

REGISTRATION OF JACKSON COUNTY SEEN NEAR 14,000

Registration for the primary election, May 18, will end today. County Clerk Carter estimates that the registration will be between 13,500 and 14,000—the normal number for Jackson county. In 1932, the registration was 19,139, an unprecedented number. The total vote cast was slightly under 14,000.

According to clerk office attaches, the registration this spring has been brisk, and chiefly by voters who have changed precincts the past two years. The registration between the Democratic and Republican parties has been about even, they say.

There has also been a number of cancellations of registration cards of people who have the past two years returned to other states or counties of Oregon. A number of Democrats who registered Republican in the spring of 1932, to participate in the Republican primary, have returned to the Bourbon fold.

A number of lifelong Republicans have gone Democratic, and a number of Democrats have flopped over the other way. In the past two months, the switching has not been large enough to hurt either major party.

There are between 150 and 200 new voters who are turning 21, and will set their first ballot this year. They, too, are evenly divided between Republican and Democrat.

At the last general election 1,189 votes were cast for minor parties in the county and it is estimated the mark will remain practically the same.

Election supplies for the primary election have been received from the secretary of state, and the ballot list for the county for printing will be submitted this week.

BAPTIST LEADER HERE WEDNESDAY

Dr. W. S. Abernathy of Washington, D. C., president of the Northern Baptist convention, will arrive in Medford at 8:15 a. m., Wednesday, and will speak at the First Baptist church at 2:30 p. m.

Dr. Abernathy is said to be one of the most popular ministers in the nation's capital, a man's man and a captivating speaker. He was President Harding's pastor.

Medford's standing and importance in the minds of others than ourselves is again emphasized by its being chosen as one of the three stops made in Oregon by this distinguished gentleman, the other two being Portland and Eugene. Delegations are expected from Ashland, Grants Pass and other places, to join Medford in giving Dr. Abernathy and his party a fitting welcome. All are invited.

MRS. WEEKS SUFFERS BROKEN ARM IN FALL

Mrs. May Weeks of this city sustained a broken arm when she slipped on a rug in her home, 38 Orange street, and fell to the floor. The injury is near the wrist, and quite severe. The mishap occurred Sunday morning.

At the time of the accident, Mrs. Weeks was coming downstairs with both hands full. At the foot of the stairs she stepped upon the rug which moved beneath her.

BIRTHS

Born to Mr. and Mrs. George L. Hartley of the Pacific highway, south, a son, Saturday night, April 14. He has been named Roland Spencer.

History and astronomically tested chronology joining hands to testify to the accurate fulfillment of Bible prophecy! This is the gist of the messages which Rev. Wm. E. Snider is giving on Revelation prophecy at the Advent Christian church, corner W. Jackson and Welch, this week.

Rev. Snider has built the structure of his lectures upon a firm historical foundation, and does not use unrelated passages of Scripture to bolster up some pet theory of his own. His lectures are a scholarly exposition of the teachings of the historic school of prophecy, and will appeal to thoughtful people of whatever religious belief.

The astronomical stereopticon slides used by Rev. Snider in illustrating his lectures are rare and beautiful, and well worth seeing to see.

Tonight's subject, 7:30 p. m.: "The Three Great Periods of Later Christian History and the End of Time."

Best Foods Plan Big 'Salad Weeks' In Coming Months

Here's good news for the grocers of

Medford. L. A. Piercy of the Hickman Products Co., Ltd., distributors of Best Foods products, announces that his company has just received the first supply of material for the Salad Weeks to be conducted in 1934. Probably no merchandising event

has made so many records as has Best Foods Salad Week. This idea was originated and developed by the Best Foods, Inc. Much of its success rests upon the fact that it is not a selfish push on just one line, but instead calls for the grocer

to feature a number of the many ingredients, both canned and fresh, that go into salads. Several grocers in Medford ran not only one but four or five salad weeks last year. When an idea makes history like the Best Foods Salad Week

has it is interesting to find out why. Mr. Piercy says: "In my opinion, when a grocer displays a lot of various salad ingredients around the store plus mayonnaise, it helps many women to decide what they are going to eat for dinner that night. We all

know how many women welcome suggestions. And that is what a Best Foods Salad Week does to perfection." Because of the thousands of successful weeks held in 1933 throughout the country, this year the Best Foods, Inc., has produced new and

original store display material of outstanding beauty. Mr. Piercy has in his possession records of merchandise moved that have seldom been equalled by any other type of promotion.
