PAGEANT UNVEILS COLORFUL STORY OF PIONEER LIFE

(Continued from page one)

as the highlight of the evenings' performance.

Thrilling was the pageantry of the large covered wagons winding around the mountain trail, the men with their guns, women and children all taking part in the procession. The fiddle, banjo and guitar music for the old-time square dances had the spectators keeping time with their feet as, before the camp fires, the immigrants danced.

Expert Riders Participate

Expert horsemanship, combined with fine acting, made the Indian attack seem all the more real, and, when the fighting was over, with one of their number dead, silence reigned as the orchestra played "Nearer My God to Thee."

In episode three, the famous wolf meetings of Champoeg were relived, with Harvey Oakes taking the part of Joe Meek; Robert Shaw, the part of John McLoughlin; Robert Stedman, Dr. Ira Babcock; and Robert Braddock, David Leslie.

Quick changes of scenery were made throughout the production, and one of the most rapid rearrangements was the removal of the mountains to be replaced by a modernistic setting of silver hue.

Ask Protection

Joe Meek's journey to Washington, seeking protection for the Oregon residents, was the subject of episode four, with Karl Moore taking the part of Governor Abernathy; Harold Gilmore, a senator; Paul Goddard, Governor Lane; and William Cottrell, President Buchanan.

With the declaration of Oregon's entrance into the United States, the orchestra's playing of "Oregon, My Oregon," the state song, brought loud applause.

The grand finale included the entire cast of the pageant as well as the Ashland American Legion Kiltie band, the Medford and Ashland Boy Scouts, Ashland Campfire Girls, Medford Girl Scouts; Battery B, 249th Coast Artillery, Ashland; Co. A, 186th Infantry and Headquarters Company, third battalion, 186th Infantry, both of Medford, and the Civilian Conservation corps.

Lighting Is Feature

A constant shift of lights, to every color in the spectrum, added to the brilliance of the hundreds standing on the silver platform. While all were at attention, from the center of the pinnacle arose Miss Oregon, holding her scepter aloft. This part was taken by Jeanne Swigart.

The scenic design by William Cottrell of Phoenix lent much to the success of last night's performance, which is being repeated tonight and Friday evening at 8 o'clock.

Others taking a prominent part in preparations were Marian Ady as costume manager, R. Barry, construction manager, and D. A. Runyard, lighting. Stock was furnished through the courtesy of the Dodge riding academy and the stock committee for the jubilee pioneer parade.

Sound effects were through the courtesy of the Standard Oil company.

Vining Is Chairman

Irving S. Vining of Ashland is pageant chairman on the jubilee committee, and Angus L. Bowmer, pageant director, with Ward V. Croft in charge of the orchestra.

Mr. Bowmer's ability at casting and directing were shown to a decided advantage last evening, and it was evident that the long weeks of constant preparation and practice by the huge cast of more than 500 people had given a finished touch to the massive production that only faithful rehearsals could bring about.

Fat Folks Lose Weight-Feel Fine

Lose Fat This Summer—Keep Cool —Look and Feel Younger

Mrs. Jessie Martin of San Francisco is happy because she has discovered the right, safe way to reduce—read her letter:

"I have taken Kruschen Salts a month and find great benefit. I have lost 14 lbs. in that time and would lose more if I stuck to a diet as I should. I take them every morning regular and hope others will profit by them as I have."

We have letters from men and women who have lost as much as 100 pounds of fat—from people who have reduced high blood pressure—from folks who have no more bloating or shortness of breath.

Kruschen helps stomach, liver, bowels to function properly—increases physical attractiveness all while losing unhealthy fat. Just take a half teaspoonful in a glass of hot water every morning before breakfast—get it at Woods Drug Store and druggists everywhere.

LOCALS

Mrs. Mann to Portland—Mrs. J. C. Mann left on the Shasta this morning for Portland, to bring her daughter, Margaret Mary, home from St. Helena Hall, where she has been attending school.

• • •

Mrs. Boggs Returns—Mrs. O. C. Boggs returned on the Shasta this morning from Coronado, Calif., where she has been the past ten days attending the supreme session of the Daughters of the Nile.

• • •

To Accompany Sister—John Snider left this morning for Eugene and will return to Medford Friday accompanied by Miss Mary Snider who has been attending the University of Oregon.

PIONEER PARADE VIVID REVIEW OF STATE PROGRESS

(Continued from page one)

gon, owned by Charley brothers of Lake Creek. The equipment showed its age, but still retained the stability of the olden days.

Leather-springed stage coaches that once rolled over the Siskiyous with mail and gold and passengers, were entered by Crescent City, Cal., and Yreka, Cal.

Covered wagons also dotted the parade and were equipped as they were when crossing the plains—with a plow lashed to the side and a dog trotting along contentedly beneath the wagon. The Friendly Neighbors' of Beagle covered wagon had a colt following beside its mother. The entry savored of the pioneer times. There were ox teams and coonskin caps, and ladies riding side saddle, in the riding habits of their grandmothers, including ostrich plumed hats.

Pioneer Sons Ride

Scores of sons of pioneers, mounted on cow ponies and headed by Thomas Farlow of Lake Creek, also paraded. In this unit also were J. F. Wortman and C. W. (Wig) Ashpole. The parade was a revelation to hundreds as an example of fine horseflesh still on the farms and ranges of southern Oregon.

Floats were entered showing the establishment of religion, printing, fishing, mining, agriculture and industry in southern Oregon. One unit depicted the pioneer broom making factory in the Applegate.

Fire fighting equipment used in 1858 in Jacksonville, and the 1884 model pump were also in the line of march.

Bend, Yreka, Cal.; Grants Pass, Klamath Falls and Roseburg had entries.

The parade formed at the fair grounds, proceeded down the Pacific highway to Sixth street, thence to Main street, and then down South Central to the starting point. It started at 9:45 and finished shortly after 11 o'clock. Despite its size and length, the procession traveled with smoothness. There were but two minor delays, caused by a broken whiffletree on Sixth street.

Tender, Aching, Perspiring Feet

Amazing Relief In 5 Minutes or Money Back

Don't worry about how long you've been troubled or how many other preparations you have tried. Moone's Emerald Oil is the one preparation that will help to make your painful aching feet so healthy and free from corn and callous troubles that you'll be able to go anywhere and do anything in absolute foot comfort. For sale by druggists everywhere.

S-W Summer Mulsion Kills 99% of Codling Moth Eggs

Yet only ½ gallon is required to 100 gallons of water; does not harm fruit or foliage

Your Allies in Pest Control

S-W BANDIP

The use of S-W Bandip on tree bands can save one or more sprays—because it kills Codling Moth worms when they are most vulnerable to attack . . . when they are leaving the trees. You can cold treat your own bands with S-W Bandip and secure a uniform coating of Beta Napthol. There is no evaporation and weakening of the coating as in application of solutions requiring heat treatment.

S-W ARSENATE OF LEAD

S-W Lead Arsenate not only leaves the heaviest deposit on the fruit and foliage but it has the greatest toxicity because it is a perfectly balanced diplumbic lead arsenate. Thousands of growers in the Northwest testify to its superior qualities.

S-W TARSO FLAKES

S-W Tarso Flakes not only spreads the Lead Arsenate but increases the deposit by flocculating the lead particles. Tarso Flakes may be dissolved without loss of time or inconvenience. Tarso Flakes is the latest development in tar soap spreaders.

• S-W Summer Mulsion is not a chance formulation, but a step by step development through painstaking research. This effort has resulted in an emulsion that is over 99% effective when mixed at only ½ gallon to 100 gallons of water. The special emulsifying formula and equipment accounts for the low dosage necessary. As S-W Summer Mulsion costs no more per gallon than other brands, it actually costs one-half less!

S-W Summer Mulsion is made from the correct viscosity base, and for that reason causes the least possible disturbance to the natural development of the fruit and foliage. S-W Summer Mulsion Light is strongly recommended for those who wish to use an oil spray several times during the season—no reduction in size or color of the fruit. S-W Summer Mulsions mix readily with regular Lead Arsenate sprays. See your dealer for S-W supplies and prices.

The Sherwin-Williams Horticultural Advisor will gladly cooperate in suggesting an effective and yet economical spray program.

WHAT A TIRE! WHAT A TIRE!

See it here! Goodyear test drivers burned out brakes—wracked cars—pounded the roads night and day—and it kept its grip twice as long as other tires!

IF YOU think the non-skid tread on your present tires wore out too soon – *you're* right!

Ordinary treads *can't* stand the strain of modern driving.

But come in today and see a tire that will!

The new "G-3" All-Weather! It has a *wider tread – flatter tread – more rubber in the tread – more non-skid blocks in the center of the tread* – and gives 43% longer non-skid mileage than the best previous Goodyear All-Weather.

No matter what car you drive – no matter how you drive – this tire will give you *more miles of safety*–AT NO EXTRA COST!

WARNING!

Watch the rest of the industry try to copy this amazing tire. Watch them try to duplicate Goodyear's claims. But, remember, you have to have *"non-skid"* before you can have *"non-skid mileage."* And to have "non-skid," you have to have GRIP where you see it here—GRIP in the center of the tread—the place where it counts, because it's the spot where the tire contacts the road. Look at the *grip* on this Goodyear Tire and ask yourself why buy any tire that lacks this safety? And keep in mind that you cannot successfully build this type of non-skid tire without the extra-durability of Supertwist cords.

THE BEST NEWS OF ALL!

You pay no more for the new "G-3" All-Weather!
