

SOUTHERN PACIFIC TO DETOUR DURING UNDERPASS WORK

ASHLAND, June 15.—(Spl.)—The Southern Pacific company began work preliminary to the work of the highway department, on the underpassing north of Ashland today. Railroad officials today were surveying the place where the detour for trains will be built.

A trestle will be built across the highway at a point that will not interfere with work on the abutments and approaches to the new underpassing, and trains will be routed over the temporary structure during the highway work. When the abutments are completed the tracks will be re-laid on the original alignment.

The Southern Pacific officials, William Flackus, foreman of the bridge gang for the Shasta division, and George Taylor, assistant division engineer, with headquarters at Dunsmuir, indicated that work would be pushed with all possible speed to clear the way for the highway contractor.

While the railroad enterprise will not employ any additional local men, highway work will take from Ashland unemployed approximately 20 men.

The legend of the Smoki Indians that the snake is a little brother of the people and is capable of interceding for rain was revived at the annual snake dance in Prescott, Ariz. Dancers are shown carrying sinuous reptiles in their mouths to show the snakes that Indians believe them friends. (Associated Press Photo)

CALLS ALL-BRAN NATIONAL NATURAL LAXATIVE

Delicious Cereal Checked His Constipation

Here is an unsolicited letter from Mr. Daniels:

"For many years I have been habitually constipated, and have used all sorts of laxatives. So, in fairness to Kellogg's ALL-BRAN, I heartily claim it to be a most wonderful remedy for constipation.

"Need I tell you that I have long since ceased using laxatives? Kellogg's ALL-BRAN is the National Natural Laxative. If it were used by every family in the United States for breakfast, we would have a much healthier race of people."—Mr. John Daniels, 1090 Third St., North Bergen, N. J.

Tests show Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines and vitamin B to help tone the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this food much pleasanter than risking pills and drugs? Two table-spoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

LOGS PIN DRIVER IN CAB OF TRUCK

Arthur Farra, 29, of the Murphy district, is in the Jacksonville sanitarium recovering from serious injuries he received Wednesday when he was pinned in a truck cab by logs.

According to F. M. Wickman, step-father of the injured man, Farra was driving down a hill near Rich with a load of logs. He lost control of the truck, which sped off the road and into a tree. One of the logs on the truck was jarred loose and shot forward along the cab, bending the cab and pinning the young man in.

Men arrived at the accident almost at once, though it took two hours to release Farra. As far as was known Thursday no bones were broken, though several stitches were taken in a long cut on the scalp.

Why Some Men Succeed

What a difference there is in men! Some of them are full of pep, energy, ability. They think straight and they think fast. They get there ahead of the other fellow. What's the difference?

Usually a man eats success or failure at the breakfast table. Often he makes or loses a contract according to what he eats for lunch. Wise eating is the smartest thing a business man can do. At least one meal a day, especially in this warm weather, eat Shredded Wheat, milk, and fruit.

If you didn't have any other food you could live on this combination, and be mighty well on it, too. It gives your body all it needs for energy, tissue building, and disease resistance, and it gives you bran to keep you regular.

The right food has a great deal to do with your success. Try Shredded Wheat for one meal a day, and see what happens!
