# ARMY DAY BRINGS MEMORIES OF '17 AND WAR'S CALL

WASHINGTON, April 6.—(AP)—It's army day today, and the tread of marching feet, of soldiers parading up Pennsylvania avenue, revives a memory.

Seventeen years ago at 1:18 o'clock this afternoon a signal from a White House window shot around the world the message:

"America is at war."

Woodrow Wilson walked the streets of Washington that 1-year-old day—Mrs. Wilson beside him; both deep in thought—before turning back to the White House, taking up a pen and signing his name across the war resolution.

As he traced the last stroke, a naval officer, standing in a window near Wilson's desk, semaphored silently to the navy department, then across the street.

The word, awaited, flashed instantaneously to the furthest military and naval outpost orders to go into action.

Franklin D. Roosevelt, young assistant secretary of the navy, was one of the first to receive it. His was a task of seeing that the nation's naval cordon offered no loopholes to German sea raiders.

Today is army day again, and he wired from his yacht in southern waters the celebration "indicates in part the gratitude of our nation to our army which so valiantly served this country in its every emergency."

# Unlucky Youths Quarantined In Sorority House

LOS ANGELES, April 6.—(AP)—Only four men students are "invited" to the fancy dress ball tonight and the formal dance tomorrow night planned by the 26 girls at the Kappa Alpha Theta sorority house at the University of California at Los Angeles.

These are not original plans, but a quarantine intervened and changed the circumstances.

The four boys, as kitchen employees at the house, were quarantined as well as the sorority members after Helen Fischer, sophomore class secretary, was stricken with scarlet fever. If one else contracts the fever, the quarantine will be lifted Monday.

# COMMUNICATIONS HOLDING COMPANY ABUSES ARE CITED

WASHINGTON, April 6.—(AP)—What were termed abuses in the operation of holding companies, together with payment of large salaries to officials of the American Telephone and Telegraph company, were reported today to the house interstate commerce committee by Dr. W. M. W. Spawm, following a three-year study ordered by congress.

Spawm, now a member of the interstate commerce commission, recommended enactment of the Rayburn bill creating a federal communications commission. Hearings open Tuesday before the house committee.

Spawm was employed by the committee to make the inquiry. He already had submitted one report.

"The holding company," the report said, "has been found as a result of this investigation to be a prolific of abuses in the field of communications as in other utilities already studied."

"What is disclosed by the examination of the Associated Telephone Utilities company is, in my judgment, but typical of what may occur under existing laws," Spawm wrote.

"Moreover, the American Telephone and Telegraph company, which is both a holding and an operating company, is more powerful and skillful than any state government with which it has to deal.

"A bill regulating communications in interstate commerce will fall far short of being effective unless it first restricts the use of the holding company to what is absolutely essential and necessary and, second, unless the regulation is extended to the holding company in like manner as to the operating company."

# Sea Snake Seen Dooring Near Coos Bay Sands

MARSHFIELD, Ore., April 6.—(P)—Coos bay, alighted these many months as a discussion of sea serpents and marine monsters held attention, leaped to the fore today.

Jens said the creature worked its way through the waves by "humping its back" like a measuring worm. Its head, he said, did not show above the water.

# Mary went to market

Here's the story. There's even a moral so don't say you weren't warned in advance. Mary—poor darling—went to market and fell for the seeming economy of "bargain counter" coffee. But she quickly learned that—even though you buy coffee by the pound—you don't drink it by the pound. You drink it by the cup. And true economy is based on how many satisfactory cups you get from the pound. Mary discovered that Hills Bros. Coffee makes a greater number of completely delicious cups per pound because of the greater abundance of strength and flavor. MORAL: For real economy as well as supreme coffee flavor, always ask for Hills Bros. Coffee.
