

### POLLING PLACES ARE MADE READY FOR USE FRIDAY

The polling place for South-east Medford will be at the church on Portland avenue, the county clerk announced today— at Vancouver avenue, as previously announced.

Distribution of the ballot boxes and election materials to the outlying precincts of the county was under way today by the sheriff's office. Distant points will be reached today and precincts on the floor of the valley and in this city and Ashland will be distributed tomorrow afternoon and evening.

The ballot boxes, locked and sealed, will be left in charge of the chairman of the precinct.

In the 69 precincts of the county 18,239 official ballots will be placed, with the same number of sample ballots. This is the number of registered voters on the registration books.

No double election boards will function this primary election in county courts, in accordance with state law, created 11 new precincts. The law provides that when any precinct has more than 500 voters a new precinct may be created.

Each voter will receive two ballots—his party ballot containing the names of candidates for state and county offices. The second ballot contains the names of candidates for judicial offices and the amendments to be voted upon, which includes the school relief sales tax.

Count of the vote is expected to be slow owing to the amount of detail clerical work necessitated by the three ballots.

Mrs. Thacher is Paid High Tribute  
One of the musical highlights of the season will be a piano recital offered by Jane Thacher at the Baldwin Shoppe, Friday evening at 8:15 o'clock.

Mrs. Thacher's position as a pianist is unique, as she is held in esteem by the lay public, also her musical co-workers. A recent tribute to the art of Mrs. Thacher appeared in an editorial in the Eugene Register-Guard, as follows:

"The playing of Mrs. Thacher is always interesting. She is much more than a master of technique. She is an extremely interesting and vivid person. She is an outstanding student and interpreter of music; and it is quite a significant thing that this program has been shaped by requests. Music lovers do not forget Mrs. Thacher's playing. They carry away memories of the music she has played. They want to hear it again. Hence the program of requests."

"At this recital there will be an opportunity to pay tribute to a musician of real distinction. For many years Mrs. Thacher has given generously of her time and talents to this community where she lives. But her influence as a musician has extended far beyond this community and this state. She is a modest person who detests poses. She has not sought the spotlight. But in this country and abroad she is recognized, among those who really know, as an artist whose work has soundness, originality and depth. The prestige which this city enjoys is due in no small way to her work.

"As usual, this concert will be a gift of Mrs. Thacher to her friends and the public. It will be a memorable event."

WHERE THE RARE WINES come from they know that the two most important things in wine-making are the selection of the grapes and the long years of ageing in the wine cellars.

IT'S VERY MUCH THE SAME in the making of a cigarette. You have to get the right tobaccos, then put them away to age and mellow in wooden casks.

You can't make a good cigarette like Chesterfield in a day. It takes over two years to age the tobaccos for your Chesterfields—but it adds something to the taste and makes them milder

Everything that modern Science really knows about is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
