

HAINES RETRIAL APPEAL IN HIGH COURT JUNE 20TH

The state supreme court has set Wednesday, June 20, as the date for hearing of the appeal of Ted Haines, of the Red Top district, now serving three years in state prison, upon conviction of a statutory offense involving a 15-year-old girl. Haines, a father, was received in the Salem institution last October. The case attracted keen interest in the Red Top district.

The appeal is based upon contentions that Haines' attorney was not given sufficient time to prepare for trial; that prejudicial testimony was introduced; and that comment of the district attorney in the closing argument was not within the evidence. It is also set forth that the neighborhood was inflamed against Haines and that a group of men called upon one of Haines' bondsmen and prevailed upon him to withdraw.

Two other Jackson county appeal cases are also scheduled for high court hearing in June. One is the suit of Jesse Y. Enyart, pioneer Jackson county banker, against the Natoratorium Amusement company; the other is the suit of L. Niedermeyer against the Pacific Record-Herald, a weekly formerly owned by E. H. Fehl. Both are petitions for rehearing.

Enyart claimed that he invested approximately \$20,000 in the Natoratorium in 1910, and asked for a share and accounting of the profits. The Natoratorium held that Enyart was guilty of "laches," abandoned the investment, and when through labors of the Merricks, it was rehabilitated, he sought remuneration. Much of the testimony, which extended over a long period, dealt with Medford "boom days."

The Niedermeyer suit was one of many that followed in the wake of operations of Earl H. Fehl, now serving four years in state prison for vote-stealing. In the action, the mechanical equipment of the Pacific Record-Herald was involved, and Niedermeyer was granted possession. Fehl, in a counter suit, claimed a share in the Holly theater and pay for promoting and building the structure. The equipment was sold last February to Robin Reed, the wrestling editor of Reedsport, who moved it away.

134 AGE PENSIONS ALLOWED IN MAY

Old age pensions for this county for the month of May will total 134, according to the county clerk's office. Twenty-six additional old age pensions were approved recently by the county court. Warrants for same will be issued May 31, for the month of June. They range in amounts from \$7.50 to \$15 and the average payment is approximately \$10.

It is estimated that 250 old age pensions will be granted in this county. Outside of Multnomah county, more pensions have been issued here than in any county of the state, it is claimed.

Some delay in issuance has been experienced the past two months, in securing biographical data, such as establishing the age of the applicant, ability of children to support, and the financial standing of the applicants.

Science reveals important new Facts for Smokers!

Camel Smokers can verify these facts!

A famous New York research laboratory announces a basic discovery that throws new light on our past knowledge of cigarettes. It embodies an "energizing effect" . . . a quick restoration of the flow of natural body energy . . . an experience well known to Camel smokers. When you smoke a Camel you feel an almost immediate relief from fatigue. What has actually happened is that you have released and made available the latent energy in your body. You've helped your body to help itself. During the day your energy curve hits certain low points. Camels raise your flow of energy . . . quickly, conveniently and without jangling your nerves.

There's a "Lift" in CAMELS that drives away Fatigue and Irritability

Feel "all in"? Then's the best time to light a Camel. It's cool and fragrant and delightful . . . but far more important than that, it brings your flow of energy up from the depths!

You feel fatigue vanish. Irritability seems to slip away. And you go back to work—or play—with the energy and cheerfulness that are naturally yours.

YOU'VE HAD THE EXPERIENCE...HERE'S THE EXPLANATION!

This experience is no news to Camel smokers. But the explanation is news—and good news—to everyone.

The "lift" you get from smoking Camels is simply a release of the natural latent energy in your body. In other words you have helped your body to help itself . . . easily, naturally, and without the slightest strain.

Remember this explanation when your energy curve is "down" . . . times when you're irritable and your brain just doesn't seem to work and you feel too tired to move. At such times . . . "Get a lift with a Camel!"

AND CAMELS NEVER JANGLE YOUR NERVES!

Camel fans smoke frequently—and they can—as often as they like. Camel's costlier tobaccos never get on the nerves.

Keep your flow of energy at a higher level with Camels.

TOO TIRED FOR FUN... and then she smoked a Camel!

CAMELS Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

KNOW THIS FEELING? The feeling of being too "all in" to respond to the gaiety of the crowd? No taste for the pleasure and fun of the sort of social evening that you would ordinarily look forward to? That's one of the many times to light a Camel, enjoying its rich flavor while your flow of natural, healthful energy is restored. You'll like Camels—a matchless blend of costlier tobaccos!
