

TAX DELINQUENCY IN COUNTY PROVES SALES TAX NEED

Rate of Payment During First Period Not Maintained—Only \$398,548 of \$1,408,013 Collected

There is a definite need in Jackson county for the sales tax for school relief, according to figures obtained at the county court house, showing the extent and rate of tax collections for 1934, which reveal that collections are not coming in at the rate indicated by opponents of the tax.

The rate at which taxes were apparently coming in during the first tax payment period is misleading, for it is not being maintained, the figures show.

The total amount to be collected in 1934 is \$1,408,013. The total collected up to the end of March was \$398,548. The total amount paid in full, \$301,953.41, the amount paid in partial payments, \$96,594.59.

Cream of Crop In.
During the first period a number of large tax assessments were paid in full. They represent the "cream of the crop," and will not be coming in again to make up the delinquency.

Of the \$398,000 collected on the 1933 taxes during the first period, \$128,000, approximately one third (32 per cent) of the total, was paid by three property holders. Indications are that taxes from the small holders are coming in slowly.

This realization leads to another important factor to be considered, the proportion of assessments that have been paid in full during the first period. The following figures show: Total number of real estate ownerships in the county 14,000. Number paying partially or in full, 5453.

Number paying in full, 3143. Number making partial payments, 2310.

Of the total 14,000 separate ownerships, who should have made some payment, only 39 per cent have paid partially or in full. Of these 3143 or 22.5 per cent was paid in full and 2310 or 16.5 per cent paid partially. Sixty-one per cent made no payment.

Payments Slow Up.
During the first 53 days of the first quarter of the assessments paid, 69 per cent were paid in full. During the corresponding 53 days of the second tax paying period, up to May 8, of the assessments paid, only 46 per cent were paid in full, showing a definite decline with the advancement of the season, that is, approximately one-fourth more assessments were being paid in full in the first period than in the second period. And this slowness in paying is seen in spite of the three per cent rebate offered under the new law.

Those persons and companies, which have paid in full, will not pay again and the number of full payments were steadily decreasing near the end of the last period.

At this rate a decrease for each of the succeeding quarters is the natural expectation. The first to pay were the ones, which are always the first to respond to the call, and the ones which usually do pay in full.

Their taxes having been paid, the problem of delinquency is not lessening. Up to the end of March there was a delinquency of 39 per cent for 1932 still on the books, and a delinquency of 31 per cent for 1931.

The total of taxes charged on the 1932 roll was \$1,332,343. The delinquency to the end of March was \$514,621. The total on the 1931 roll was \$1,425,461. The delinquency for that year up to March, 1934, was still \$481,390, the figures on file at the county court house reveal.

EGG LAW COMMITTEE NAMED FOR REVISION

PORTLAND, May 11.—(AP)—J. D. Mickle, division chief of the Oregon department of agriculture, today announced completion of the committee for the revision of the Oregon egg law. The first meeting of the committee has been called for Tuesday, May 15, at Portland.

The committee consists of E. L. Martindale of Portland; Fred Cockell of Milwaukie; Miss Edna B. Reed of Portland; G. C. Keeney of Portland; C. W. Norton of Portland; E. E. Eggleman of Beaverton; and F. E. Fox of Corvallis.

REGAINED APPETITE AND WEIGHT WITH KELLOGG'S ALL-BRAN

Cereal Relieved His Constipation

If you are a sufferer from headaches, loss of appetite and energy, sleeplessness, or any other of the frequent effects of constipation, read this enthusiastic letter from Mr. McIntyre:

"For a long time my system was not in very good working order. But since eating Kellogg's ALL-BRAN, I have regained my appetite and my weight. And my system is in good working order. Kellogg's ALL-BRAN sure does the trick."—Mr. J. A. McIntyre, 180 Ruscomb St., Philadelphia, Pa.

Tests show Kellogg's ALL-BRAN provides the "bulk" needed to relieve ordinary constipation. It also contains vitamin B and iron for the blood.

You'll enjoy this delicious and healthful ready-to-eat cereal. Serve it with milk or cream—or use often in cooking.

Just eat two tablespoonfuls daily. Chronic cases, with each meal. If not relieved this way, see your doctor.

Kellogg's ALL-BRAN is all bran with only necessary flavoring added. It contains much more needed "bulk" than part-bran products. Made by Kellogg in Battle Creek.
