

PRICES FOR MILK DEFINED BY BOARD FOR LOCAL REGION

New Order Fixes Minimum Scale in Jackson and Josephine Counties — Compliance Is Mandatory.

A new order, issued by the Oregon Milk control board, E. G. Harlan, chairman, O. M. Plummer and Burge W. Mason, became effective the first day of this month, and replaces the official order, No. 6, which has previously been in effect.

The order deals with the fixing of the minimum prices of milk and cream in the market area of the Rogue River valley and defining the limits of the milk shed of this valley.

John S. Billings of Ashland, representative in this district of the milk control board, was a visitor in Medford Thursday afternoon and pointed out that customers, as well as the retailers, are subject to prosecution if they fail to comply with the milk ordinance, as issued by the state board.

The order clearly defines the prices and manner in which milk may be purchased and any violation of this will be taken into court, he pointed out.

The order, which is No. 66, follows: 1. Such investigation and proofs as the emergency permits, having been made, and public hearing having been held after reasonable notice to the public through newspapers, letters and otherwise, and due deliberation having been given, it is hereby ordered that until further notice the following temporary provisions shall govern exclusively the minimum prices to be charged in the sale of all grades of market milk and cream by milk dealers in the Rogue River valley, counties of Jackson and Josephine, state of Oregon:

Minimum Milk and Cream Prices. The price to be paid producers shall be \$2.10 per hundred-weight, 4 per cent fat test, f. o. b. market, with a differential of 4c for each one-tenth pint over or under 4 per cent. The price of farm separated market cream to producer, shall be 40c a pound butterfat, f. o. b. market.

Minimum prices, wholesale to stores: Quarts 8c

Half-pints 8c (Half-pints supplied to school children may be 2 1/2c, with exception of certain designated cases, which may be supplied free.)

Out of stores (minimum prices): Quarts, doorstep delivery or credit sales 10c

Quarts, cash over counter in bottles 8c

Pints 6c

Half-pints 6c

Milk distributed at above prices in quarts, pints and half-pints shall be mechanically bottled and capped.

Skim Milk: Whole, Rtl. 10c

Gallons 1.15

Whipping Cream (30-36 per cent butter fat): Whole, Rtl. 1.15

Half-pints 1.15

Pints 1.15

Quarts 1.15

Gallons 1.15

2. All the above prices are based on 4 per cent milk. For each point butterfat in milk raised above 4 per cent butterfat the price shall be increased 1c per quart, 1/4c per pint or half-pint. All milk from legal to 4.2 per cent will take price of 4 per cent; over 4.2 per cent and not over 5.3 per cent takes price of 5 per cent milk; average of three tests during 30-day period.

3. The term "milk" means fluid milk and the term "cream" means sweet cream, both sold for human consumption in fluid form. All cream over 22 per cent and under 30 per cent at 8c per point above table cream gallon price, and 6c a point over whipping cream gallon price for all cream over 36 per cent.

4. No cash discounts, trading stamps, rebates, advertising allowances, unusual extensions of credit, gratuities or free service of any nature shall in any way enter into the sale or purchase of milk or cream in Jackson and Josephine counties under this act.

5. Distributors shall charge for bottles at the rate of 5c and the same amount allowed upon their return. No dealer will be permitted to give credit for more empty bottles than he delivered to the stop; and he shall charge 5c for each bottle that the stop fails to return. Stores shall not buy bottles or accept bottles in payment of groceries, but shall be limited to accepting them only in exchange for milk purchases.

6. The use of any type or design of milk or cream bottle cap other than the standard flat disc cap now in general use shall require the additional minimum charge of 1c per bottle.

7. Under the milk control law every milk dealer is required to operate under a license granted by the board. The term "milk dealer" means any person who purchases or handles milk within this state or sells milk within the state for sale in this state or sells milk within the state, except when consumed on the premises where sold. Violations of the law shall be punished by a fine of not less than \$25 or more than \$1000 or imprisonment for not less than 30 days or more than 90 days, or both.

8. Milk treated mechanically by any process other than pasteurization shall be sold on the basis of 1c per quart, 1/4c per pint or half-pint above the regular prices established in this order.

9. Distributors' sales of bottled milk and cream to peddlers shall be 12 per cent below wholesale prices, and accounts settled in full every 30-day period. Peddlers shall not sell at wholesale or retail below prices set in this order. No peddler shall change the source of his supply without written permission of the milk board.

Market Area and Milk Shed. For the purpose of selling milk and cream the market area shall be the geographical limits of Jackson and Josephine counties, Oregon. For the purpose of supplying milk and cream in the above described market area, the boundaries of the milk shed are hereby designated as those farms and premises on which milk and (or) cream was being regularly produced for sale and distribution in the above described market area on December 15, 1933.

Producers who were not shipping market milk and (or) cream on December 15, 1933, may file application with the milk control board to ship and sell when market conditions, in the opinion of the board, may require and justify any or all of their production.

Prosperity Plan Devised. "I have devised a plan to throw off the yoke of depression and lead us back to the land of freedom and plenty. I cannot fight this alone. I must have the support of the good American people. We all know that almost everything is wrong, and why do a few have to fight it alone? "The road we have been traveling for years is leading to a pit, and we are heading for it. It must be ended. This can be ended with the ballot box, instead of war and bloodshed," Mr. Wirth declared.

Referring to the principles of the party, the candidate said: "This will bring us into our own. We have a right to live and let live. We are only applying the Golden Rule." He made reference to those in power "taking the bread from your children's mouths," and said, "we must throw off the yoke of tyranny."

Some People Hungry. "I can prove to you," he said, "that the people are going hungry in this land of plenty. Are we able to take care of ourselves in Oregon?" He read an Associated Press dispatch from Portland, published in the Mail Tribune, which showed an increase deposit in the six Portland banks. He quoted figures showing that 30,000 families in the state would need aid during the coming year and, according to Mr. Wirth's plan, the surplus bank deposits could be distributed among the needy families.

Mr. Wirth told his listeners that the increase was made on the bank accounts of only a few people. He said that \$500 could keep a family a year and if this surplus was distributed among the needy families, Oregon could take care of itself. He did not say how the increased bank deposits would be transferred to a public fund.

Mr. Wirth's plan, as explained last evening, is to take all persons off relief, except the old and disabled. He suggested changing the flow of currency into a fund to give permanent employment and relief to the needy.

Right to Live. "It is our natural birthright to live, and live well," declared the speaker. "I'm not radical on this. I have had the 'brains' of the coast consider this plan. No one will criticize it. 'It is wonderful if you can put it over,' they say. Keep faith with the party and it will keep faith with you."

He said he had been invited to hold this organization meeting in various parts of the state, but that he had chosen the county dearest to his heart—Jackson county.

Mr. Wirth's speech was applauded and, when a rising vote was taken, all present agreed to return next week, with more supporters, in order that the party organization might be perfected.

PORTLAND, Ore., July 6.—(AP)—I. L. Davison of Portland, whose automobile last Wednesday night collided with one in which William Elmsig, state purchasing agent, was riding, was fined \$100 and sentenced to 30 days in jail when he pleaded guilty yesterday to a charge of driving while drunk. The court suspended 25 days of the 30-day sentence.

EUGENE, Ore., July 6.—(AP)—Jimmy Green, 3 years old, was killed last night at a Marcola dock when a pile of lumber fell on him. He was the son of Mr. and Mrs. Burl B. Green of Marcola.

Dade county, Georgia, is so cut off from the remainder of the state by towering Lookout mountain that all of its commercial and social contacts are adjacent with Tennessee.

Some linguists believe that part of the language of the Tule Indians of Panama derives from the Scandinavian tongues.
