**News Behind The News**  
 By Paul Mallon  
 WASHINGTON, D. C., April 9.—The reason behind Huey Long's current antics is not hard to find.  
 Mr. Roosevelt decided some time ago that Huey was a bad man to mix up with, either as a friend or an enemy. So he and Postmaster-General Farley worked things quietly around so Senator Pat Harrison would be their chief consultant on Louisiana patronage. Harrison is from the adjoining state of Mississippi.  
 Nothing was said about the matter, but Huey began to catch on weeks ago, when more and more appointments went against him. One very important federal job went to a Mississippian. Long has received nothing.  
 There is a cloakroom understanding among senate Democrats now to ignore Huey, no matter what he says or does.  
 The agreement is the result of what happened to Harrison and Bennett Clark. The other day they found out that Huey and Huey were under what every burned child already knows.  
 As one Democratic senator woefully explained to his colleagues in private: "The trouble about debating with Huey is that you cannot call him anything he has not already been called."  
 Huey himself expressed something of the same idea when he publicly told Harrison and Clark not to get mixed up with corruptness, unless they wanted some quills in their hide. Other senators used other animals in the same metaphor.  
 The result is Huey is going to have immunity in congressional debate hereafter. The boys are afraid of him.

## HUDSON CO. HIT BY WALKOUT IN PARTS CONCERN

**Shutdown Ordered at 1 P. M. Because of Labor Trouble in Motor Products Co.—18,000 Workers Are Idle**

DETROIT, April 9.—(AP)—The Hudson Motor Car company announced a shutdown effective at 1 p. m. today, because of inability to obtain parts, particularly those manufactured by the Motor Products company, where a strike is in progress.  
 The shutdown was announced by J. Edward Schipper, public relations representative of the company, who said "the plant will remain shut until we get a new source of supply or the strike at Motor Products is settled."  
 The shutdown at the Hudson plant throws 18,000 employees out of work. Company officials emphasized there is no labor trouble at the Hudson plant and that the shutdown was necessitated solely because suppliers could not furnish material needed to continue production.  
 Approximately 1000 workers of the Motor Products company went on strike last week, their walkout resulting in a suspension of work by about 4600 other employees of the company.  
 Edward P. McGrady, assistant to General Hugh S. Johnson, NRA head, who is sitting with the federal automobile labor board here, said today that the Motor Products strike is considered the key problem confronting the labor tribunal.

## MUSHROOM POISON VICTIMS WILL ALL RECOVER IS WORD

Twelve in Butte Falls District Improving Today—Exact Poison Cause Is Still Matter of Doubt

Twelve persons in the Butte Falls district, suffering from a form of mushroom poisoning, were this morning reported by Dr. B. C. Wilson to be improving satisfactorily, although their condition the last of the week was considered serious. Those in the Prospect section who were also ill from eating morels were greatly improved, according to word from the resort.  
 Persons in the Butte Falls area who are ill include Mr. and Mrs. Chas. Patton, Harold Patton, Bernice Baker, Mrs. Garrett Larson, Mrs. Walter Stone, Mrs. Clem Clark, George Tranta and four members of the Nickerson family, who reside about five miles out of Butte Falls.  
 Dr. Wilson, who was accompanied on the calls by Dr. Dwight Fingler, said that the patients were no longer suffering from severe vomiting attacks, but were in a weakened condition as the result of the poisoning.  
 The Butte Falls people had not eaten toadstools, but mushrooms, Dr. Wilson declared, but said that they were poisoned by the food which had caused the illness, referred to as muscarine poisoning.  
 He said the mushrooms could have been in a degenerated state, they might not have been prepared correctly, or that the damp weather could have caused a sort of fungus to grow on the morels.  
 Florence Conger of McLeod who was in the Sacred Heart hospital last week, supposedly ill from mushroom poisoning, was taken to her home Sunday.

## STOCK EXCHANGE WINS ROUND IN REGULATION ROW

Senate Committee Votes for Amendment Creating New Commission to Curb Stock Pits — Upsets Plans

By NATHAN ROBERTSON  
 Associated Press Staff Writer.  
 WASHINGTON, April 9.—(AP)—The New York stock exchange scored a smashing victory in the senate banking committee today by a 10 to 8 vote to create a new commission to regulate the exchanges instead of giving jurisdiction to the federal reserve board and the federal trade commission.  
 The committee adopted an amendment to the stock market bill offered by Senator Glass (D. Va.), upsetting plans of the bill's authors and President Roosevelt to have the exchanges regulated by the two existing governmental agencies.  
 As it now stands, a commission of three members appointed by the president and confirmed by the senate, would be set up to exercise all the powers the bill originally proposed to turn over to the reserve board and the trade commission.  
 Friends of the original legislation planned to carry their fight to the senate floor, and with President Roosevelt's expressed support, were hopeful of final victory.  
 Opponents of the bill as originally drafted also scored an important victory by the same margin in adopting a motion by Senator Adams (D. Colo.) to eliminate the vital introductory section of the bill outlining its purposes for constitutional reasons.

## TRIAL OF PROHI LEADER OPENED FEDERAL COURT

Government to Show Considerable Part of Funds Given to Fight Al Smith Used by Cleric Is Claim

WASHINGTON, April 9.—(AP)—John J. Wilson, assistant federal district attorney, said today in criminal court that the government "will show that Bishop James Cannon, Jr., converted and appropriated to his own use a considerable part" of a contribution by E. C. Jameson of New York for use against Alfred E. Smith in the 1928 presidential campaign.  
 WASHINGTON, April 9.—(AP)—Bishop James Cannon, Jr., and Miss Ada L. Burroughs today pleaded "not guilty" in criminal court to a charge that they conspired to violate the corrupt practices act by failure to report all the Anti-Smith presidential campaign contributions they received in 1928.  
 Miss Burroughs answered first in a quiet voice, Cannon, speaking loud enough to be heard throughout the court room, then said "not guilty."  
 Indications that issues that played a large part in the Hoover-Smith campaign more than five years ago would enter into the trial proceedings came when the court and counsel framed a question to test the jurors on their religious, prohibition and political views.  
 Twelve persons were called to the jury box after the arraignment.

CHICAGO, April 9.—(AP)—Illinois will have a primary election tomorrow, but Joseph Tierno, politician in Chicago's "bloody twentieth" ward, will take no part in it.  
 They found his body in the street yesterday, with bullets in his back. He was a precinct captain in a ward where there is bitter strife for control of the Democratic organization, but he was also seen walking with a young woman shortly before his death.  They will keep their eyes on the assassin tomorrow, nevertheless, for when it was found she had received a possible fracture of the skull.

## LATEST DILLINGER HUNT IS REPORTED IN COLORADO AREA

HUGO, Colo., April 9.—(AP)—Sheriff John Johnson said today he and deputies spent several hours, just after noon in a futile chase of a large black sedan (Packard) believed to be occupied by John Dillinger, hunted desperado, a woman and another man.  
 Sheriff Johnson said the auto was seen by two Hugo men who said they noticed machine guns in the vehicle.  
 The sheriff said earlier today he had received a telegram from J. S. O'Connell, federal officer at Topeka, Kas., telling him to watch for an auto believed to have left Topeka, going west, and supposedly containing Dillinger, a woman and another man.  
 The move followed arguments of James Hayes' attorney that the defendant had been called before the jury to testify against himself. The appeal was allowed and Theodore Gillenwaters, district attorney, immediately suggested the court's order in killing the indictment also be applied to James R. Shaw, former chief, and Carl Cook, former officer, both charged similarly with Hayes.  
 The case will be resubmitted to the grand jury.

## DAIRYMEN'S STAND ON CONTROL PLAN TALKED AT MEET

PORTLAND, April 9.—(AP)—With an initial attendance of around 400, the northwest regional two-day dairy conference to determine the attitude of the industry toward the proposed dairy production control program opened here today. Oregon, Washington and northern Idaho are in the area covered by this conference and delegates attended from all three states.  
 Early indications are that the plan being proposed by the AAA through four representatives sent from Washington for this meeting will not meet with the organized opposition encountered at some of the 13 meetings already held, though many attending were frankly skeptical while most appeared to be open minded on the plan and prepared to decide on the basis of the facts brought out at the conference.
