

CCC OFFICES GET SEPARATE PHONE NUMBER LISTING

Changes are being made in the telephone system at the CCC district headquarters here, and offices are being listed under various numbers, to which the public's attention is called.

In the headquarters in Medford, located in the old city hall at the corner of Front and Sixth streets, the district commander, the executive officer, the assistant executive officer, the adjutant and the sergeant major may be reached by telephoning 1079.

Officers to be contacted by calling 1022 are the district surgeon, personnel, welfare, intelligence, public relations and signal officer, also at the old city hall.

At the fair grounds, the quartermaster and the property officer's telephone is 1050, while motor transportation and headquarters detachment have 1802 as their number. The commissary officer and subsistence clerk are listed under telephone 986.

Under recent changes made at the district headquarters, the quartermaster's office has been moved to the fair grounds from the old city hall.

FIRST METHODIST ELECTS OFFICERS

Reports from the various department heads of the First Methodist church of the work done during the fiscal year just closing were uniform in progress, harmony and achievement.

The meeting of the quarterly conference last evening was marked by large attendance and interest shown and the manifest spirit of optimism. The church has had a fine growth in membership and the plans for the coming year include a host of activities by the several departments.

The following officers were elected for the ensuing year:

Trustees—B. F. Van Dyke, B. J. Palmer, E. C. Eoppen, G. A. Meeker, Eugene Thorndike, J. W. Smylie, A. W. Shepherd, W. W. Walker, A. W. Pipes.

Stewards—E. J. Neumann, F. E. Redden, Dr. C. H. Pake, A. O. Schenck, Harry Olsen, George Kunsman, C. H. Gille, K. S. Hitzler, George Iverson, W. B. Roberts, H. W. Conger, W. A. Holloway, H. C. High, C. P. Johnson, W. O. Andrews, Miss Anne Bateman, Mrs. B. F. Van Dyke, Mrs. Cora E. Gardner, Mrs. T. O. Heine, Mrs. C. E. Osborne, Mrs. A. S. Bliton, Mrs. J. W. Smylie.

M. E. CHURCH WILL BUY PROPERTY

The quarterly conference of the First M. E. church of Medford voted last night to purchase their church property on Main and Laurel streets from the Mercantile Commerce company of St. Louis. This company, acting as trustee for the bondholders, foreclosed their mortgage on the church property some two years ago.

The purchase price and terms and conditions of sale are most attractive, according to church officials, and the local church members generally are happy in the knowledge that they will soon again own the property.

Better Days Are Here Again

PAYROLLS AND EMPLOYMENT RISE TO NEW PEAKS FOR 3 YEARS

HUSSONG HONORED AS GENEALOGICAL RESEARCH EXPERT

Prof. Edward Marston Hussong, biology instructor at Medford high school, who has won local recognition for his work in genealogical and historical research, has been honored by having a "Who's Who in Genealogy" sketch of his work included in the list of the leading active genealogical researchers in the United States in the Handbook of American Genealogy, recently issued by the Institute of American Genealogy of Chicago.

Recognition in this field affords access to the extensive lineage files of the National Clearing House for Genealogical Information, as well as professional contact with genealogists in 1984 cities, in 1285 counties throughout the United States and in 29 foreign countries, which will enable him to expand the scope of his work very materially.

It will be of interest to the members and prospective members, and especially to the registrars of the Daughters of the American Revolution, Colonial Dames and other hereditary-patriotic societies to learn that a local resident has formed these international contacts, because they will make possible the necessary genealogical research to qualify for membership without outside aid.

The Medford public library also maintains the standard genealogical reference books.

LAST RECRUITING FOR ISLAND DUTY

When Sub-station Commander Jennings D. Lowman of the U. S. army recruiting service is in Medford next Monday, Tuesday and Wednesday, it will be the last opportunity in some time for young men to enlist for Hawaii and the Philippine Islands, as the transport sales from Golden Gate on May 25.

Sergeant Lowman was unable to be in Medford the full three days last week, due to the arrival of Col. W. A. Covington, in command of the San Francisco recruiting district. Sergeant Lowman accompanied him about the southern Oregon district, and Colonel Covington stated he was pleased with the activities of the Medford office, and the fine young men who had come to the San Francisco office from here.

Meteorological Report

May 10, 1934

SENIOR CLASS PLAY, 'TAKE MY ADVICE' AT HIGH SCHOOL MAY 23

By Arletta Tyrrell.

Under auspices of the 1934 senior class, the play "Take My Advice," will be presented at the high school auditorium at 8 o'clock, May 23. With the co-operation of faculty members and students, work on the play is progressing rapidly.

Doris Baier, head of the English department, is coaching the students, who are rehearsing daily. Miss Baier also helped coach last year's senior play as well as others presented by the student body.

The stage setting, which during all

three acts, is that of a small-town newspaper office, is being designed by Louise Hallenbeck, art teacher, and Paul Smith. They have already made a miniature of the stage, as it is to be, and are taking the big sets from that. The advertising posters are also being prepared under their direction.

Miss La Vera Mae is in charge of ticket sales. Publicity for the play is being cared for by members of the journalism class.

Stop in Medford—Mr. and Mrs. Howard Douglas Stevens of San Francisco and Vallejo, Calif., are guests at the Hotel Medford while stopping in this city. They plan to continue their trip from here to Seattle.

HOWARD SCHOOL OPERETTA FRIDAY

Under the direction of Mrs. Gustin, the primary grades of the Howard school will present the operetta, "Mother Goose," tomorrow evening at 7:30 o'clock in the school house. The funds will be used to buy supplementary readers needed for the first, second, third and fourth grades. Pupils of these rooms are presenting the musical.

Next Sunday is Mother's Day. Be sure and send her a card. We have them in endless variety.

SWEM'S Kodak-Book-Gift Shop

Songs and dances will be given, with Miss Reese playing the accompaniment. On the program of the operetta will be Two Little Blackbirds, Little Bo Peep, To Market to Market, Simple Simon, Little Boy Blue, Jack and Jill, Mary and Her Lamb, The Cat and the Fiddle, See Saw Marjory Daw, Little Miss Muffet, Humpty Dumpty, Mary Quite Contrary and Old King Cole.

Candidate Ball Saturday, Oriental Gardens.

Tired.. Nervous Wife Wins Back Pep!

HER raw nerves were soothed. She banished that "dead tired" feeling. Won new youthful color—restful nights, active days—all because she rid her system of bowdlerizing wastes that were sapping her vitality. NR Tablets (Nature's Remedy)—the mild, safe, all-vegetable laxative—worked the transformation. Try it for constipation, biliousness, headache, dizziness, colds. See how refreshed you feel. At all drug stores—25 cents.

NR TO-NIGHT

TUMS Quick relief for acid indigestion, heartburn. Only 10c.

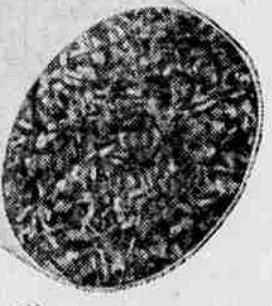

Here's why-Luckies do not dry out why-Luckies are All-Ways kind to your throat

The difference between cigarettes is the difference between what goes into them and how they are put together. Luckies use only the clean, center leaves, for these are the mildest leaves—they taste better. That's why farmers are paid higher prices for them. And Luckies get the benefit of the famous process—"It's toasted"—for your throat protection.

And every Lucky is round, firm and fully packed. That's why Luckies "keep in condition"—that's why you'll find that Luckies do not dry out—an important point to every smoker.

Yes, Luckies are always in all-ways kind to your throat.

"It's toasted" Luckies are all-ways kind to your throat

Save one or more SPRAYS with BANDIP

THE use of tree bands treated with Sherwin-Williams Bandip may easily save one or more sprays by destroying a high percentage of the Codling Moth at their source. As high as 68% of the worms leaving the apples have been killed with medicated tree bands. S-W Bandip is a Beta Naphthol preparation for the cold treatment of tree bands. A count of worms entering Bandip treated bands the past season showed only two alive out of 1,169 counted.

Bandip treated bands kill the worms at a period when they are most vulnerable to attack. The grower may treat his own bands with Sherwin-Williams' Bandip and secure an absolutely uniform coating of Beta Naphthol on the bands. There is no evaporation of the Beta Naphthol in Bandip because Bandip does not require heating. Where the medicated treatment is heated there is considerable evaporation of the Beta Naphthol which weakens the coating.

The cost for the bands will run from two to four cents per tree depending upon the size, which is only a fraction of the cost for one spray. See your packing house for prices and supplies.

S-W SUMMER MULSION

Use S-W Summer Mulston Light in your oil-based combination for Codling Moth control and kill the eggs before they hatch. S-W Summer Mulston is very economical to use because only one-half gallon to one hundred gallons of water is required to kill better than 99% of the Codling Moth eggs hit.

S-W ARSENATE OF LEAD

S-W Lead Arsenate not only leaves the heaviest deposit on the fruits and foliage but it has the greatest toxicity because it is a perfectly balanced diplobic lead arsenate. Thousands of growers in the Northwest testify to its superior qualities.

S-W TARSO FLAKES

S-W Tarso Flakes not only spreads the Lead Arsenate but increases the deposit by flocculating the lead particles. Tarso Flakes may be dissolved without heating by washing through the strainer while filling the tank. Tarso Flakes is the latest development in tar soap sprayers.

The Sherwin-Williams Horticultural Advisor will gladly cooperate in suggesting an effective and yet economical spray program.
