

HEALTH WORKERS OF COUNTY GAIN RESULTS IN YEAR

Encouraging Reports Given at Annual Meeting of Association — Co-operation Aids; Officers Re-elected

(By Eva Nealon Hamilton.)

With school officials joining health officers in reporting work accomplished along health lines in Jackson county during the past year, an encouraging picture of conditions, emphasizing the advantages to be gained from cooperation of districts with the Jackson County Public Health association, was drawn yesterday at the annual meeting of the association, at the home of Mrs. Corning Kenly, attended by more than 100 workers from all sections of the valley.

Reports submitted from the various groups, with Miss Mildred Carlton, president, presiding, illustrated again that there is a definite advancement in districts where health programs, with a nurse one day a week, have been made available.

Tuberculosis Hydrants.

A report to this effect, submitted by Dr. C. I. Drummond, county physician, through Miss Blanche Runela, county nurse, was illustrated with a chart which showed clearly unmistakable results in decreasing the rate of tuberculin positive children.

The health department of the county, Dr. Drummond stated, "has gone through a period of stringent years and without the active help of the Jackson County Health association would have been unable to carry through."

The length of the period over which the health program has extended in each district, is reflected, Dr. Drummond's chart showed, in a definite improvement in health, particularly in the campaign against tuberculosis. Such realization, his report stated, is even more interesting than the fact that the health department has during the past year immunized 517 school children against diphtheria, examined 1,477 school children and given 740 treatments for syphilis.

Bowman Notes Progress.

Emphasizing further the splendid cooperation gained in Jackson county through the school and the health

association, C. R. Bowman, county school superintendent, addressed the association. He drew an interesting picture of health education in 1902, comparing the process to that of the present day. The program, he explained, was at that time handled from the negative viewpoint, exclusively, emphasizing the injurious effects of alcohol and tobacco, and failing to cite the advantages to be gained from good health habits. The psychology of the whole educational program, he added, has changed and children are now told why "a thing should be done to enable them to get the most out of life."

The percentages of pupils in the various schools, taking the tuberculin test during the past year, were listed as follows by Superintendent Bowman: Phoenix, 87; Talent, 50; Gold Hill, 50; Rogue River, 72; Ashland Efforts Told.

Health work in the Ashland schools was described by Mrs. Bertha L. Denton, school nurse, who stated that daily health habits are being emphasized there above all else, and that special attention is being paid to hearts, to prevent over-exercise, where weaknesses are discovered. Where improved nutrition was at first noted as a result of the simplified living, made necessary by the depression, she stated, the contrary is now noted through the lengthy duration of difficult financial conditions, and many cases of underweight have been discovered in the schools. Mrs. Denton described the dental clinic as the "star in Ashland's crown," and complimented Mrs. Smith of the Southern Oregon Normal school upon the far-reaching emphasis she has given health work through training of prospective teachers.

The report of health work in the Medford schools was given by Mrs. Lewis Ulrich in the absence of Ruth Swanson Dodson. It showed that health work of the past year here has been educational with no free medical or dental clinics, except in emergency cases. This year the percent on the honor roll, in spite of this fact, was 78.4, as compared to 69.4 last year, when much free clinic work was being done. These figures, Mrs. Dodson presented as significant of the education of all classes to health needs.

Hot Lunches Provided.

Hot school lunches were served in all the elementary grades during the past year, the Medford report showed. Reports from other districts were given by the county nurses, Miss Sybil Walker and Miss Blanche Runela, who stressed the continuance of school examinations and follow-up work and the fine results obtained through hygiene classes for mothers.

Mrs. Leonard Carpenter made a report on clinics, conducted throughout the county, showing 189 children examined in Ashland, 46 in Central

Jubilee Orator

REV. D. J. FERGUSON, well known orator of Astoria, Ore., will deliver the main address of special union services to be held in Medford Monday evening, June 3, opening Oregon's Diamond Jubilee celebration, observing Oregon's 75th anniversary of statehood. The program will include one of the largest choirs ever assembled in the west.

Point, 25 at Jacksonville, 14 at Gold Hill, 38 babies, 31 tuberculin and 38 diphtheria at Phoenix, and 157 babies in Medford.

Educational work of the association was described by Mrs. R. E. Green, who urged members to give more attention to legislative needs more familiarity with all measures appearing on the ballot and the qualifications of all office seekers. She asked each member to give particular attention to the basic science law.

Dentists Contribute.

Reporting on dental clinics, Mrs. Kenly stated that Dr. C. H. Paske and Dr. Johnson gave 146 hours to this work during the past year and were ably assisted by Misses Betty Bardwell, Harriet Sparrow, Mary Hayes, Oma GoBauer, Mrs. W. W. Aldrich and Mrs. Carpenter.

A total of \$1,442.15, and \$250 in donations, was brought in through the sale of tuberculin Christmas seals during the past year. Mrs. Alex Sparrow reported, with every rural school in the county contributing. The total for the membership drive in towns not contributing to the community chest, she gave \$164.50,

adding that the figure was incomplete.

Sparrow Clinic Aided.

The work of the Alex Sparrow Memorial clinic was discussed by Mrs. Lewis Ulrich, who told the association of numerous recent donations, which have been made as memorials to departed friends. These donations, she stated, are greatly appreciated as funds so badly needed to finance 70 x-rays to be made.

Mrs. Ches. Taylor reported for the supply department, showing active work in Gold Hill, Prospect, Ashland and Medford.

Accomplishments of the publicity chairmen in the various localities were listed by Mrs. I. E. Schuler, who thanked the newspapers for their splendid cooperation. As a very educational branch of this work, she cited the radio talks being given by health workers through the courtesy of station KXME.

The treasurer's report for the year was given by Mrs. J. C. S. Wells and plans of the Parent-Teacher association for supervised playgrounds and a swimming pool here were related by Mrs. Jack Heyland.

Officers Elected.

Officers and committee chairmen for the new year were elected as follows: Miss Mildred Carlton, president; Mrs. F. D. Wagner, vice-president; Mrs. Wells, treasurer; Mrs. Ulrich, secretary; Mrs. Carpenter, nurse chairman; Mrs. Sparrow and Mrs. R. H. Brown, finance; Mrs. Schuler, publicity; Mrs. Taylor, supplies; Mrs. Green and Mrs. Kenly, education.

Community chairmen announced were: Mrs. S. Provost, Ashland; Mrs. W. H. Higgins, Talent; Mrs. W. D. Barnes, Phoenix; Miss Helen Bullis, Medford; Mrs. Herbert Hanna, Jacksonville; Mrs. Arnold Bohmert, Central Point; Mrs. Roy Stanley, Eagle Point; Mrs. Nelly Jacobs, Gold Hill; Mrs. Reed Carter, Rogue River; Mrs. J. L. Prink, Sams Valley; Mrs. M. Middlebush, Prospect.

These officers will, with the following men, make up the advisory board: C. R. Bowman, Dr. A. F. W. Kresse, Drs. Barkwell and Findley, Dr. R. C. Mulholland, Dr. C. H. Paske, Dr. Johnson and Dr. Drummond.

Following the program, which Miss Carlton closed with an interesting story of an Arizona transient relief camp, tea was served.

A hen at Waverly, Tenn., recently laid an egg the shape of a ten pin used in bowling.

SAFeway STORES 'BIRTHDAY SALES' TO START FRIDAY

All stores of the Safeway system in the Pacific northwest will jointly celebrate the 19th anniversary of the founding of the stores with a four-day sale, starting Friday, May 25.

This is the first "Birthday Sale" the Safeway stores have ever held, and will commemorate the service and growth of an idea conceived by Mr. M. B. Skaggs, who put it into effect at American Falls, Idaho, 19 years ago this month.

Mr. Skaggs was, at that time, 27 years of age and a new arrival from the east. His foremost thought was to do something to help the community he had adopted to lower living costs, which, he had discovered, were far higher than in the east.

With a few hundred dollars he borrowed, he built without assistance his initial store on the edge of the desert town, surrounded by sagebrush and sand. He was his own architect and carpenter, floor layer and painter. His next move was to purchase a stock of supplies, the best brands obtainable, which were marketed at a narrow margin of profit, thereby rendering a service to his community.

Throughout his initial work, his main thought was to help his neighbor to help himself. He had no idea that his business venture would have more than ordinary success.

Two years later, however, he opened his second store at Burley, Idaho, and 14 months thereafter his third store was opened at Blackfoot, Idaho. Today Mr. Skaggs is chairman of the board of directors of an organization operating in 21 western states.

The stores of this district are really the "home" stores of the company. They serve all sections of Oregon and Washington and a part of Idaho. When the first store was opened in Portland in 1921, it was the 10th unit, the other 18 being located in Idaho.

Mr. Skaggs had determined upon opening his first store to buy what was possible in the same vicinity where it was sold, and his stores have always followed that policy. In each district, where a Safeway store is located, the bulk of fresh produce is purchased from local gardens. Thousands of dollars are spent in this district each year by the Safeway system.

The same men who helped to build the Safeway organization are still at the helm. Only five of the 320 executives have not at one time worked behind the counter of one of the Safeway stores. The manager of every store in this region has given his part in the birthday sale by conferring with the district manager, the ideas of all Safeway employees being incorporated into the general plan, under which the sale will be conducted.

Champ Heads Fight Team
STATE COLLEGE, Pa.—(UP) Mike Zelaznick, Beaver Meadows, who recently won the 125-pound championship of the Eastern Intercollegiate Boxing association, has been elected captain of the Pennsylvania State college boxing team for next season. He also is a member of the football and baseball squads.

DISABLED VETERANS TO AID POPPY SALE OF LEGION AND V. F. W.

"The D. A. V. of the World war," says Arthur Sallee, local adjutant, is known as a co-operative agency and we have the good will of all other veteran organizations. The veterans of Foreign Wars and the American Legion will be on the streets Friday and Saturday, selling poppies, the members of the D. A. V. will be out selling poppies, or all of the members who can.

When you buy a poppy from either the American Legion or the V. F. W. just remember that the money will be used for the same purpose as from the sale of the For-get-me-not sold by the D. A. V. on Armistice Day, and goes for the benefit of our disabled comrades."

In Flanders Field, 1934
In Flanders Field far, far away,
The poppies bloom, the graves are gay,
There, mourners weep; there, heroes sleep.
They rest in peace in Flanders Field.

Some wounded doughboys' lives were spared.
They limp about with health impaired.
His country's flag up in the skies,
He cannot see; he lost his eyes.
His lungs were gassed. His legs are gone.
Each breath a pain, they still live on.
Their country took eye, arm and leg.

And gave to them the right to beg. Oh, cruel war, what fruits you yield! They envy those in Flanders Field. House comrades of those awful days! Hold up before all mankind's gaze. Those mangled men, who did their part. Until you break the nation's heart. Stand by the weak; do not stain our shield! A voice calls out from Flanders Field.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy. They should pour out thru the bladder 3 pints of fluid a day which contains 4 pounds of waste matter.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes. Your common sense will tell you that this is impossible. Treatments of this nature may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McMillan Co.

AGAIN A YEAR AHEAD of Competition!

KELLY-SPRINGFIELD GAVE YOU Fatigue Proof.

Type Tires in January 1933 TIRES BUILT FOR SPEED.

Safety and Non-Skid Mileage on the Cars of Today

It was no easy matter to develop these tires—Competition had nothing like it—our engineers could not borrow an idea here and one there. So they set to work in the laboratory and on their test cars and after months of research and thousands of miles of driving gave us in January 1933 the finest tire they knew how to build—They called this tire "fatigue proof."

It had 95% more effective non-skid—It had a 33% deeper tread and 20% wider and a new tread compound that give 40% greater mileage—

The carcass was reinforced and insulated against friction heat and blowouts—

And after 16 months on the market they still lead in mileage and safety—

You will wonder that they cost so little

FOR A NEW NAME for a NEW BEER

We Are Discontinuing Our PILSENER Brand Name—Improving Our Beer to EXACTLY Meet the Tastes of Southern Oregon People

Help Us Name this New, Improved Beer and Win \$10.00

Southern Oregon Brewing Co.

Fir and Fourth — Phone 51

Act Now!

Contest Closes Thursday, May 31.

Contest Rules

- Names must be submitted by mail or in person to Southern Oregon Brewing Co.
- Contest closes 6:00 p. m., Thursday, May 31st.
- Entries by mail must be postmarked not later than Thursday, May 31st.
- Not more than 5 suggestions may be submitted by any one contestant.
- In case of two or more duplicate names being submitted, the first suggestion received will be awarded the cash prize. Time record of all entries by mail will be kept. Winning name will be published in this paper.

Contest Department SOUTHERN OREGON BREWING CO. Fir and Fourth Sts. Medford, Oregon.
