lindgren, Roy W. McConnell, F. S. McKee, J. R. McKee, L. C. Newman, Andy Overstreet, Max Overstreet, A. E. Phillips, W. E. Poling, A. R. Pryor, John J. Robertson, F. G. Smedicor, A. C. Smith, A. G. Soules, A. P. Stone, Chas. P. Strayer, O. H. Tice, C. A. Whitney.

The following state police officers who attended classes, also received Red Cross certificates:

- Officer Louis G. Johnson, Officer O. A. McKinnon, Officer Harry R. Minto, Phil B. Lowd attended the first class held in Medford, and was then transferred to duty in Klamath Falls, where he completed the course.

Officer W. J. Reinking of the city police also received a Red Cross certificate.

Mr. Tyson, on his return to Medford last week, informed the local headquarters that he was very pleased with the results of Medford's first aid class.

EX-KLAMATH MAYOR PASSES IN ARIZONA

TUCSON, Ariz., Apr. 5.—(AP)—J. B. Mason, 85, former mayor of Klamath Falls, Ore., died at the home of his daughter, Mrs. Rollin Pease, here last night.

It is expected Mason will be buried in Klamath Falls, where he once was engaged in the real estate business.

Repetition is anything but monotonous in this case. Evelyn Kelly and Lou Sheridan, New York show girls, are modeling a very modish pair of bathing costumes made of printed jersey in a gay design of green and white. (Associated Press Photo)

'ROSIE' RECEIVES SURPRISE-FREIGHT

A. S. Rosenbaum, district manager of the Southern Pacific, is a booster for business, believe it or not! And if he can't get it one way he'll take it another. He got it this week in the form of nalla, shingles, roofing, two-by-fours and oil. And claims to be the only Southern Pacific representative to receive cargo, ribboned.

April 3, the special car arrived, personally consigned to Mr. Rosenbaum, who is still untying the ribbons. The carload is only the first of the supplies and material he will receive to complete a home he is reported building, several orders having been placed for him by G. R. Green of the American Fruit Growers, Inc., and R. O. Stephenson of the Economy Lumber company. The latter was very reluctant about giving out any detailed information, regarding the shipment today.

MUNICIPAL BONDS MAY BE EXEMPT

Wires from Washington indicating that municipal bonds may be exempted under the National Securities Exchange act were received today by City Superintendent Fred Scheffel, following such advocacy made by Medford.

A wire from Congressman Chas. H. Martin stated that the committee had agreed to exempt municipalities under the act, and one from Senator Frederick Steiwer stated that a public hearing would be held Thursday for consideration of such amendments to the act. He stated that he would do everything possible to benefit Medford's position.

If cities are not exempt under the act, municipal bonds will be subject to taxation, which would complicate their sale.

PERFECT ATTENDANCE SCHOLARS ARE LISTED IN LONE PINE SCHOOL

Lone Pine school pupils, with perfect attendance for the past four weeks are Maxine Parker, Charles Robinson, Bonnie Foresee, Jackie Rose, Robert Robinson, Jean Parker, Betty Vincent, Isabel Kellog, Lowell Blah, Herbert Mitchell, Myron Helvey, Robert Stack, Hilda McCasland, Annabelle Hoxworth, Freda Van Ortwick, Thelma Howard, Robert Rose, Cecil Davis, David Luman, Herbert Howard, Emelia Naves, Vesta Davis, Genea Tedrick, Walter Blah, Marion Johnson, Elsie Mitchell, Vernal Bumgardner, Everett Standley, Melvin Hoover, Dale Howard, Alden Hilbert, Wanda Konkel, Agnes Van Ortwick, Imo Foresee, Margaret Kellog, Clifford Medley, Kenneth Ray, Charles McCasland.

Bonnie Foresee was the only pupil having 100 per cent in spelling.

At a meeting of Lone Pine P.-T. A. March 23, new officers were elected as follows: Mrs. Luman, president; Mrs. Hoover, vice-president; Mrs. Helvy, secretary and treasurer.

Following the business meeting an enjoyable program opened with the discussion of "The School in Relation to the Community," the main topic. Numbers on the program were as follows: Iolun duet, David Luman, Robert Rose, accompanied by Mrs. Bolger; "The Social View of the Child in Relation to the School," Miss Evans; "Educational View of the Child in Relation to the School," Mrs. Hoover; "Benefits of Extra Curricular Activities," Mr. Goddard; "Teachers' Influence Over the Child in the School," Mrs. Luman; "Value of Self-Expression in Relation to the School," Mr. Hoover.

ONION FAMINE FEARED BEFORE NEW CROP IN

PORTLAND, April 5.—(AP)—A survey completed by the trade here today indicated less than 50 carloads of onions of shipping quality are retained in Willamette valley primary sections. In addition to these, speculative interests are said to retain about 40 carloads in Portland storage.

The Journal said "a famine of onions is considered likely before there will be sufficient of the new crop available from Texas."

He knows where his next meal is coming from

SAFE IN THE ELECTRIC REFRIGERATOR—kept at a temperature always below 50 degrees is the fresh milk so necessary to this young fellow's health. Safe, too, is the food for the whole family. Also, in purchasing an electric refrigerator his mother was thinking not only of safety but also of economy.

She counted on keeping fresh food that might otherwise spoil... she knew that left-overs could be kept and made into new tasty dishes for later meals... she planned on purchasing in larger quantities, buying at Saturday prices and keeping the food in the refrigerator until wanted later. The electric refrigerator you want will probably never be so cheap again. See your dealer today.

THE CALIFORNIA OREGON POWER COMPANY

Don't gamble

with your Fruit Crop!

Maximum Toxicity

THE fruit grower of the Pacific Northwest, after experiencing a substantial improvement in the sales prices of his commodities, looks back with regret upon his disastrous experience with spray programs which resulted in a material reduction of his pack out because of worm damage. The lack of control meant the loss of hundreds of thousands of dollars to each community in addition to the expense of valiant effort to curtail this loss.

The experience is too fresh in the memory of every grower to encourage its repetition. Therefore, growers will unquestionably prefer to use standard products such as Sherwin-Williams Arsenate of Lead and Sherwin-Williams Summer Mulsion rather than take a chance with materials which in their personal experience are unknown in value.

Sherwin-Williams Arsenate of Lead (manufactured by the largest manufacturer of spray materials in the world) is not an experiment and it is not a product concerning which there need be any question in the minds of any as to its effectiveness.

In the research work done by the Sherwin-Williams Company in actual orchard practice and in laboratories, Sherwin-Williams Arsenate of Lead properly applied produced almost instantaneous results, hundreds of newly hatched larvae being found dead on the surface of the fruit, resulting in a very small percentage of stings and worm entries. These tests involved the counting of several hundred thousand fruits. Hundreds of growers obtained maximum control during 1933 with two and three cover sprays, suffering an exceedingly small percentage of worm damage, in many instances saving from one-third to one-half of their spray bill.

With a record such as this should you gamble with your apple or pear crop? In fact there is no need to gamble with your spray dollar; no need to try spray programs or spray materials which are unsupported as to results through universal usage and universal control.

There is a Sherwin-Williams Horticultural Advisor near you. He will gladly cooperate in suggesting an effective and yet economical spray program.
