

REEDSVILLE HOME NOT COMMUNISTIC EFFORT, SAYS SHE

(Continued from Page One)

be taken from that community by the project in which she is interested. Thus making taxes even harder to collect.

"I question very much if any people will eventually move into the 125, not 200, homes at Reedsville who have paid any rent in quite a long time," she said.

Mostly on relief. "Most of these families were on relief or they would not have opportunity to go out there."

She added that most of the families came from mining camps and she doubted very much if the mining companies would feel that they had been getting any rent out of their places.

Mrs. Roosevelt has set June 9 for her next visit to the Reedsville project.

Former Senator James A. Reed of Missouri, who acted as counsel for Wirt, said today he had other business in Washington and probably would remain in the capital "a day or two."

Asked if he had any comment to make about things that have happened in Washington since you left here, he answered: "I think the New Deal is a very good thing for the hotels."

HUSBAND SLAYS FAMILY, SUICIDES

MINNEAPOLIS, April 11.—(AP)—Money worries were blamed today for a six-fold tragedy in which a crazed insurance broker killed his wife, his three children and mother-in-law and then took his own life.

The six, all found dead in bed with bullet holes in their heads, were: Mr. and Mrs. A. J. Freudenfeld, Janet, 14, Carl, 11, Richard, 8, Mrs. Cora De Haven.

Police found a pistol beside Freudenfeld. They said he had shot his relatives as they lay asleep.

First Methodist Plans Reception To New Members

The First Methodist church is planning a real welcome for all those who have been received into its membership during the last nine months. The Ladies' Aid will have charge of the decorating of the church parlors and of the refreshments. An interesting program has been arranged and a most delightful get-acquainted evening is assured. The reception will be held Friday evening at 7:30 o'clock and all the members of the church, their families, and the friends in the congregation are invited to attend.

LOCALS

Mrs. Beach Better—Mrs. R. O. Beach, patient at the Community hospital, was reported getting along very satisfactorily today.

Colonel Kelly Home—Colonel E. E. Kelly has been returned to his home from the Sacred Heart hospital and was reported steadily improving in health today.

LEATRICE JOY VISITS CITY EN ROUTE SOUTH

WELFARE EXCHANGE IN CITY HALL OPEN FRIDAY TO ENABLE MORE WORK

The Welfare Exchange in the city hall, will be open Friday, instead of Saturday of this week, it was announced today by Miss Helen Carlton, manager. In the future the exchange will be open Wednesday and Friday of each week. The change in the second day has been made to enable more people to be present.

There are now several cotton quilts, made by the women, working under the self-help program, ready for sale at the exchange, and all interested persons are invited there to view them.

Organization of a class in nutrition and home problems at the Exchange was also announced today by Miss Carlton. It will be held on Wednesdays between 3:30 and 4:30 o'clock with Miss Blanche Runels, county nurse, as instructor. The first class will be one week from today and all interested women are asked to register. There will be no charge for entering the class.

It was pointed out today by various relief officials that the exchange in its self-help program has saved the other agencies an important sum of money and has contributed to the mental welfare of the women of the city to an unmeasurable extent.

Rock of Marne Tires of Advice On Campaigning

SALEM, Ore., April 11.—(UP)—Major-General Ulysses Grant McAlexander, Republican candidate for governor, said in an address here today he was not taking any more advice unless he seeks it himself.
"I have had many advisers," the retired army man said. "Each of them has told me to avoid certain subjects, as they are full of dynamite."
"They have listed so many don'ts there's not a damn thing left for me to talk about."
Whereupon, Major-General McAlexander proceeded to outline his life story. He is 72.

GROWERS RECEIVE HEAVY PAYMENTS LIONS ARE TOLD

Checks totaling \$50,000 have been distributed to Rogue River valley fruit growers during the past few days, for last year's crop, Raymond Reter of the Pinnacle Packing company told the Lions this noon at their regular meeting in the Colonial club.

He told the club members that buyers in the eastern markets were interested in the northwest fruit industries, and that this attention would materially aid valley growers in marketing their fruit.

News from the east, Mr. Reter said, disclosed that tremendous damage by winter kill has affected the bartlett crop in New York, Michigan and the Hudson river valley, and that the peaches in Michigan, Ohio, New York, New Jersey and into the Carolinas had been practically wiped out by the intensive freeze.

"It is expected that the damage in the east will bring about a more healthy market for fruit from here and other northwest points."

Mr. Reter expressed the belief that fruit sold the canneries would increase in valuation this year at least \$10 per ton before the season is over. The smudge here last week, he explained, was not necessitated by the fear of a killing frost, but to prevent frost markings to the fruit.

"Growers are taking better care of their crops this season than last, and they are more optimistic about the outcome," Mr. Reter told his listeners.

An advantage of the early crop this year, as brought out by the local fruit men, was the fact that it would give three more weeks consuming time.
"If a man fails to eat a pear today, he will not eat two tomorrow to make up for it," the speaker said. "Therefore, if the fruit can be put on the market three weeks earlier, there will be just that much more fruit sold."

In conclusion, Mr. Reter told the Lions that Medford pears are conceded to be the best in the world, and that he firmly believed the local market would stand up, even when others failed.

Three new key members, taken into Lions' International, were presented their keys at today's meeting—Carl I. Hayes, George Newberry and Carol S. Stuart.

JUBILEE HEADQUARTERS MOVED TO EAST MAIN

Headquarters of Oregon's Diamond Jubilee were moved late yesterday from the Chamber of Commerce to the shop on East Main street, formerly occupied by Magill's drug store.

Elaborate redecoration in anticipation of the big birthday party was underway there today, where Ernest Roedel, publicity manager of the jubilee, is located.

The series of Prophetic Lectures being given at the Advent Christian church on West Jackson and Welch, by Rev. Wm. Snider of San Francisco, are entirely different from anything ever attempted in this line before.
Rev. Snider is a very pleasing and able speaker, and is dealing with subjects which are of vital importance to the world today. Standing foremost among the world's prophetic and historical students, and keenly alive to present world conditions, he makes a simple and logical connection between prophecy and history which is of thrilling interest not only to the student of Bible prophecy, but to every close observer of present day conditions.
Many rare and beautiful stereopticon slides, which have been made expressly for this work, are being shown to illustrate the lectures.
Do not miss this fine opportunity. Lectures begin at 7:30 p. m. Subject for this evening: "The Carnivorous Antecedents of a Medieval Monstrosity."
Tomorrow, Thursday, evening: "A Horn that Spoke, The Antichrist—Whom, When, Where." Adv.

BUSINESS, whether it be in the office or in the field cannot afford to deal with unknown quantities—neither can it deal in unknown quantities. Orchard operations beset by many natural obstacles may nevertheless be converted into paying investments by dealing with principles known in quality and further in practice.

The crop loss in 1933, due largely to spray programs involving the use of unknown materials resulted in worm damage too severe to encourage repetition, and for this reason growers cannot afford to buy spraying materials, and particularly Arsenate of Lead in which exists the element of unknown qualities.

Recent analysis of various types of Arsenate of Lead has again proved the value to the grower of Sherwin-Williams Arsenate of Lead. Note the graphs which conclusively point to the superior physical properties of Sherwin-Williams Arsenate of Lead which permits maximum flocculation, an all important quality in securing highest deposit. As arsenical deposit is in ratio to control, the successful grower will standardize his Arsenate of Lead requirements with Sherwin-Williams Dry Arsenate of Lead.

- SHERWIN-WILLIAMS DRY ARSENATE OF LEAD HAS . . .
1. Maximum Toxicity.
 2. Superior physical qualities.
 3. Extreme flocculating ability.
 4. Proved ability to control in former years.
 5. Compatibility with all standard spray mixtures.
 6. Reasonable cost.

"BETTER CONTROL WITH LESS SPRAYS"
