

OFFICERS OF SERA OPENED HERE FOR RELIEF PROGRAM

Placement and personnel offices of the State Emergency Relief administration were opened in this city yesterday at 208 East Eighth street by Kenneth B. Wall, formerly of Lakewood, as manager. A. W. Martin, project supervisor for the state, is here to confer with the Jackson County Relief committee regarding projects to be undertaken here under the administration. The city council and the county court met yesterday afternoon in an effort to work out some system of caring for the compensation and transportation involved.

Under the S. E. R. A. government funds cannot be used for transportation of workmen, nor for purchase of materials. The program is not a continuation of the C. W. A. Mr. Wall emphasized today, but a program instituted for the definite purpose of providing relief. Rehabilitation of those who have been on relief in the past, will be stressed and the program will be confined to the metropolitan area of Medford. It will not be a county undertaking as in the case of the C. W. A. the work having been restricted to cities of 5000 population or over.

Men applying for work, are asked not to come to the personnel headquarters until notified by mail. Applications had already gone out to 350 people today and new applications will be considered as soon as possible.

Names will be taken from the C. W. A. rolls and investigated by the S. E. R. A. to determine which ones are eligible to work under the new setup, from the standpoint of economic need. Mr. Wall, who heads the placement and personnel work, was formerly county school superintendent of Lake county. Last year he became manager and disbursement officer there for the C. W. A. and was secretary of the Lake County Relief committee. He is accompanied here by Mrs. Wall.

The ships, he said, have a cruising speed of 150 miles, and include all the latest instruments. They are equipped with radio.
