

### HUMAN GUINEA PIG TESTS HOLD HOPE OF CURE FOR T. B.

DENVER, Colo., May 18.—(UP)—High hopes of success of the tuberculosis preventive serum being tested by injections into "human guinea pigs" from the state penitentiary was forecast today by Dr. H. J. Corper of the National Jewish hospital in a report to Gov. Edwin C. Johnson.

The report was the first submitted since tests began by Dr. Corper, head of the research specialists at the hospital, who is supervising the tests.

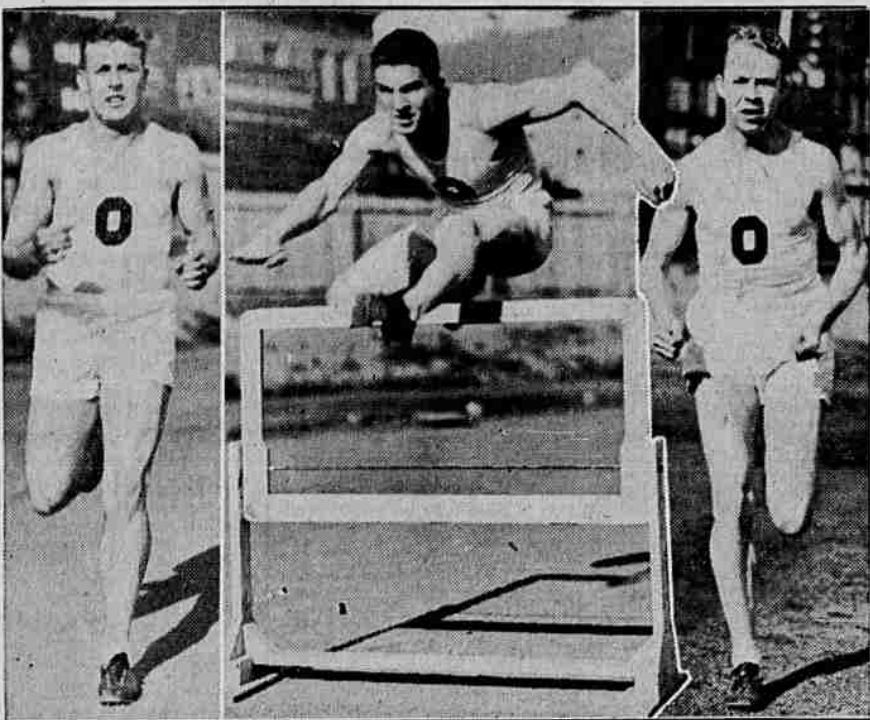

Dr. Corper revealed inoculation of the two convicts who were first selected with dread bacilli of the "white plague" would begin within a week.

Mike Schmidt, convicted of criminal assault upon his daughter, and Carl Erickson, wife slayer, have been given two injections each of the serum, and are being prepared for inoculations of the tuberculosis germ.

Dr. Corper said he was highly pleased with results of the tests thus far, and requested the chief executive to select as soon as possible two more convicts from a long list of life termers who have applied for a chance at a pardon.

The physician asked that the men selected next be two who have never been infected with tuberculosis.

### BUREAU OF MINES WILL BE TARGET MINERS CONCLAVE

DENVER, May 18.—(AP)—The most important gold miners' conference in the industry's history, called here for the chief purpose of mapping out a code, will become the scene, it was predicted today, of a fiery controversy of quite different nature.

As the convention laid preliminary preparations for the general session this afternoon, Carl J. Trauerman of Butte, Mont., declared he and other members of the strong Montana delegation will lead a fight to have the bureau of mines in Washington replaced by an entirely new organization.

Trauerman, outspoken president of the Montana Mining association, declared this action "will touch off the dynamite of the convention."

Trauerman told the Associated Press he and other Montana representatives have been sounding the sentiments of delegates, assembled here from every gold producing area in the country, and declared the majority of them are in favor of "getting rid of the present bureau and setting up a whole new department."

"Mining men are not getting anywhere with the present setup," he said. "We want a department that really will help the miners."

recently on the Pacific highway near the Jackson Hot Springs.

It was reported at the local fire hall that Stokes found the two balconies of the building too weak to support a large crowd, and recommended necessary repairs before the place be allowed to open.

Stringers were ordered put along the floor joists of the balconies, and 4 by 4 uprights were installed six feet apart to further strengthen the floors.

Stokes also recommended fire extinguishers be placed in the kitchen, ground floor, and balconies, and that the chimney be extended further above the peak of the roof to lessen fire hazard. The lodge was again inspected after the readjustments, and reported to be in shape for opening to the public.

Ten Applicants Wanted—Ten vacancies were reported today in CCC ranks in Crater Lake national park. Applicants are asked to report at the county relief office as early as possible.

### G. B. S. SEES DANGER JAPANESE HOOKUP

LONDON, May 18.—(AP)—Bernard Shaw, Irish dramatist, returned from a 23,000 mile trip to New Zealand today with decided views on the danger to the British empire of any close hooking-up of Britain and Japan.

A British alliance with Japan, he said to reporters, would "drive America into the arms of Russia which we have already done to some extent."

"Then Australia, New Zealand and Canada would come in with the United States—if they would have them."

Shaw discoursed on many other matters in his customary bluff style, declaring for one thing in at least assumed seriousness that another

"peril to the empire" lay in the playing of games between its component parts such as the coming test in cricket matches between England and Australia.

"These things break up the British empire," he said.

### FARM WIFE SHOTS BOY CHICKEN THIEF

LEAVENWORTH, Kas., May 18.—(AP)—An unidentified youth about 22 years old was shot and killed early today by Mrs. Cora Williams, wife of John Williams, at their farm home four miles west of Jarbalo, Kas.

Mrs. Williams said the youth was attempting to rob her chicken house. A companion escaped.

A coroner's jury found the killing justifiable.

### the gold ring

Yes, ladies, you have a chance to catch the gold ring when you ride the merry-go-round. But the percentage is not in your favor. After the thrilling ride is over you may only have a nice lot of black iron rings that can't be cashed in for another ride. And although you have a chance of picking up something specially good as you go round and round the counter of bargain coffees, you'd better not count on it. It may be fun to save a few pennies per pound but you'll be out all you save in what you lose in flavor and strength. Play safe—buy Hills Bros. Coffee. It gives you more flavor and strength in every cup than any "bargain counter" coffee you could "ring." And after all, isn't that the way you drink coffee—by the cup rather than by the pound?
