

ASHLAND CROSSING AWARD DEFERRED BY HIGHWAY HEADS

Commission Meets Again In July for Hearing On Allocation of Forest Highway Construction Fund

PORTLAND, Ore., June 8.—(AP)—The state highway commission deferred award of contracts on two projects and awarded contracts on several others at the afternoon session of the general meeting here yesterday. The commission will meet again July 16 for a hearing of the forest highway fund and of other funds.

Award of the contract on the Ashland undercrossing was deferred. The low bid was for \$35,721. Similarly, the commission deferred action on the construction of a storage building at Enterprise on which a bid of \$3,671 was submitted.

The low bidder received the contract award for the Mill City bridge in Marion and Lane counties, to cost \$37,531; on the Coos Bay bridge approach, on a storage building at Grants Pass, and on a protection fence project in Sherman county.

PORTLAND, Ore., June 8.—(AP)—The construction company of Teufel & Carlson of Seattle submitted the low bid on two Oregon Coast highway bridges when proposals were opened by the state highway commission here yesterday, but specified when entering contracts that it would accept the contract on one span only.

The company bid \$551,234 on the Umpqua bridge at Reedsport in Douglas county, and it was expected the commission would award this work at that figure. The Shible Construction company of Seattle bid \$581,050. Teufel & Carlson bid low at \$471,871 for the Siuslaw bridge at Florence in Lane county. The next low bidder was Mercer & Frazer company of Eureka, Cal., at \$491,846.

If the Seattle company receives the Umpqua award, Mercer & Frazer will be awarded the contract on the Siuslaw span, the commission indicated.

Awards Held Up
Awards of the jobs will be held up, however, until the state completes its funds agreement with the federal government, Leslie M. Scott announced. No funds have yet been received for the five spans, but on all of them now opened, while construction work was under way on only one, the Alsea span at Waldport.

C. C. Hockley, PWA official here, wired the national board the results of the bids on the last two bridges today, and said he believed the government was waiting receipt of bids on all of them before making the funds available. The government had agreed to loan and grant the state \$5,500,000 for the construction work. In addition to opening bids on the bridges, the commission neared the completion of awards under the original public works highway appropriation of more than \$6,000,000 when it opened bids on five road jobs. The

letting at the next meeting in about three weeks, amounting to about \$200,000, will wipe the slate clean.

Arenas Low on Underpass
Theodore Arenas of Portland was low on the Ashland undercrossing section of the Pacific highway in Jackson county with a bid of \$35,721. Other low bidders were the United States Construction company of Portland at \$42,804 and the G. I. Stebbins Construction company of Klamath Falls at \$49,719.

P. H. Cochran of Portland was low on the Coos Bay bridge approach at \$16,828. Low bidders on the other three jobs were: Guard fence project on the Columbia river highway in Sherman county—Collins Concrete & Pipe Co., Portland, \$7,764; construction of storage building at Grants Pass—Sig. Ash of Medford, \$4,277; construction of storage building at Enterprise—W. Vedder, La Grande, \$3,571.

The commission also opened bids for Marion and Lane counties on the Mill City bridge over the Santiam river on the county line. Thirteen bids were received for the job to be paid for by the two counties. Tom Lillebo of Reedsport was low at \$37,531. Theodore Arenas was next low at \$38,754, while Joplin & Eldon, of Portland, were next at \$39,417.

Multnomah Job Delayed
Bids were returned unopened on the 1.4 miles of grading and paving of the Swift secondary highway in Multnomah county, estimated at about \$70,000, because Multnomah county had failed to acquire the right of way. This job may be re-advertised for the next letting.

The contractors appeared before the commission requesting they be permitted to go ahead with the work pending receipt of the money. "We could start next Monday on the North Bend job," Theodore Shoemaker, president of the Northwest Roadway company, one of the contracting firms for the span, told the commission.

The commission voiced its impatience with the delay on the part of the federal government in not advancing the money for which contracts have long been signed. It was suggested that Scott, R. H. Baldock, highway engineer, or J. M. Devers, attorney for the commission, go to Washington to speed action on the contracts.

LILY PONS WILL WED STEAMER PHYSICIAN

BUENOS AIRES, June 8.—(P)—Lily Pons, star of the New York Metropolitan opera, said today that she would be married July 9, 1935, to Dr. Fritz von der Becke, physician on the S. S. Arcona, in celebration of the third anniversary of their meeting on that ship.

The wedding will be performed on the Arcona, she said.

DOG RACES PAY STATE \$13,000 FIRST WEEK

SALEM, June 8.—(AP)—A check for \$13,000, representing the state's share of receipts from the first week of dog racing in Portland, was received at the state treasurer's office today.

The dog races are under the supervision of the Oregon racing commission, created by an act of the 1933 legislature.

WEAKEST SISTER OF QUINTRUPLETS GAINING WEIGHT

CORBEL, Ont., June 8.—(P)—Marie Dionne, the weakest of the quintuplets born last week, has gained 1/4 ounce in the last 24 hours, it was shown at today's weighing.

The babies, their weights, and their gains from yesterday are: Yvonne—38 3/4 ounces—no gain. Annette—35 1/4 ounces—1/4 ounce. Emilie—32 ounces—3/4 ounce. Cecile—30 1/4 ounces—no gain. Marie—25 1/4 ounces—1/4 ounce.

There was more noise and hope about the little Dionne farm home today, for the quintuplets whose health the world is watching have developed healthy appetites.

Meal times comes around pretty often, every two hours, but not too often to suit the five little sisters. "They were wide awake and yelling at their last meal," said Dr. A. R. DeFoe. "They are getting to know when it's dinner time."

Rum in minute amounts is being given the children to stimulate them and they seem to enjoy it, the physician made known.

"Brandy is the usual thing but I didn't have any so I used rum," he explained. "The main thing is the alcohol, which stimulates. They seem to enjoy it. They stick out their tongues when the rum and feeding time appears."

While the Dionne family rejoiced in Dr. DeFoe's statement that "I am more optimistic than I ever have been," word was received from San Francisco that twin boys were born there yesterday to Mrs. Aldo Belmont, a first cousin of Avila Dionne, father of the quintuplets. One of the twins died later. Twins have been frequent in Mrs. Dionne's family also.

Mrs. Dionne is expected to leave her bed today for the first time since her confinement. Dr. DeFoe said the 24-year-old woman, now the mother of ten children, was near death when the quintuplets were born ten days ago.

An example of the unusual precautions and attention given the infants is the fact that the Ontario government is repairing the road to the Dionne home so Dr. DeFoe can make the daily trip more easily. The customs department of Canada permits anything necessary for the children's welfare to enter the country without delay.

Impeachment Urged

The house of representatives judiciary committee voted to recommend to the house that Federal Judge Charles E. Woodward (above) of Chicago be impeached. (Associated Press Photo)

DROUGHT RELIEF STARTS AT ONCE

WASHINGTON, June 8.—(P)—President Roosevelt directed his aides today to proceed at once with a vast drought relief program involving \$325,000,000 which he will recommend to congress this week.

Harry L. Hopkins, federal relief administrator, was put in charge of what the president regards as one of the most serious disasters ever to hit this country.

Hopkins, in conference with the president, reported that the affected areas involving 10,000,000 persons in at least 15 states.

Mineral Display Drawing Throngs

Crowds have been becoming so thick at the mineral display in the Hunt building today that the valuable display was closed to spectators at times today while crowds inside completed inspections of the many exhibits. The mineral display is one of the most popular destinations of the thousands of Jubilee visitors.

CITY LEADERS INVITED HEAR SUNDAY SERMON AT ENGLISH LUTHERAN

Officials, business and professional men and women are especially invited to hear the sermon on "The World's One Great Chance," which will be preached next Sunday at the 11 a. m. service by Dr. George P. Kabele in Zion English Lutheran church, Fourth street near Oakdale avenue.

"The Hon. Henry A. Wallace, secretary of agriculture," says Rev. Kabele, "referred to the need of acting on this one chance, in the closing part of his address last Sunday, and great world political and business leaders and thinkers in various nations are becoming more and more convinced that it is the only way out for an enduring social transformation such as the new deal seeks" and which the world needs for the preservation of peace and to save it from political and moral chaos, or from Marxian communism.

"What do we need to do about it before too late? Action is needed now," says the pastor.

FIRST VESSEL LEAVES PORTLAND SINCE STRIKE

PORTLAND, Ore., June 8.—(P)—The steamer North King of the Pacific American fisheries, the first vessel to leave Portland with cargo loaded with approval of striking longshoremen, sailed from the Oceanic terminal here today bound for Alaska with 646 persons aboard.

The sailing of the North King was Portland's participation in the opening of the strike blockade sufficiently to allow Alaskan cannery ships to go north for the season. Others are

leaving Puget sound ports for the far north.

Fight Film Heads Rialto Double Bill

Fight fans all over the country will recall how Gene Tunney fought his way to the heavyweight championship, and into the heart of a prominent society belle. They still read of Jack Dempsey, because he always gave them plenty of action while fighting. In "He Couldn't Take It," coming to the Rialto theater today on their double feature program, Ray Walker plays the leading role of Jimmy Case, whose flair for fighting causes him to lose job after job and run out of excuses to offer his fiancée, Virginia Cherrill.

Tim McCoy, in "Hell Bent for Love" will be on the same program.

Good Beer

Properly brewed, properly aged... that's why it has that "hoppy tang"—that exhilarating real-beer flavor!

- Tuna Cosmopolitan Salad
- Rollad Tuna Sandwich

"It Doubled the flavor of my STRAWBERRY JAM!"

THESE RIPE STRAWBERRIES TASTE EVEN BETTER IN JAM WHEN I MAKE IT THE CERTO SHORT-BOIL WAY!

When Mrs. Brown first tried Certo, she couldn't believe how much better jam tasted!

WHY don't you go to your grocer tomorrow—get some ripe strawberries, sugar and Certo—and put up a batch of wonderful Strawberry Jam? And you can't put up too much! More than four million jam and jelly makers are now using Certo—and these include most of the State Fair Champions all over the country.

They will tell you that Certo ought to give you half again more glasses from the same fruit, and allow you to finish it in one-third the usual time.

They will tell you, too, of the extra flavor that you get in any jam or jelly made with Certo.

When you use Certo, you boil your jellies or jams only a few minutes. The fruit juice does not boil away, and you never get that "boiled-down" taste that comes with long, tedious boiling. Certo is sold by all grocers. A product of General Foods.

SPECIAL STRAWBERRY NEWS!

Read carefully before making Strawberry Jam

1934 will be a good strawberry year. Plan to start your Certo jam cupboard with the first luscious strawberries. This year we've had unusual weather conditions and fruits may vary more widely than usual in moisture content.

The Certo laboratories recommend that for strawberry jam you boil the fruit and sugar mixture of 1934 berries four minutes instead of one—and for even better results and keener flavor, add the juice of half a lemon. (Recipe above.)

HOW TO MAKE THE BEST STRAWBERRY JAM
Certo Laboratories report this recipe best for use with 1934 berries. See also Special Strawberry News below.
4 cups (2 lbs.) prepared fruit
7 cups (3 lbs.) sugar. Juice of 1/2 lemon
1/2 bottle Certo

To prepare fruit, grind about 2 quarts ripe berries or crush so that each berry is reduced to pulp.
Measure sugar, prepared fruit, and lemon juice into large kettle, mix well, and bring to a full rolling boil over hottest fire. To reduce foaming, 1/4 teaspoon butter may be added. Stir constantly before and while boiling. Boil hard 4 minutes. Remove from fire and stir in Certo. Pour into jars and seal at once. Makes about 10 glasses (8 fluid ounces).
