Posters Announce Much Anticipated Concert

Posters are appearing about the city today, announcing the concert of Frances Mullen, pianist, and Dorothy Wagner, interpretive dancer.

The pictures reveal two very interesting faces, which seem to justify the press comment which preceded the two artists to this city.

The pianist, a graduate of the American Conservatory at Fontainebleau, and recently returned from several years' study abroad, has already achieved a wide reputation in the west as a player of distinct individuality and charm.

Dorothy Wagner has won fame both in this country and Europe as a dancer of exceptional grace and spontaneity. The dances she has arranged are used as a valid interpretation of the various compositions, as an integral part of the musical program rather than separate from it.

The two will be given half the concert period, sharing honors with the Gletchen, who have been working for many weeks on compositions for the spring appearance.

Clean Campaigning Approved To Editor

Having been in this county for many years, I witnessed the first electioneering that was not made up of cursing and mudslinging.

There was a small crowd present. It being held in the farm house we all wish to take this privilege of letting the opponents of Sid Brown know there is at least one man in the county, if he hasn't a good word for the other man, he keeps still.

Men of this type are what make a good clean county and city. Drop in again. Mr. Hamlin.

ARMY CAPTAIN IS HELD AS LINK IN BIG ORGANIZATION

(Continued from page one)

He caused the government to hesitate to accuse him.

The prisoner arrested in Paris was described as "an officer of a foreign power." He was arrested Saturday night, but was held secretly and questioned.

The Paris prisoner's revelations were "so important," police said, that authorities notified the examining magistrate at Belfort.

Proge was taken before a judge immediately.

The captain refused to answer questions until his lawyer arrived from Paris. He was imprisoned, and the magistrate sent to Paris for the other prisoner to question him in the presence of charges.

In the charges against Proge figure counter-spies, tipsters, French secret agents and decoy letters.

Trapped by Letters

The captain was originally trapped, police said, through letters sent him by tipsters, one of whom used name of a former woman acquaintance.

Early in the inquiry, a Belfort official said: "A French secret agent, through a connection with the chief of the German espionage, learned that Proge was well known in Berlin where much was expected of him."

Authorities gave Proge temporary liberty until today's arrest, however, because they were unable definitely to link him with the disappearance of the plans to assure Belfort, which is near the German frontier, with provisions in time of war.
