Johannes Steel Says Dictator Given Enough Rope, Has Hanged Himself — Nazis Badly Split Into Units

NEW YORK, June 27.—(AP)—The New York Post, in the second of a series of copyrighted articles by Johannes Steel, says today that, during the last year and a half Fritz Thyssen, steel and power baron, President Von Hindenburg and Vice Chancellor Von Papen "have given Hitler sufficient rope to hang himself," and adds, "Hitler has finally done so."

Steel, private secretary to the president of the Reichsbank, Hjalmar Schacht, gives the following as "the truth about Germany":

"Storm troops have mutilated sixty times within the last ninety days."

"More than two-thirds of them would desert Hitler in a civil war."

"Less than a third of his civilian 'followers' are loyal."

"The Nazis have already split into innumerable independent local units."

"Desperate terrorism, the under-cover opposition of Catholics, protestants, Jews and communists is increasing and solidifying."

Steel, in the first series yesterday, said that Hitler rule of Germany has come to an end and predicted the Nazi will be succeeded by a military dictatorship.

FRUIT LABEL PASTE REQUIRED FOR BOXES DELAYED BY STRIKE

The longshoremen's strike, raging in all Pacific coast ports has prevented delivery of fruit label paste and has held up one phase of pear box-making, now underway, preparatory to the opening of the shipping season, scheduled to start between July 15-20.

Four carloads of the paste, used in pasting labels on fruit boxes, is held on the Portland docks, strike-bound. It has lain there for over a month.

The paste supply, intended for use in all the packing plants of the city, cannot be moved until the strike is settled.

Most of the packing houses have started box-making for the coming season.

Ideal weather conditions for the development of pears prevail, and the crop outlook is bright. The pears have started to size.

Crop prospects are also bright. Clarence Pankey, veteran packer and orchard worker, estimates a better apple crop than last year, with more Bartletts, about the same Bae crops, with the D'Anjou slightly less than in 1933. Other varieties will be about the same as last year.

\$80,000 PAID IN QUARTERLY TAXES

Quarterly tax payments for Jackson county, for the period ending June 15, will aggregate slightly more than \$80,000, according to Gertrude Martin, chief deputy of the tax collection department of the sheriff's office. This is about the same as the first quarterly payments. A number of taxpayers have made full payments recently.

July 1, the ten payment tax plan, passed by the legislature expires. People who have not paid their taxes for 1930 and prior years, are advised to take advantage of the plan, and save their property from foreclosure.

The plan gives the delinquent owner an opportunity to liquidate the debt in five years, with semi-annual payments.

GRAND JURY IN RECESS TODAY

The grand jury, Floyd Ross, Central Point, foreman, recessed today owing to the absence of a number of witnesses, in cases pending, but will resume sessions tomorrow. The grand jury expects to conclude its deliberations Friday—possibly by noon.

The grand jury in its first days deliberation investigated a number of minor criminal cases, including some referred direct to the grand jury, without the expense of preliminary hearing. These include two liquor violation cases, an auto theft case, a larceny from the person charge, and criminal libel charges for the circulation of malicious and slanderous written material, attacking the courts jury system, and established law enforcement agencies.

NEW BRITISH NOTE EMPHASIZES WISH SETTLE WAR DEBT

tion near America to the United States in payment have drawn government opposition.

Would Alleviate Citizens It was officially pointed out that this would mean compulsory alienation of British citizens.

Few positive developments in the debt situation are expected here this summer, London feeling the question may lie dormant until congress re-assembles next fall.

Another financial matter—at this time more pressing—occupied the government today. Representatives began conversations with a German delegation in an attempt to reach an agreement on a moratorium dispute involving a potentially costly trade war.

A bill rushed through the house of commons and expected to be passed by the house of lords tomorrow gives the government authority to establish a clearing house to impound German commercial accounts.

JUBILEE FINANCES TO BE CANVASSED

The finance committee of the Diamond Jubilee, and other committees will hold a meeting Thursday evening to go over the financial situation to date, as gathered to date, according to Fred Wahl, chairman. It is now thought that most of the bills have been filed, and that a summary can be compiled. No final report will be made, until all the finance committee are on hand. Several are now on jaunts.

STRIKERS SMASH MILWAUKEE CARS

MILWAUKEE, June 27.—(AP)—Forty-seven street cars were undergoing repairs for shattered windows, damaged airbrakes and severed trolley ropes in shops of the Milwaukee Electric Railway and Light company today as the Employees' Mutual Benefit association, the company union which was not involved in the utility strike, announced it would ask for protection by national guardsmen if rioting was renewed.

Street cars were running on near normal schedules after disorders which last night sent 12 persons to hospitals and 15 to jails. But service was more irregular.

PENDLETON, June 27.—(AP)—Ruth E. Hall, 47, committed in 1928 to the Eastern Oregon state hospital for the insane, hanged herself today by a cord tied to the bars of her cell. She was committed from Vernonia.

ALBANY, Ore., June 27.—(AP)—Dr. W. F. Smith of San Francisco was brought to a hospital here today for treatment of severe injuries he suffered this morning in an automobile collision on the Albany-Lebanon highway.

FEHL PROFITS BY MODIFICATION OF COURT'S FINDINGS

Opinion of the state supreme court modifying the decree of Circuit Judge E. C. Latourette of Clackamas county, in the suit of Niedermeyer, Inc., against Earl H. Fehl and Electa A. Fehl, the Eagle Point irrigation district, Roy A. Parr and Ralph Jennings, involves \$3500 with interest and other charges, which attorneys say will bring the total close to \$5000. Copies of the supreme court opinion were received this morning.

Attorney George M. Roberts said this morning that the ruling "virtually means Fehl won the suit, and that Niedermeyer will have to pay the amount." Attorney Roberts represented Niedermeyer, Inc. Attorney E. F. Kelly said the opinion "was a financial windfall for Fehl."

Fehl originally sued for \$35,000, a share in the Holly theater for services rendered, and concerning a personal note, a mortgage on the Pacific-Record Herald mechanical equipment, and business relations between the two men for a considerable period of time.

The opinion holds that Niedermeyer should have applied a \$3500 credit to a personal note, instead of the Pacific-Record Herald note, which would have extinguished the personal note.

The legal controversy was described by attorneys as highly involved.

Roy A. Parr, former Sheriff Ralph G. Jennings, and the Eagle Point irrigation district were named as co-defendants in the action, to keep the records straight. Parr, at the time of the filing, held a \$15,000 libel verdict against Fehl, then Sheriff Jennings was party defendant because of his duty to serve summons, etc., on Fehl and the Fehls had a claim on property in the irrigation district.

Fred Fick, chairman of the Jackson County Chamber of Commerce clean-up and paint-up campaign announced Monday a final effort will be made to complete the campaign started last month.

It is expected to carry the campaign on during the month of July.

"Considerable painting and remodeling has been done throughout the city," stated Mr. Fick, "and we hope that much work can be created during the next month." On account of Jubilee activities the honor roll in connection with the clean-up and paint-up campaign, to have been published by The Mail Tribune, has not been furnished, but this will be revised next week, according to Mr. Fick.

One thing in particular it is the intention of this committee to concentrate on, and that is the eradication of earwigs throughout the city. Citizens are asked to co-operate with the paint-up and clean-up committee by cleaning up their gardens and exterminating the earwigs.

Mr. Fick stated that throughout the residential sections, considerable painting has been done, but there are still many homes that are in need of a coat of paint and it is hoped that by the end of July the city will look cleaner than it has for years.

The tourist season is almost at its height and hundreds of visitors come to the city every day and their impressions of the city, to a great extent, depend upon the clean appearance of Medford.

Those who have any painting or remodeling done, or any kind of clean-up work, are asked to notify the Chamber of Commerce so that the names may be included in the honor roll, which will be published daily next week.

LUMBERING HIT BY DOCK STRIKE

ABERDEEN, June 27.—(AP)—Farr-reaching effects of the longshore strike upon the northwest lumber trade were noted today by Henry N. Anderson, Grays Harbor lumberman who spent the last several weeks in Washington, D. C., and other east coast cities. The biggest setback the strike has caused, he said, is the loss of fir lumber markets on the eastern seaboard.

Southern pine is rapidly replacing fir in the retail yards, he declared. Two hundred yards in New York City have switched from fir to pine and one large outfit in the northwest, which operates its own retail yard has found 65 per cent of the business supplanted by pine. This is because fir cannot reach markets in time to keep up with the pine competition.

LAND PURCHASED FOR GAME HAVENS

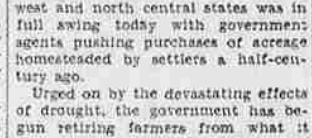

WASHINGTON, June 27.—(AP)—The purchase of hundreds of thousands of acres of marginal land in the mid-west and north central states was in full swing today with government agents purchasing purchases of acreage homesteaded by settlers a half-century ago.

Urged on by the devastating effects of drought, the government has begun retiring farmers from what it considers "sub-marginal" acres and returning those acres to the use of birds and other wild game.

J. N. Darling, chief of the bureau of biological survey, and that 179,000 acres were in use process of being purchased and others would be added to the list as rapidly as possible.

The land purchase will "help people living in the drought area more than any method I know of," he said. "It is an economic as well as a social relief program."

ROBERT S. LEWIS OF JACKSONVILLE PASSES IN IDAHO

Robert Stanley Lewis, 21, the son of Mr. and Mrs. Oscar Lewis of Jacksonville, passed away at St. Marion, Idaho, early Tuesday morning, following a brief illness. He had just been graduated from Oregon State college on June 4, and on the 6th he left for Clarkhill, Idaho, where he had accepted a forestry position. He had taken a class of men in camp to teach them tree identification.

He was born in Jacksonville February 27, 1913, and attended grammar and high school there, graduating in 1930. He also attended Ashland Normal school in 1931, going from there to Oregon State, where he graduated from the school of forestry.

Robert had taken an active part in Boy Scout work in Jacksonville, being one of the highest ranking scouts in the Crater Lake council. He was a member of Troop No. 35, Jacksonville. He is survived by his parents, Mr. and Mrs. Oscar Lewis, one brother, Earl E. Lewis, his grandfather, George Lewis and a host of friends and relatives to mourn his passing.

The body will arrive in Medford tonight, and funeral services are to be conducted Thursday afternoon at 1:30 at the Jacksonville cemetery. Arrangements are in charge of Conger Funeral Parlor, with the Christian Science service to be held.

CLEAN AND PAINT DRIVE CONTINUES THROUGHOUT JULY

Fred Fick, chairman of the Jackson County Chamber of Commerce clean-up and paint-up campaign announced Monday a final effort will be made to complete the campaign started last month.

It is expected to carry the campaign on during the month of July.

NEW DEAL RUIN IS BIG BUSINESS AIM ASSERTS TUGWELL

(Continued from page one)

amendments described as clarifying the licensing of powers of this recovery unit. Opposition sprang up, denouncing the move as an attempt to hand a czar's power to Secretary Wallace, and the amendments died.

Tugwell said big processors fought the legislation, although previously some of them had urged the AAA to clamp down on small businesses with the same licensing powers, clarified in the amendments. Some processors are accused of "sweating" farmers, wage earners and consumers.

Opposition Goes Deep

"The opposition to the proposed amendments by the processors goes deeper than appears on the surface," Tugwell said. "It is preliminary to an attempt to overthrow the agricultural adjustment program at its foundation."

"The next step will be a concerted drive at the processing tax. (A tax levied on processors to reimburse farmers for curtailing production). Already it is manifested in the subtle propaganda which farmers are expected to swallow about the hog processing tax."

"Farmers are told that the tax is too high; that if there were no tax at all the price of hogs would go up; that the processing tax on hogs is being paid by the farmers themselves."

"At the same time many of the packers complain to us that they are compelled to pay the tax, that they can neither pass it on to the consumer nor back to the farmer."

"And, simultaneously, opponents of the new deal in the east, like Senator Reed in Pennsylvania, tell
